For Business, Olympic Gold Is Lead

Tourist Trade Now Expects Los Angeles Games Will Be a Financial Bust

By Jay Mathews

Washington Part Service
LOS ANGELES — The opening ceremonies were enchanting and the first races full of thrills, but Los Angeles businessmen have found their dreams of Olympic gold unexpectedly turning to straw.
"If it continues at this rate, we

have had in 20 years," said a Dis-neyland spokesman, Al Flores, on A Hertz Reni-A-Car representa-tive, Donna Cook, noting two lots

will have the worst summer we

at the Los Angeles airport stuffed with unused cars, said, "Wake me up when it's over. Widespread expectations of heavy Olympie tourist business

Herzog Calls in Labor, Likud Leaders In a Move to Advance Coalition Talks

By James Feron New York Times Service

JERUSALEM - President Chaim Herzog of Israel sought Monday to advance Israel's lagging talks on a coalition government by calling in the leaders of the two major political blocs for informal discussions before the official elec-

tion results are announced Tuesday

A spokesman for Mr. Herzog said be would meet Tuesday with Shimon Peres, leader of the 44-seat Labor alignment, and then with Prime Minister Yitzhak Shamir, whose Likud bloc formed the last two governments but got only 41

seats in elections a week ago. The official results are not expected to change the unofficial tallies that showed 13 other panies in control of 35 seats, producing an apparent impasse in efforts to form a 61-vote governing coalition in the 120member Knesset, or parliament.

Once the final figures are published. Mr. Herzog plans to begin formal discussions with all or most of the Knesset party leaders in order to determine who has the best

chance to form a government.

An official in Mr. Herzog's office said that in an unusual move, the president was meeting with the leaders of the major blocs informally at first "because he wants to

see how it's going,"
Mr. Herzog is understood to favor a national unity government. It could bring the major parties to-gether, at least initially to help resolve the nation's economic ills, in a wide coalition that would not be dependent on the smaller parties

and their ideological demands. Both Mr. Shamur and Mr. Per have been saying they favor such a wide coalition. But they have also been courting the small parties to form a more narrow coalition.

Likud now seems in a better position than Labor because the demands of the four religious parties are apparently more acceptable to the right-wing Likud than to the

Labor alignment. That became apparent Sunday when Shas, or the Sephardi Torah Guardians Party, with four seats.

said it was "strongly inclined" to join a Likud coalition. Mr. Feres then met with Shas leaders and said the decision was "not irrevocable." The religious parties had been members of Labor coalitions for the many years that Labor domi-

nated the political scene here, and they were also members of the last two governments led by Likud. Their leaders have indicated that they were able to gain more reli-

gious concessions under Likud, but that might have been because these were narrower coalitions and therefore less resistant to demands by

Last Unit Of Marines Leaves as **U.S. Shifts Embassy**

BEIRUT - The last U.S. Ma rine combat troops in Lebanon began pulling out of Beirut on Mon-day, leaving guard duty at the new U.S. Embassy to a few marines and Lehanese security men.

Three amphibious assault vehicles carried a group of marines to the West Beirut waterfront at dawn and into the Mediterranean for the short ride to two U.S. ships off-

The departure of about 100 comhat troops from the 22d Marine Amphibious Unit was expected to take two days, coinciding with the U.S. Embassy's move into new offices in East and West Beirut, It appeared that fewer than half left Monday, but embassy officials declined comment.

The move came as militias exchanged sniper fire southeast of the capital and the Lebanese government cleared more barricades from highways linking Christian East and mainly Moslem West Beirut.

Marine comhat units were diverted from Lebanon's multinauonal peace-keeping force to guard U.S. diplomats. The marines served as backup to the embassy's regular marine security guard contingent when American diplomats crowded into Britain's embassy on West Beirut's waterfront after the truck bombing of the old U.S. Embassy in April 1983. Sixty-three persons were killed in the attack.

With the departure of the 22d Marine Amphibious Unit, the new U.S. Embassy will be guarded by about 15 marines and a special Lebanese security force that will include former Druze and Shiite Moslem militiamen, U.S. officials

"Security experts believe that security is and will be, without the marines, as effective as it was with them," said Jon Stewart, an embassy spokesman.

Diplomats prepared for the scheduled opening Tuesday of the new embassy, about half a mile (one kilometer) west of the temporary offices. Surrounded by high walls topped with barbed wire, the two-story building is set back from the waterfront. A larger, five-story "embassy annex" is expected to open in Aukur, a hillside suburb of East Beirut, on Thursday.

The U.S. government, apparently chose the East Beirut office for security reasons after Moslem militiamen gained control of West Beirut on Feb. 6.

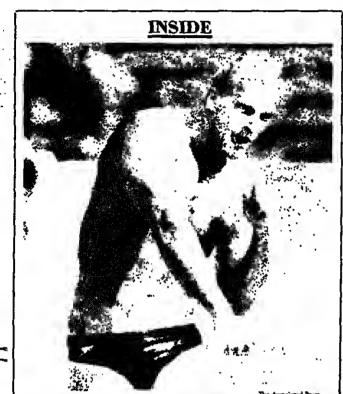

to new cease-fire violations. Christian and Moslem gunmen traded sniper fire in the hills above Beirut airport, radio stations said. No casualties were reported.

Government troops and civil engineers worked for the third day in central Beirut clearing debris from area around the Green Line, which had divided the capital since February. About 2,500 soldiers of a new Moslem-Christian army continued to spread out along the Green Line for the reopening Wednesday of two more crossings between East and West Beirut.

Failure of Talks in Iraq Further Divides Kurds

By David B. Ottaway

Bashington Fest Service BAGHDAD - Negotiations between Baghdad and one of the main leaders of Kurdish rebels in northern Iraq have broken down, leaving the Kurds more divided and the central government stronger, according to Iraqi and western diplomatic sources.

The talks, under way since November, reportedly continued inconclusively until May, when clashes between tragi security forces and Kurdish youths who were holding protests in several northern towns apparently provoked their collapse. Since then, there have been no negotiations, according to the sources.

The Iraqi government bas said nothing official about the talks. Latif Jassem, the Iraqi information minister, recently said only that a dialogue was still taking place.

He insisted that conditions in - Iraq's three northern Kurdish provinces were excellent and cited the presence of 50,000 Kurds in Iraq's army as proof of their suppon for the central government and its war against Iran.

"Ayatollah Ruhollah Khomeini was wrong in his gamble that he would be able to come into Iraq thrnugh Kurdistan," Mr. Jassem said. "Our Kurdish people are with the revolution, the country and

. President Saddam Hussein. Reports about lighting in the north have been sketchy; foreign gournalists have not been allowed

each to travel there. The worst of the recent clashes. in mid-May, reportedly took place in Sulaimaniya in northeast Iraq. where 15 to 20 Kurdish youths were killed after security forces Aired on a demonstration of students opposing summer service in The army Similar protests reportedly took place in Mosul and in Erbil, capital of the Kurdish re-

ernment called off its drive to enroll Kurdish students in the army during their summer vacation this

Since 1977, Iraq's 2.5 million to 3 million Kurds have had a form of limited autonomy in three northern provinces, Arbil, Sulaimaniya and Dohuka, with their own legislative assembly and executive council as well as schools using the Kurdish

But there is also a sizable Kurdish minority in the mountains of northern Iran, and one side effect of the war between Iran and Iraq bas been to rekindle Kurdish demands for greater autonomy in both countries

Baghdad and Tehran have deliberately sought to provoke a Kurd-ish rebellion in each other's northern provinces, hoping to weaken the other country.

The result has been a fragmentation of the Kurdish populations in the two countries. Some Kurdish leaders have sided with the central governments and others taken up arms agains) them.

In Iraq, one of the main opposition Kurdish factions is led by Idriss and Masoud Barzani, sons of the late mullah Mustafa Barzani. The elder Barzani headed a revolt in the north prior to the so-called Algiers Agreement in 1975, which temporarily settled a border dispute between Iran and Iraq. Under that accord, the leaders of both countries agreed to stop aiding the

other's opposition.
But with the onset of the Iran-Iraq War in September 1980, the Barzani brothers revived their father's movement and now reportedly have a guerrilla force of 10,000

to 12,000 men.

Five European technicians are being held by the Barzanis but they are expected to be turned over to the International Red Cross soon.

President Saddam is said to have turned implacably hostile toward the Barzanis after they helped Ira-nian forces take control of two areas of Iraq in the oorth io offen-sives in July and October. In retaliation, the president sent

security forces into pro-Barzani villages and rounded up 8,000 men, who are still being held in a camp near the Jordanian border. The other main Kurdish opposi-

tion group is the Patriotic Union of Kurdistan, led by Jalal Talebani, west of Sulaimaniya. He is a fierce New Iran Offensive rival of the Barzanis.

In Last November, Mr. Saddam opened negotiations with Mr. Tale-bani oo general Kurdish demands for more autonomy and a share of the country's oil wealth.

There are varying versions about what caused the failure of those oegotiations. One holds that they broke down over three issues.

These were said to have included Mr. Talabani's demand for Kurdish control of security forces throughout the autonomous re-gion; the inclusion of Kirkuk prov-ince, where some of Iraq's main oil fields are situated; and the setting of a fixed percentage, of oil reveoves for the Kurds, reportedly 20 to 30 percent.

Other reports say Mr. Saddam was unable to obtaio a consensus was unable to obtain a consensus within his government on the Budget Minister

its own restive Kurdish population, is said to have opposed the accord because of its potential effect there.

There are reports that as many as ager, said that "there are a lot of 3,000 of Mr. Talebani's 9,000 fighters have broken away and are trying to link up with the Barzanis. t they are said to have been rebuffed and to have established yet

another splinter group.

The assessment among Western and Iraqi specialists here is that Mr. Talebani is oow far weaker for having tried to negotiate without producing results and that the Barzanis have gained in strength, although the brothers are unable to threaten government for control of the towns in the north. As a result, the biggest winner appears to be Mr. Saddam and the

central government.

Iran has begun a new drive

against the Kurdish rebels in its northwest region, according to reports reaching Tehran, Reuters reported Sunday.

An army spokesman said that at least 220 rebels and Iraqi soldiers supporting them were killed and 500 were wounded in fighting that

began Thursday.
There was oo indication that Iranian troops crossed inm Iraq as they did during two offensives in the same area last year.

Craxi Reshuffles Cabinet, Replaces

ROME - Prime Minister Betino Craxi made two changes in his

cabinet oo Monday to replace a minister who resigned because he was implicated in the P-2 Masonie Lodge scandal.
The changes followed approval

by leaders of the five parties in the coalition led by the Socialist prime minister on the outline of government economic policy.

Both steps have strengthened the coalition of Christian Democrats, Socialists, Social Democrats, Republicans and Liberals, which had been badly strained both by quarrels over policy and by demands for the resignation of Pietro Longo as

Mr. Longo, leader of the small Social Democratic Party, resigned on July 12. Pier Luigi Romita, min-ister of regional affairs, was given Mr. Longo's bodget portfolio, while Carlo Vizzini was brought in to take Mr. Romita's post. Both are also Social Democrats.

Bonn Coalition Reaches Compromise

BONN (Reuters) — Leaders of Chancellor Helmut Kohl's three party coalition reached a compromise Monday on environmental protection measures for a power plant at the center of a political dispute.

neasures for a power plant at the center of a political dispute.

Foreign Minister Hans-Dietrich Genscher said a coalition meeting had agreed on improved anti-pollution measures for the Buschhaus plant, but he gave no details. Mr. Genscher's Free Democratic Party broke ranks with the coalition last week to join opponents of the government's plan, who insist that the plant be fitted with sulphur dioxide scrubbers before it

The dispute forced the Bundestag's 520 deputies to break off their summer vacations to return to Bonn for an unusual session and renewed doubts about the reliability of the Free Democratic Party as a coalition

E. Germany Cites Praise for Bonn Ties

BERLIN (Reuters) — East Germany responded again Monday to Soviet criticism of its closer relations with Bonn and the West by publishing a Hungarian newspaper article praising the foreign policy of Erich Honecker, the East German leader.

On Saturday, the Communist Party newspaper Neues Deutschland had reprinted a critical article by its Soviet counterpart, Pravda, as if to acknowledge the limits on relations with Bonn: On Monday, it reprinted a lengthy commentary from the Hungarian trade union newspaper Nepszava saying that East German diplomacy had attracted "attention and

The article said that "it is not difficult in see the aim of doing a service to Europe and the world through developing bilateral relations."

Moscow Proposes East-Bloc Pipeline

MOSCOW (Reuters) — The Soviet Union announced a proposal Monday to build a natural gas pipeline for its East European allies. Western experts said the gas was intended to compensate for future stagnation or decline in oil deliveries.

Nikolai Ryzhkov, industrial chief in the Communist Party central:

not exist yet, just the signs and a marble plaque, already defaced by graffit, which was unveiled by Mr. committee, said Moscow had suggested that its Soviet bloc partners help build the new pipeline, which would pump 20 to 22 billion cubic meters of Reagan "in mark the commence-ment of the building."

Mr. Donovan, who has repre-

tion.

The East European states already receive gas through a pipeline they helped build in the late 1970s. They also are expected to take up to a third of the gas pumped through the pipeline from Siberia to Western Europe. It will have a capacity of 32 billion cubic meters when fully operational in the mid-1980s. sented the village oo the Tipperary County Council since 1960, insisted that construction would begin on Aug. 13 and would be finished sometime next year. The center, he promised, would include video dis-

Court Fines South Wales Mine Union

LONDON (Reuters) — A high court judge fined the South Wales regional coalminers' union £50,000 (\$66,000) Monday and warned that unless the union paid by Wednesday its entire £3 million in assets would

A spokesman retorted that the regional union would carry out national union policy of "total noncooperation with the courts." He declined to say specifically whether the fine would be paid.

The court was told that striking miners picketing the Port Talbot steelworks stoned two trucks delivering supplies despite a court order not to interfere. The judge said the fine was substantial because the union had

of Benigno S. Aquino Jr., the opposition leader.

In the mid-1970s, one of the major ambitions of President Ferdinand E. Marcos was to make the Philippines the "tourist and convention center of Asia."

For a while, after prodigious quantities of government money were spent on building luxury hotels and a convention center, it seemed to many that the Philippines was on its way toward achieving that ambition.

Today the hotels are deserted. Travel agencies and tour businesses are closing in droves.

According to the Ministry of Tourism, tourist arrivals were down 12 percent in the first three months of this year, compared with the same period a year ago.

Travel agents and others in the business say the situation is far worse. "It's a disaster." Tyler Tanaka, president of Japan and Orient Tours in Los Angeles, said of the falloff in bookings to the Philippines since last autumn.
The empty hotels in Manila

testify to just how much the country's image abroad has been tarnished by the murder of Mr. Aquino last August and events

Political discontent has not al-U.S. May Scrap \$4.2-Billion Air Defense Gun

By Kathleen Day

Los Angeles Times Service NEWPORT BEACH, California - The Pentagon is considering scrapping the U.S. Army's \$4.2billion air defense gun, named Ser-geant York after a World War I sharpshooter.

Secretary of Defense Caspar W. Weinberger disclosed last week that the Pentagon may find it "necessary to get a whole new system" if performance and scheduling problems persist with the weapons system, which Ford Acrospace & Communications Corp. is building in Newport Beach.

Designed to defend troops from low-flying aircraft, each York is a computerized gun and radar system that is mounted on a tank chassis. The army already has committed about \$1 billion for 130 of the guns and has tentatively agreed to buy 488 more by 1990.

Ford Aerospace, a division of Ford Motor Co., employs 1,870 workers on the project, all of them in Newport Beach area.

Louis F. Heilig, vice president of Ford Acrospace's defense group, acknowledged Friday that the

He said the alternatives range from reducing the number of gons purchased to replacing the York with a missile-based air defense system made by Martin Marietta Corp. and Ocrlikon of Switzerland.

"There are people on Weinberger's staff who have wanted a diferent system — a missile air defense system — for years, and I'm sure they are being heard," Mr. Heilig said, but he added that the York's "major problems have been solved" and Mr. Weinberger will be was caused by a slowdown in state briefed Aug. 20 on the latest test

Union Envoys Joined An Anti-U.S. Protest

The Associated Press TEGUCIGALPA, Honduras — Honduras has expelled five AFL-CIO representatives and a freelance journalist for joining an anti-

American demonstration here. The office of President Roberto Suazo Córdova said Sunday that the six, all Americans, had been sent back to Nicaragua, where they had been visiting as part of a larger fact-finding union delegation from the Philadelphia area.

The statement said the six men had abused their tourist status because they "dared to criticize the constitutional and democratic government" of Honduras, "its institutions and its armed forces, in bla-tant violation of Honduran laws." Participants at the demonstration Friday called for the removal of the U.S. troops involved in ma-neuvers with Honduran troops. Richard Smith, one of the AFL-

CIO representatives, had told the rally that President Reagan "will be beaten in the November elections because of his war-like foreign po-

Mr. Smith also called for expulsion of U.S. troops, who he said "sully the soil of Central America and particularly of Honduras."
About 700 U.S. troops are based in Honduras. The Reagan adminis-tration has said the United States should show its military in Central America to keep pressure on the Sandinist government of Nicara-

gua, which borders Honduras, About 2,000 people carrying signs reading, "Yankees get out of Central America" took part in the demonstration Sunday, which was called by the leftist Unified Federation of Honduran Workers.

Thomas P. Cronin, leader of the abor group, told The Philadelphia Inquirer by telephone Sunday that police arrested the six men at a trade union hall and escorted them to the airport

The High Price of Credit

Is money tight? Interest rates are certainly high, but that is no longer the same thing. Before interest was deregulated, American borrowers had great trouble finding banks willing to lend when the rates went too high. That was because the banks could not legally charge enough interest to cover their own costs. But now that all the limits are off, banks have plenty of money to lend. Credit is not scarce. It is only expensive.

Paul Volcker, the chairman of the Federal Reserve Board, told Congress last week that be and his colleagues have not tightened the money supply over the past several months and are not doing so now. But interest rates have risen about one percentage point since March. If the Federal Reserve is not doing it, who is responsible? The prime suspect is Adam Smith.

Rates are going up because the demand for credit is going up very rapidly and the banks are under pressure to attract more deposits, increasingly from other countries. In the United States, business borrowing has reached record levels. Consumer borrowing is up. And the federal government continues to run that enormous deficit,

An odd thing is happening. The American economy is adapting with astonishing speed to these very high interest rates. That is why both the demand for credit and the economy itself have been expanding much faster than anyone

expected last winter. The tax system encourages this adaptation by making interest costs deductible from taxable income. The federal government, through those deductions, pays something between a quarter and a half of the interest on most loans, depending on the borrower's tax bracket. Inflation, even at its present low level, pays another quarter of it. For most borrowers, the rates are not as high as they might look at first glance. But even after taxes and after inflation, they are a lot higher than they have been traditionally.

These rates are having an unhealthy effect

on U.S. economic development. They are making tovestment expensive, and that will not be 200d for iodustrial performance and productivity over the long haul. Low investment has been a matter of concern for some time. In 1980 the Republicans charged that under President Jimmy Carter's policies business investment was dangerously low. It was 11.7 percent of the gross national product that year. Under Mr. Reagan, it fell with the recession and has been rising with the recovery, though damp-

ened by the high interest burdens it carries. The figures for business investment in the spring quarter were published last week. Americans will be reassured to know that, as a proportion of GNP, it was almost as high as it had been when Mr. Carter left office.

- THE WASHINGTON POST.

Glimmerings in Guatemala

There is a glimmer of hope for a democratic led the field to the July I vote for a constituent assembly. But it is only a glimmer. The assem-bly will be confined to the single task of drafting Guatemala's fifth constitution in 40 years. Though the ruling generals promise to yield to an elected president in 1985, experience argues against believing them.

The elections have already been revised to give a rightist coalition the largest bloc of assembly seats, even though it placed third to the returns. This may preview things to come. Guatemala has been governed mostly from the barracks since 1954, when a coup supported by the United States ousted an elected leftist president. Regimes since then have ranged from the merely corrupt to the savagely repressive. More than 45,000 Guatemalans have fled to Mexico, pressured by an antiguerrilla campaign that saw many Indian villages routinely harassed and often destroyed.

Still, there are tokens of change. The current president, General Oscar Mejia Victores, says the threat of subversion has passed and so presumably has the justification for military rule. Accordingly, the two front-running centrist parties are pressing for a genuine amnesty and legalization of Marxist parties.

And the assembly winners included four Indians, one of them the first candidate of an all-Indian party. Though half of Guatemala's seven million people are Indian, Spanish-speakers monopolize its politics.

Guatemala's stability may well depend on how wisely the armed forces respond to these trends. Some officers see tradition-bound Indians as natural anti-Communist allies; others see them as outural recruits for the highland guerrillas. While the argument goes on, those who work with Indians are at serious risk. Four bilingual educators have been killed since 1983, two of them cootract employees in United States aid programs.

Because of these killings, the U.S. Congress suspended economic aid a year ago. Military aid was held up in 1977 when Guatemala refused to submit to buman rights conditions. Yielding to Reagan administration pleas, Congress has now given preliminary approval to a \$230-million package of economic and mili-tary aid, Guatemala says it does not need guns, just money, please. So be it.

But why not pay an installment after the

constitution is written, and the rest when Guatemala bolds its presidential election and honors the result?

FROM OUR JULY 31 PAGES, 75 AND 50 YEARS AGO

1909: Taft Wins on Tariff Revision PARIS - President W.H. Taft has won the tariff fight. As the Herald's cable despatch

from its Washington correspondent reported [on July 30], the Senate conferees have given way and come to an agreement on the lines laid down by the President. This victory is highly satisfactory in itself, as the new tariff will undoubtedly protect effectually the industrial interests of the United States, and is of good augury for the future, as it proves conclusively that Mr. Taft is a statesman with defimite views and very clear ideas as to the best way of realizing them. Without any banging of the big drum of flourishing of the big stick he has carried through his tariff revision and triumphed over the most stubborn opposition.

CARL GEWIRTZ

1934: Drought Hits U.S. Heartland KANSAS CITY, Missouri - Although cooler

weather has come to the western plains, the drought continues unbroken. E.R. Logan, Missouri agricultural statistician, estimated [on July 30] that state's damage at \$500 million. Of this figure \$250 million represents crop losses, \$150 million livestock losses, \$50 million miscellaneous damage and 550 million permanent damage. Frank Reed. Federal crop statistician, said that the loss of the corn crop alone to Kansas probably would approximate \$600 million. Most of the streams in the drought-stricken regions are dry, while cattle are being shot in the fields. In some sections hens are deserting their nests, and eggs placed in the sun have hatched from its heat.

Two Ways of Gauging Soviet Intentions

W ASHINGTON — With attention focused on whether the United States and the Soviet Union will start talking about unti-satellite weapons, it is timely to consider why Western experts on the Soviet Union, with apparently equal qualifications, so often disagree sharply on how to deal with the Russians. Consider the expertise represent-

ed by the following pairs: George Kennan and Paul Nitze; Cyrus Vance and Zbigniew Brzezinski; Marshall Shulman and Richard Pipes: The New York Times and The Wall Street Journal; the U.S. Foreign Service and the military services; the Brookings Institution and the Hoover Institution. Policies favored by one member of each of these pairs typically differ from those favored by the other.

These differences flow from differing fundamental beliefs about the Soviet system. The beliefs can be characterized as "mirror-imaging" and "power-maximizing," rep-resenting opposite ends of a spectrum along which are arrayed the members of the previously cited pairs. Of course, this is an oversimplification; nuances do occur.

The mirror-imaging view holds that apparent Soviet aggressiveness. expansionism and preoccupation with military capabilities reflect Russian history and culture. These preoccupations, it is acknowledged, may border on paranoia and may take aggressive forms. Such manifestations are considered to be understandable reactions to Soviet and Russian history, including the experience of Western efforts to abort the Bolshevik Revolution, the 20 million casualties suffered by the Soviet Union in World War II, and the periodic devastation experi-enced by Russia at the hands of foreign invaders. Preoccupation with military strength is to be explained, then, mainly by this

historical legacy.

Nevertheless, according to this view, the long-term aims of the Soviet Union have something in common with those of the West: buman betterment and well-being, peace, prosperity and social justice. Hence, a more forthcoming Western policy, one that combines concessions with firmness, is likely to produce over time a symmetrical rather than an exploitative response from the SoviBy Charles Wolf Jr.

et leadership, and perhaps a peace-ful evolution of the Soviet system. In the absence of such concessions, mirror-imagers tend to view prospective Soviet behavior with concern if not alarm, lest a hostile international environment, combined with increased Soviet economic stringency at home, arouse the Russians' latent paranoia and provoke aggression. These presumed responses to alternative Western policies are the core of the

mirror-imaging view.

By contrast, the power-maximizing view holds that, whatever the grim experiences of Soviet and Russian history and whatever the philosophical and ideological antecedents of Soviet Communism, the overriding objective of the system is to maximize the political and mili-tary power of the Soviet state at home and to expand it abroad. Accordingly, concessions made to the Russians and agreements and transactions worked ont with them are fair game for exploitation and deception in the interest of maximiz

This position denies, or at least seriously doubts, that economic and social betterment are important goals of the system as it really operates. Instead, this position views the deferral of these goals as readily acceptable to the Soviet leadership. perhaps even obscurely welcomed by it, because of its overriding preference for strengthening Soviet vigi-lance to response to the external and internal threats it sees.

Differences between the mirror imaging and power-maximizing views lead to predictable differ ences to the policies their adherents advocate. For instance, mirrorimagers tend to look with favor on negotiations that are initiated or fa-cilitated by Western concessions and on trade that is expanded by using some kind of subsidy, if necessary. Power-maximizers tend to favor negotiations without initial concessions, and trade without subsidies, preferring no negotiations to concessionary ones and no trade or limited trade to subsidized trade.

Power-maximizers tend to emphasize the zero-sum nature of ne-

with the Soviet Union (what the Soviets gain, the West and the United States lose), while mirrorimagers tend to emphasize the positive-sum character of such transactions (both sides can gain from them).

Unfortunately, there is no way to provide a definitive test of which view is closer to the truth. You are forced to rely on impressions, judgments and experience to decide.

You can also adopt a "hedging" strategy that tries to minimize regret. For example, apply a mirrorimaging view to a particular simation, then ask: How badly off are we if it is wrong? Then do the same with a power-maximizers' view. As the American presidential

campaign moves on, differences between the candidates and their party platforms on this issue will be clear enough, even if the rhetoric tries to straddle both positions.

The writer, director of the Rand Corporation's research program in international economics and dean of the Rand graduate school, contributed this view to The Washington Post.

How an Unregenerate Reagan Could Lose the Race

WASHINGTON — Before the Democrats convened in San Francisco, the political analyst Horace W. Busby conducted a seminar on the prospects for Election Day.

He restated his belief that the Republicans have "lock" on the electoral votes of Western and Southwestern states that virtually guarantees them control of the White House in November.

"By 'lock' I am referring to the 29 states that in the last eight presidential elections have voted at least 75 percent of the time, most of them more than that, for the Republican candidate," Mr. Busby said. "Those states have 289 votes in the Electoral College. It takes 270 to win. Well, then, someone asked, what could Ronald

Reagan do to lose it? Mr. Busby, who was a key aide to Lyndon

Johnson, listed two ways Mr. Reagan could do so:
"He could cause himself trouble by ceasing to be
presidential and becoming unduly partisan," he said. Or be could show his age.

In his first week of campaigning, Mr. Reagan demonstrated both problems. He was unpresidential, unduly partisan and be showed his age - not in the way he looked, but in the way he sounded. His tone, not his appearance, was the problem. He came across as rigid in attitude and extreme in views, precisely the qualities that accentuate his few political negatives.

This first glimpse at the real 1984 presidential campaign is instructive on several counts.

First, if last week's style becomes the norm, the

country is in for a rough, no-holds-barred campaign. Second, when it comes to the truth, voters beware. Third, Mr. Reagan profits immensely

and Budget to say "Arrrigh!

lorgo demanding:

However, it contained two sen-

By Haynes Johnson

from the well-known advantages of being able to use the White House as a forum to dominate the news and the political dialogue. He showed again that he is adept at achieving both goals.

The campaign began with a televised news conference that said almost as much about the press as

did about the president. Mr. Reagan, as expected, went on the offensive against the Democrats, stoutly defended his record

and laid out his best case for re-election. In so doing, he made a series of sweeping assertions about his achievements. Even with allowances for the natural campaign tendency to overstate the record, this performance was memorable for its excessive claims on helping

the "truly needy," preserving the social safety oct, being fiscally prudent, protecting the environment - and oo and on. And it all went virtually unchallenged. One yearned for a Peter Lisagor to arise from the press corps and say, "Hey, wait a minute, Mr. President,

how can you say that?" - and then phrase a deadly question based on the presidential record.

Aside from content, it was the Reagan style that was riveting. He seemed unusually combanive and harsh. And he continued to display those qualities

while campaigning in the South and Northeast. Perhaps that will prove to be winning presidential politics to 1984. But I wonder.

Peter D. Hart, Walter F. Mondale's polister.

cries of "Out, damned spot" will alter the record on such things as the budget deficits and budget cuts affecting the poor.

cuts affecting the poor.

As Mr. Hart says, one of the most intriguing political questions before the country is why this election is not a runaway for Mr. Reagan. Maybe it is, but he does not think so.

On the face of it, Mr. Reagan enters the campaign with tremendous advantages. Here is a popular, charming, commanding figure who can make the propuser of the propused to

powerful campaign statements. He promised to bring the inflation-rate down dramatically, and he did. He promised to make America stronger militarily, and he did. He promised to reduce unem-ployment, and he did. So where is he vulnerable?

His vulnerability lies to the impression, which he inforced last week, that he is extreme, that he is rigid, that be is unwilling to accept responsibility for mistakes and especially that he refuses to entertain any possibility that people have been unfainly hurt by his policies.

And if his campaign appearances seem too strident and he comes across as needlessly intransigent, Mr. Reagan runs the risk of seeming locked toto stubbornness. It is there that the question of age intrudes. This has nothing to do with his physical condition, which is obviously superb. It has to do with his attitudes and cast of mind.

Whether these are enough to cause the voters to reject him, no one can say at this point. But they do suggest that Ronald Reagan, the genial president, is a better bet to remain in the White House than Ronald Reagan, the unregenerate candidate. The Washington Post.

Behind the Tax Talk, a Passionate Debate on Class

By George F. Will

WASHINGTON — The fuo started in San Francisco, when Walter Mondale promised to raise taxes and added, clairvoyantly, that Ronald Reagan, if re-elected, will raise taxes. Five days later, asked at a spending - particulars, please - or you have a tax-increase plan hidden raise taxes. Five days later, asked at a news conference if he was prepared to "flatly rule out the possibility of seeking a tax increase next year," Mr. Reagan said "yes," no doubt causing folks at his Office of Management in a pumpkin at Camp David."

Ironically, Mr. Mondale's promise

of tax increases pleases those conser-vatives whose four-word formula for universal happiness is "Let Reagan Be Reagan." That is, Mr. Mondale's promise provokes Mr. Reagan to can-ter off in the opposite direction. At his news conference, Mr. Rea-

gan slammed a door that may have to be opened next year, the door to increased taxes. But be slammed it so hard it bounced opened a bit. His news conference answer had a

structure that was Eisenhowerean in its informality — and its artfulness. He said be would "look at the tax with economic growth assumptions structure" to "bring that up to meet radical enough to produce a projection of a balanced budget, with no only if "after all our best efforts" at

tional. So either you plan to cut budget-cutting government has been entitlements and discretionary cut as much as is compatible with its irreducible "responsibilities," and a deficit remains. But such a moment is a long way

away. And cagle-eyed conscrvatives may see that the door is ajar, and may nail it shut in the party platform. Meanwhile, Mr. Mondale's cry of "particulars, please" is made of India rubber and will bounce back at him. His "new realism" does not extend to specifying who will pay those new taxes. If, when pressed, he says "big corporations" and "the rich," arith-

metic will rear its ugly head. Americans know, intuitively, that corporations do not pay taxes, they collect taxes, passing along the costs. Ameri-cans also know that serious revenues can only come from where most of the money is: the middle class.

Mr. Reagan's idea that economic growth and spending cuts will bal-ance the budget may be the most

dangerous sort of myth: one that is sincercly believed. But it is no more implausible, and considerably less cynical, than the suggestion that the budget can be balanced by putting the Pentagon and country-club mem-

bers through a wringer.
This campaign, rolling at a remarkable clip for high summer, is becoming passionate because it is about class. The class struggle is never pretty and rarely has been as confusing as at present. Both parties claim to rep-resent the downtrodden and identify the downtrodden not as the proletariat but as the middle class.

A young Democratic professional called from the convention to get his father's assessment of things. The fa-ther, a blue-collar worker in the Northeast, said this: "The Democratic Party has been good to me — Social Security, G.I. Bill, student loans. The Democratic Party made me middle class. But perhaps Reagan will keep me middle class."

The Limits Of Poland's Amnesty

By Leopold Unger This is the first of two articles.

BRUSSELS - The amnesty, Lech Walesa observed, "is a step in the right direction, but it does not automatically lead to agreement; without the right to independent unions, those who have been ammestied will return to prison sooner or later."

Thus the former Solidarity leader summed up the amnesty decreed by General Wojciech Jaruzelski to cele-brate the 40th anniversary of Communist rule in Poland. More than 650 political prisoners are to be released because of the decision, and about 35,000 common criminals either will be freed or will have their sentences sharply reduced.

But if the unlitary rulers went fur-her than any other Communist re-me has in similar ther than any other Communist re-gime has in similar circumstances, their motives elicit skepticism and require a cautious reaction.

move, the manifesto proclaimed July
22, 1944, when the Russians imposed
a "people's regime" in Poland. It declared that there would be free elections by secret ballot, and a physical Consider, first, the pretext for the tions by secret ballot, and a pluralis-tic system that would guarantee freedom, including the freedom to create independent labor unions.

Nothing of that has come about, and neither the people nor the government now takes the manifesto seriously. Only one institution that it created has lasted: the "people's militia," or in plain words, the police. As in 1944, it is the principal guarantor of the regime's "legitimacy."

Skepticism is all the more justified because past amnesties have brought. no durable changes. The amnesty of July 22, 1983, left only 50 political prisoners behind bars; a year later, there were more than 650. Such was: the case with amnesties after the revolts of 1956, 1970 and 1976.

And the latest amnesty was modified by some suspect clauses. First, it did not apply to Bogdan Lis, the No. 2 man in Solidarity's claudestine organization, who has been charged with high treason and faces a sentitle by the solidarity in the solidarity in the solidarity is claudestine organization. tence ranging from 10 years impris-

tochers excluded from the amnesty tochaplain at Warsaw's steel plants, and Father Henryk Jankowski, chaplain of the Gdansk shipyards. Both men have close ties to Solidarity, both are free on parole and both have been charged with "abuse of their priestly duties" and face jail sentences of up to 10 years.

By excluding Mr. I is and the two

By excluding Mr. Lis and the two priests from the anniesty, the regime is holding popular hostages. The leaders of the clandestine Solidarity operation have been urged to come out into the open and the church has been urged to put these two outspoken priests back in the dark.

Indeed, General Jaruzelski has install that the dark.

sisted that the amnesty was not "a the concession to the regime's enemies" and that they must be "hunted down" without pity." He added that "there cannot be and there will not be a bear and the b return to anarchy."

Anarchy, in Communist parlance,

is any activity the party does not control. This applies particularly to Solidarity and to KOR, the intellectual group that assisted and guided the union movement. So the general's comment makes clear that what Warsaw seeks is the unconditional surrensaw seeks is the unconditional surrender of all dissidents. This points to what kind of a future the government has in mind for the people.

The wording of the amnesty text leaves no doubt about this. If any person who was amnestied commits a violation of the law — as the regime

violation of the law — as the regime · understands it — similar to the one violation of the law understands if — similar to the one for which he was jailed, then he will be returned to prison under a more be returned to prison under a more. tine Solidarity leaders will be required to reveal all circumstances surrounding their activity, and surrounder all materials and funds used

persons who have refused all compromise, including the offer of exile in the West (as was the case with 11 Solidarity and KOR figures) — would seem naive if it were oot so while the control of the cont

obviously cynical.

Yet there is an unquestionably imman side to the amnesty, and that is the return of 650 persons to liberty and to their families. This remains the case regardless of the political aspects of the decision.

But without any connections to

and to the case regardless of the ponnear the case regardless of the decision.

But without any concessions to greater freedom in Poland, the amnesty will do nothing to cure the case will do nothing to cure the case of the poland that the poland the same nesty will do nothing to cure the case of the poland that the p nation's major problem: the widen-ing gap between a people aspiring to democracy and an alienated regime. democracy and an automother that cannot grant this aspiration.

Paper Says Woman's Place Is in the Dacha

MOSCOW - The ideal Soviet woman is the one who can sew a button and peel a potato and generally respects the "stronger sex," according to a Leningrad psychologist.

The true strength of a woman lies not in her

physical strength but in the weakness of her sex." the psychologist, V. Garbuzov, wrote in the official Soviet trade union newspaper Trud.

"By her tenderness, her pure semale tact, her delicacy, she first wins the heart of her father, then

Boys and girls are meant to be different. Mr.

"Giving a girl an apron as a present before she is given a Sunday dress instills in her the skill of housekeeping, the skill and taste for this eternal female cause," he said.

A mother must teach by example, acting and dressing properly, be said. Her daughter must learn the role of mother by caring for dolls, then pets and then younger children.

"Before she goes to school she can already sew on a button, iron a hankerchief, peel a potato," the article said about a properly raised girl.

"A rough, coarse girl will inevitably turn into a rough, coarse woman. To prevent this happening, a girl must from her earliest years be prepared for

The article appeared as the latest Soviet hero, the cosmonaut, Svetlana Savitskaya, returned to Earth after becoming the first woman to walk in

space. Ms. Savitskaya and two male cosmonauts landed their Soyuz T-12 Sunday in central Asia. In the Soviet battle of the sexes, it was clear whose side Mr. Garbuzov took.

"There is yet another thing that a daughter must be tanght," the Trud article said, "to respect the stronger sex... in the form of a specific boy, youth or man for his personal qualities."

Mr. Garbuzov expressed alarm at a survey that showed Soviet women did not respect their men. He put the blame squarely on the women, who have outnumbered men through most of the century due to deaths in war and revolution.

"I am afraid that this is the fault of the female half of the family, constantly branding sons, brothers, busbands etc. as stupid, unfaithful, drunks,"

Women are making a terrible mistake, the article said, warning that they might end up divorced and lonely. "What could be more bitter for a woman?" Although women officially enjoy full equality. they are often blamed in the government-con-

trolled press for social problems such as high divorce rates and troubled children.

Soviet Dusts Off Russophobia Charge In Counterattack on Reagan Policies

By Dusko Doder

Washington Post Service MOSCOW - Soviet officials have begun to mobilize Russian public opinion against what they charge is a new campaign of Russophobia in the West.

After several years of internal debate about Moscow's relationship to the West, occasioned by the Reagan administration's "evil empire" rhetoric and military buildup. gument that was advanced in its elearest form last week by Sergei Tikhvinski, a senior diplomat and historian.

The argument, in Mr. Tikhvinsd's words, holds that "Russophonia has become a main trend of contemporary anti-communism." hat "the entire activity of Amerian diplomacy is centered on atemots to isolate Western countries rom the Soviet Union" and that his is done by inciting hatred against the Russians by describing hem as "barbarians" and an "innerently violent" people who pose t permanent military threat to the

hirow besiliving Mr. Tikhvinski advanced this position in the daily, Sovetskaya Rossia, while reviewing several reently published books dealing with various aspects of Russian hisory. One of the central themes in hese books, he contended, is to contrast an "enlightened and ad-'anced" West to a "culturally ackward Russia" and to undercore alleged Russian aggressive-

Deng, Howe To Discuss Hong Kong

Decision Said to Reflect Positive Tone of Talks

BELJING - Chinese officials said Britain's foreign secretary, Sir Geoffrey Howe, would meet Deng Xiaoping, China's paramount leader, Tuesday at the end of four days of talks on Hong Kong's future.

to revert to Chinese sovereignty in 1997 when Britain's lease on most of the territory expires. Mr. Deng's decision to meet with Sir Geoffrey appeared to confirm the positive tone of the talks in Beijing, which have been aimed at forming an agreement by September.

The meeting with Mr. Deng was to take place at the Great Hall of the People in central Beijing, where the two men met in April, the offi-

After a 90-minute meeting Mon-day with Prime Minister Zhao Ziyang, Sir Geoffrey said his talks had achieved significant progress but "there are still substantial matters to be dealt with." Neither side has disclosed which issues have been resolved and which are proving difficult.

Britain wants a binding docu-ment setting out details of the transfer of power in 1997 and the shape of Hong Kong's administra-tion under Chinese control. A 20th round of official talks is to start in Beijing on Aug. 8.

China has said that Hong Kong will be a special administrative re-gion with considerable autonomy and will be allowed to maintain its capitalist system for 50 years.

Among questions believed to have figured in the talks was what type of structure would be created for Chinese-British liaison in the 13-year transition period. Hong Kong civic leaders fear that a joint liaison group based in Hong Kong, as proposed by Beijing, could undermine British authority and cause instability before 1997.

Sir Geoffrey is to meet officials and civic leaders in Hong Kong on Tuesday and Wednesday and is expected to give his views at a news conference before returning to

U.S. Trying to Raise Hospital Standards Critics Say Program, Aimed at Eliminating 'Avoidable' Deaths, Is Unrealistic

By Joel Brinkley New York Times Service

WASHINGTON - The federal government has set up a program intended to force doctors and hospitals to eliminate "avoidable" deaths and substandard care. The American Hospital Association and other national medical organizations say it is unrealistic.

The program is part of the government's efforts to reduce Medicare expenses. It calls for federally British sources said they regard-ed Mr. Deng as China's major Medicare spending in most states strategist on Hong Kong, which is ment of Health and Human Services. The contracts require them to assure that doctors and bospitals reduce unnecessary deaths by specific numbers in the next two years.

> by the government, are those that could have been avoided through proper treatment.
> Officials of the Health and Hu-

> man Services Department say the numerical goals are based on studics in each state that bave shown how many hospital patients may have died unnecessarily or encountered complications that could have been avoided. The studies have never been made public but the contracts provide the first glimpse of their findings.

The new program applies only to Medicare patients but its effects would probably be felt in the care of most hospital patients.

Medicare is the federal medical insurance program for the elderly. The review agencies, called Pro-fessional Review Organizations, or

PROs, are the latest versions of agencies established by the govern- death certificates and say this death ment 12 years ago to reduce Medicare spending.

Since 1972, such agencies in albundreds of doctors and nurses to review the care given to hospital patients whose bills were paid by Medicare. The reviews were designed to make sure that Medicare money was spent properly and that patients got quality care.

The American Medical Peer Review Association, which represents the review agencies, and the American Hospital Association say the new goals are based on unreliable data and will be difficult to meet. The new contract for Kentucky,

for example, requires the review agency "to reduce the number of Unnecessary deaths, as defined deaths which occur in Kentucky hospitals with the principal diagnosis of heart attack "hy 20 percent by October 31, 1985."

Mississippi's new contract says the agency must ensure that the state's hospitals perform 35 fewer "avoidable above-the-knee and below-the-knee amputations" in the next two years.

Tennessee's agency must reduce by 25 percent, from 173 to 130, the incidence of deaths attributed to one type of pulmonary embolism an obstruction of the pulmonar artery, usually by a blood clot.

And West Virginia's agency must "reduce by 1.631 the number of unnecessary hospital readmis sions resulting from substandard care provided during prior admis sions," the state's contract says.

The review agencies are to encourage the changes by threatening to withhold Medicare payments to doctors and hospitals.

If the objectives are not met, the government can refuse to pay the review agencies, or it can renegotiate their contracts with another agency. At present, all the review agencies are run by doctors. But the law says that if medical groups are unable to meet the objectives, insurance companies would be permitted to bid for the contracts That prospect is anotherna to the

Andrew Webber, executive vice president of the American Medical Peer Review Association, said the goals might not be realistic

"It's very difficult to review The agencies have always had the power to recommend that the Medicare program withhold payor that one was unnecessary," he said. "This really raises a spector of ment to hospitals and doctors for Since 1972, such agencies in al-most every state have employed deaths. Herald Tribune LET THE TRIB BE YOUR GUIDE.

LH.T. GUIDE TO BUSINESS TRAVEL & ENTERTAINMENT: EUROPE.

There's never been a guide quite like it. Trib business readers all across Europe shared their most treasured travel secrets with journalist Peter Graham. The result: a book for business travelers with

Please check method of payment

Please charge to my

(necessary for VISA cord purchases)

credit card.

Signature

contributions from business travelers. Turn an ordinary business trip into a pleasant, more efficient journey. Guide covers Amsterdam, Brussels, Copenhagen, Düsseldorf, Frankfurt, Geneva, London, Lyon, Milan, Munich, Paris, Stockholm, Zurich. Over 200 fact-filled pages, this hardcaver edition is a great gift

idea for colleagues, business contacts, or yourself. Seven subdivisions for each city include: 1. Basic city overview with vital information, 2. Hotels, with emphasis on business services. 3. Restaurants, for on- and off-duty pleasure. 4. After-hours suggestions. 5. Diversions, from grand opera to jogging. 6. Shopping. 7. Weekending

Rave reviews from the travel industry experts: "Where to stay, dine and revel in Europe... a handy

Travel and Leisure, American Express. "...a good deal of information in compact, easily assimilated form."

Signature, Diners Club International. Peter Graham and IHT have produced a small masterpiece." **Executive Travel**

FOOD LOVER'S GUIDE TO PARIS.

As restaurant critic for the Trib, Patricia Wells has explored the treasures of food shopping and eating in Paris, from the bistros, cafés, cheese shops and outdoor markets, to the four-star feasts.

The gastronomic delights of Paris are

varied, historic, abundant - and too delicious to be left to chance. Food Lover's uncovers the many delights to be found all over this extraordinary city, and takes an up-to-date look at some of Paris' internationally known restaurants.

Wells includes critical commentary, anecdotes, history, local lore – as well as basic facts like business hours and nearest metro station. To recreate the taste of France at home, 50 recipes are included, gleaned from the notebooks of Parisian chefs.

Paperback, over 300 pages featuring a French/ English food glassary and 140 evocative photographs.

"Bound for France? Don't go without Patricia Wells's Food Lover's Guide to Paris" **Houston Chronide**

"Wells spills the beans here... No serious hedonist should go to Paris without it."

Standings Gael Greene, New York Magazine AMERICAN LEAGUE "An illustrated tour through... one of the great food cities of the world." **Philadelphia Daily News**

LOS ANGELES - The U.S. 4-x-200-meter relay team of Jeff Gaber-

ino, David Larsen, Bruce Hayes and Rich Saeger set a world record of 7 by the heavily-favored U.S. basket-minutes, 18.87 seconds at Manday's swimming compension at the 1984 ball team, 97-49.

China, which is hoping to play German team in Rome a year ago.

Meanwhile, American Pablo Morales and West German Michael

Gross broke Mark Spitz's final Olympic record in a men's 100-meter butterfly qualifier. Spitz, who won seven gold medals and set seven world records in 1972, had had all his records broken since those Munich Games except the 100-meter butterfly, which he swam in 54.27 seconds. - But Gross lowered the mark to 54.02 in the next-to-last qualifier and place, just behind the United moments later Morales, the world record holder (53.38), broke Gross's States, in the men's compulsories of swam a 53.78. Spitz, now a telecaster, was in the ABC broadcast booth

Monday. "I expected it to go today," he said. (UPI, AP)

A bit of gloom fell nn China's otherwise sunny day in men's volleyball, women's free pistol shooting, men's basketball and, ironically, in the men's free pistol. The silver medal in the latter, originally awarded to Xn's teammate Wang Yifu, was taken away after Sweden's Ragnar Skanaker lodged a successful protest, which gave him one additional point — lifting him out of a deat 564 with Wang. Wang won the bronze.

Japan topped China, 15-9, 15-9, 15-8, in their volleyball meeting. Haiying Liu of China, who led after the first round of the women's free pistol event, did ont shoot as well in the second, losing to Austrahan Patricia Drench in a shootout for the bronze. The Chinese men were troumced

China, which is hoping to play host to the Games in the year 2000, sent 225 athletes, its largest Olympic delegation ever, to Los Angeles. When the Chinese last appeared in a Summer Olympic competition, at Helsinki 32 years ago, they sent 38

China boycotted the 1980 Olympics in Moscow in protest of the Soviet intervention in Afghamstan.

U.S. Cyclist Carpenter Closes With a Rush

By George Vecsey New York Times Service

MISSION VIEJO, California - She had prepared all year for the race, knowing it would be her last, but with 50 meters left, she was coming up short on the 79-kilometer road race. Connie Carpenter was a few centimeters behind Rebecca Twigg, all the difference between gold and silver.

With a furious thrust of her hicycle at Sunday's finish line, Carpenter caught her younger rival to win the first U.S. cycling medal since 1912, in the first Olympic cycling race for women.

A long and hot afternoon later, Alexi Grewal of the United States, who was nearly disqualified from the Summer Games last week because of a doping discrepancy, surged past Steve Baner of Canada for the second U.S. gold medal of the day, in the men's 190kilnmeter road race.

The two narrow finishes stirred up the tens of thousands sun-baked fans enjoying one of the few free events in these high-priced Games. There were chants of "U.S.A." as the United States continues to prove it has come of age in one of the world's most popular Sports.

third in the Tour de France, the best finish ever by an American, and Marianne Martin woo the women's version of the tour. Many of the fans standing around the course did not care which woman won the first women's cycling race in Olympie history. In the final stretch, Carpenter, 27 and rail thin, and Twigg, 21 and compact, pulled ahead of the gallant band of six riders that had traded places since the first of five 10-

best last move. They have been dogging each other all year, portrayed as icy rivals, although Carpenter said Sunday that "the press created that" and Twigg said: "We have never known each before this. In the last week, we opened up with each other, realized we had things in

mile laps. At the end, it all depended on the

The main thing they had in common was being co-favored to win the race over public roads in a posh community that produces Olympic swimmers and divers by the bucket-

It was not a day for equatics, at least right here, but rather a day for the further acknowledgement that women are really built for langer, harder races than sports officials ever believed. On Saturday, the first 26-mile marathon for women will be run through the

"Pedal 4 a Medal," said a hanner hanging from a ranch house "Go for the Gold," said a banner from a

condominium. Twigg is a precocious young rider from Seattle who has pointed toward cycling since she was an infant. Carpenter, married to Davis Phinney, the fifth-place finisher in Sunday's men's race, switched from Olympic speed skating to cycling as an adult and had let it be known this would be her last race so she can help her 25-year-old husband "reach

his cycling potential." Her last race evolved into a six-woman pack. Because of the heavy wind resistance, few bicycle riders can stay in front for long. They need either a full team of "domestiques," as in stage races like the Tour de France, in maneuver for them, or they need short spurts to the front, followed by rest periods at somebody's rear wheel.

Counie Carpenter . . This is what it looks like, guys.'

The six riders included Sandra Schumacher of West Germany, who would finish third, Unni Larsen of Norway who would finish fourth, Maria Canins of Italy, a 35year-old mother of two who would pick her-self up after a nasty spill and finish fifth, and Jeannie Longo of France, who would walk her bike across after her chain broke in the

Only the two U.S. women had any possibility of riding in concert in the pack. "Connie told me during the week that if we didn't win the gold, we'd have to crawl out of here. It's a big responsibility." Twigg said later.
They did nothing to hurt each other for

much of the race, and in the fourth lap, Twigg broke away for a lead for over 90 seconds, a hard push that Carpenter said "was too soon,

They all knew it would come down to a final sprint. Carpenter recalled later: "I was still sixth with half a lap to go. I wanted to make a sprint but I didn't want to go too soon. Matia went first with about 500 meters. Sandra was on her rear tire. I was still third or fourth. I waited til 200 meters because I had done some motor-paced sprints and I knew I could handle it. But Rebecca was ahead of me with 100 meters left.

"I knew it was going to be close, so to gain ground, I threw my bike at the end. It gave me

an advantage." Asked to define "throwing a bike," Carpenter said: "In a close sprint, you can push your bike with your body, move it a foot forward. My husband is good at it. It's like learning into the tape for a runner, a calculated move. It was a shot I could naly take one time."

Twigg wasn't sure the last little thrust helped. "I saw somebody coming and I was glad it was Connie," she said. "I think she might have caught me anyway even without throwing her bike."

Carpenter said: "Everything I have done this last year was cool and calculated for this race, to ride the best race of my life. This is it, the last bike race of my life."

After receiving her medal, she visited the men's quarters, where her husband and three

other Americans were preparing for their "I showed them the medal and I said, This

is what it looks like, guys."

She did not feel she had to make up for the 72-year drought in cycling medals because "women haven't competed until today."
"Given the chance," she said, "we would

have won medals before this, maybe. The men had a chance."

Olympic Basketball Remains Typically Uncourtly

New York Times Service INGLEWOOD, California -The first day of Olympic competition was not unlike any other day of international basketball.

It merely included charges of professionalism and overzealous zil, a medal favorite, 76-72; and play, a brief fight that resulted when players took matters into " their own hands and a dab of poli-

tion in 1959 when, after the U.S. State Department declined official help, Ruff arranged a private trip to the Soviet Union. Performing and lecturing, they were surprised by the Russian thirst for jazz.

When they left Moscow, 900 people saw them off at the train station and some threw flowers. Ruff had learned Russian, his seventh language, for that occasion, and he took intensive courses in Chinese at Yale - where he is professor of music and of Afro-American studies — before a similar trip to China in 1981.

"In the 17th century," Ruff told students in the Shanghai Conservatory of Music, "when West Africans were captured and brought to America as slaves, they brought their drums with them." When it was time for music, he said: "Mr. Mitchell will now give you an example of the music that American slaves found in the Christian

Zinsser has known Willie Ruff and Dwike Mitchell since 1973, when he began teaching at Yale, He calls Mitchell "the best jazz pianist I had heard in all my years of listening to pianists I admired." In 1980, he began taking piano lessons from Mitchell, "a man of great warmth and humor," and, he writes, "I've been going to the apartment on Central Park West porate arts programs.

The Airborne Home of an Art Collector

By Leslie Bennetts New York Times Service
NEW YORK — He wanted
"the ultimate in air travel." and as far as personal planes go, George Ablah's private Gulfstream iet comes as close to his idea of the ultimate as a lot of money, fancy technology and the owner's characteristic audacity could bring it.

The goal was to make the \$9million jet as luxurious as possible, since Ablah, an entrepreneur from Wichita, Kansas, spends at least 40 hours a month in the air, flying 250,000 miles (about 400,000 kilometers) a year around the Umited

Ahlah, 55, whose business interests range from real-estate ventures to oil speculation, is also an enthusiastic art collector - he recently lent 25 Henry Moore sculptures to New York City's parks.
So he decided to endow his air-

borne home with the amenities he would want on the ground. These include \$3 million worth of sculp-ture, including a Giacometti in the bathroom and a couple of Henry Moores in what might be called the

The jet also has gold-plated seatbelt huckles, overhead air nozzles, ashtrays and hathroom fixtures. "Whenever we do anything we try to get as close to the state of the art not unusual for Southern whites to advise and help poor hlack boys. The establishment recognizes real or the most exciting or elegant or outstanding thing you can get," said Ahlah.

"For some 12 years, I've had tics never involve pandering or Un-cle Tomming in this world, hard Lears and Citations, but with all due respect to those marvelous airplanes, it was always difficult to have business conferences on them, sitting up, and they don't have respectable bathroom facilities." So the jet, bought last year for about \$7.2 million, was stripped, upgraded and decorated for anoth-

er \$1.5 million. Installing the art collection imposed another set of demands. The sculptures include a white marble nude by Rodin, a bronze horseman hy Marino Marini, a polished bronze head by Brancusi that Ab-lah refers to as "the little football," a voluptuous bronze torso hy Jean

\$700 for Jackson Tickets

NEW YORK — Scalpers are of-fering tickets at up to \$700 for Michael Jackson concerts in the New York area, "Scalping has be-come a very big business," said the head of the state's Consumer Protection Board, adding that little could be done "except to tell people that if they pay \$700 for a Jacksons ticket, they're nuts."

George and Virginia Ablah with airborne Marini sculpture.

Arp, two Henry Moore bronzes. and a bronze horse and rider by Fernando Botero. In the bathroom, in a recessed niche whose light goes on when the bathroom door is locked, is the figure by Giacometti. standing nearly 4 feet (1.2 meters)

gn. The sculptures were specially tested and engineered for the stress of flight conditions, a process that cost Ablah another \$200,000. The Marini horseman, for example, had stainless-steel rods installed in the middle of all four of the horse's

"We never defaced any of the art, but each piece had to be re-structured from the inside, so if there were a minor accident it wouldn't break off and fly through the cabin as a missile," Ablah said. The interior of the jet was deco-

rated by the Houston designer Edward J. Perrault, with what he calls "an Art Deco flavor," The bulkhead walls, doors and shelves were mirrored: cabinets were covered in cream-colored leather; wood trim was finished in a high-gloss cream

After all the refitting, the jet has only been in regular use since last winter. Ablah usually spends three days a week in New York, often accompanied by his wife, Virginia. and the couple revels in the fact that the jet has enhanced the quality of their high-flying life. "Now we can watch a full movie

if we like, have elegant meals served to us and marvelous wines,"

The jet is outfitted with a television set, a videocassette recorder like "My Fair Lady," "Tootsie" and "Victor/Victoria," as well as such musical selections as John "Greatest Hits." It can accommo date 14 passengers in what Ahlah calls "the social area" and "the conference area," where be often

Three people can sleep stretched out full-length, one on the 12-footlong coral-colored sofa and two on daybeds converted from pairs of the huge upholstered armchairs. These, too, are what Ablah calls "state of the art," swiveling 360 degrees and moving forward, backward and sideways. Each of them, he noted only half facetiously, "costs about as much as a car."

The bathroom facilities include a 24-karat gold sink, gold faucets and a gold toilet flush button. Meals are served on Ginori china with gilded flatware, and Ablah is

proud of the steward's bar-tending skills as well as his crusine. "He can mix any drink that's ever been discovered." he said. A typical repast is likely to include diet-conscious platters of lobster, crab and shrimp with cocktail sauce. There is one strict house regula-

tion. "The thing we want the plane

my, take a nap - it's really an that it will never take off without those being available."

To Ablah, serving Doritos with

peanut butter and jelly accomlishes the same purpose as his pohey of not wearing a jacket or tie.
"Just so as not to forget where I came from," be said. "I want so much not to be a rich snob. I almost enjoy playing a game. I really enjoy being rich but pretending I'm not." Once upon a time, Ablah said, "I was the kind of guy who certainly

had a manicure every week but would also change shirts twice a day, because I wouldn't want even

epiphany. He gave all his clothes to the Salvation Army - "all the 1 cashmere jackets, the suits, the shirts, the ties"— and began to wear only open-necked shirts. "And from that time on, every

But after suffering severe busi-

deal I touched made money," he said. "It seemed the Lord smiled on me." These days, his standard attire is a pullover knit shirt, doubleknit pants and burgundy-colored Lucchese cowboy boots.

Ablah's trademark is a curvy heart that he doodles on all his too

papers and has emblazoned on everything from his oil rigs to his and the cocktail napkins. A hright orange heart has now been painted on the side of the jet. "To me the heart means happi-

to be famous for," said Ablah, "is a ness and love, warmth and wel-certain hors d'ocuvre, a Dorito torserved to us and manyelous wines," tilla chip spread with peannt butter we want the plane to mean to ev-Ahlah said, "We can play gin rum- and jelly. FUTURES AND OPTIONS

Record Low Prices Spark New Gold and Silver Rush

By H.J. MAIDENBERG

New York Times Service EW YORK -According to experienced bullion dealers, gold bugs view the world in two ways: One, an improving economy can only lead to a resurgence of inflation lollowed by economic and social chaos. Two, if conditions are not good, then the economy can only get worse with the same results. Thus, the recent steady stream of positive economic news has only reinforced the first of their two views, and that was reflected in the gold market last week.

On Friday, bullion prices traded at a two-year low of \$332 an ounce, which also was the life-of-contract low of the spot August gold futures delivery on the Comex in New York. For many gold hugs and new speculators, that was happy news. When Comex closed, spot gold was at \$342, up \$8.20 on the day and

"We haven't seen

anything like this

since the boom of late

up \$2 on the week. Bullion coin dealers and banks offering certificates of deposit in the metal were besieged by small and not-so-small buyers.

1979, early 1980." Jeffrey A. Volk, vice president and managing director of Citibank's Precious Metals Service, which is a major dealer in bullion worldwide, observed Friday: "When gold prices drop, demand soars and vice versa. In early Ime, for example, gold was sliding from around \$400 an ounce and our sales of bullion certificates were sluggish. But early this month, when the gold market really took a dive, our business jumped. Volume thus far in July is running 300 percent above the June level. Normally, but and August are dead marks in the global bullion market."

July and August are dead months in the global bullion market."
The certificate buyers, Mr. Volk said, were equally represented by Citibank's three main groups of precious-metals investors, its institutional, "high net worth" and "retail" customers of more modest means. "These three groups, as opposed to the in-and-out gold and silver traders, always take the long-term view," he said. James P. Hildebrandt, senior vice president of Deak-Perera, the learnest builties said deleared.

the largest bullion coin dealer, noted as he and other executives helped harried clerks wait on customers and take orders over the telephone at company beadquarters in lower Manhattan: "We haven't seen anything like this since the boom days of late 1979 and early 1980. I don't have precise figures, but we estimate that July sales of bullion coins and bars must be up 200 to 300 percent Irom June and way above what we had in previous months,"

Mr. Hildebrandt pointed out, however, that the buying of silver, mostly in bar lorm, has been much greater than sales of gold, which he attributed to the lact that silver prices have dropped more sharply than gold prices have. The Comex spot August silver futures closed last Friday at \$7.05 an ounce, down 28 cents on the week and \$1.33 for the month to date.

NOTHER example of the latest gold and silver rush sparked by the decline in prices was provided by Jeffrey A. Nichols, an authority on the precious-metals market.

"The investments in gold-oriented domestic mutual funds are always a good indicator," Mr. Nichols said. "At the end of 1983, these funds had total assets of roughly \$900 million. On March 31, the latest reports we have show the total assets of these funds at just over \$2 billion. The first quarter of this year was not a good

one for precious metals, so we expect that the numbers will be

bigger for the second quarter because the precious-metals mar-

kets were even worse then." Because the outlook for precious metals remains poor, at least for the near term, a new kind of precious metals mutual fund has been organized by Mr. Nichols, until recently head of the precious-metals department at Goldman, Sachs & Co., and Thomas Israel, a director of Donaldson, Lufkin & Jenrett

The American Precious Metals Advisors lund is not entirely gold-oriented, as are most such mutual funds. As Mr. Nichols explained: "While all precious metals generally follow the same trend, they don't do so at the same rate. For example, the recent decline in silver has been much sharper, in percentage terms, than in gold or the platinum family of metals. In fact, platinum, at 5329 an ounce today, is again selling at a discount to gold."

Consequently, he thinks that arbitraging and spreading between the precious metals could provide an opportunity for more profit than just investments in gold bullion or domestic or foreign gold shares, which is what most precious-metals mutual funds do.

Dollar Sets Records In Europe

Volcker Testimony Has Little Effect

LONDON - The dollar, propelled largely by continued expec-tations of high U.S. interest rates, closed Monday at new record highs against the Swiss Pench, Italian and Spanish currencies.

Gold prices moved up around \$3 dollars an ounce, but failed to get back over \$340 dollars after last week's sharp lall.

Currency dealers said trading was quiet despite the dollar's strong advance.

It was only temporarily reined when the U.S. Federal Reserve Board chairman, Paul A. Voleker, reiterated in Washington his view that the growth of the U.S. economy will soon moderate.

"The market took Volcker's remarks as a hint at declining Ameri-can interest rates," said one dealer of Mr. Volcker's testimony to the Economic Committee of the U.S.

"But basically, the market re-mains convinced that even a slight decline in interest rates won't undermine the dollar's general strength."

In Zurich, the dollar rose to a record 24640 Swiss francs, then declined slightly to close at 2.4623, up from 2.4585. In Paris, the dollar closed at a

record 8.891 French francs, up from 8.7975 Friday, the previous In Milan, the dollar also closed

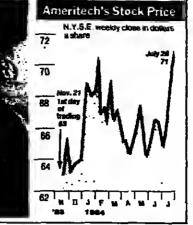

at a record, 1,782.20 lire, up from 1,761.80 on Friday. The previous record of 1,768.25 was set July 24. The dollar reached a record high of 163.75 pesctas in late trading in Madrid, up from the previous high of 162.65 pesetas on July 24, and compared with Friday's closing of

In London, the British pound closed at \$1.3081, down from \$1.3142 late Friday. The pound established a record low of \$1.3045

In Frankfurt, the dollar closed at 2.8975 Deutsche marks, an 11-year high, and up from 2.8755 Friday. The dollar also set a record of 58.57 Belgian francs in Brussels, against Friday's close of 58.075 and a previous record of 58.885 on Jan.

London, up from \$336 late Friday. when necessary.

William L. Weiss, left, chairman of Ameritech, and William H. Springer, vice chairman and chief financial officer, at the regional telephone company's headquarters in Chicago.

Ameritech Takes a Surprising Lead Among Spun-off AT&T Companies

By Steven Greenhouse New York Times Service

NEW YORK - When seven regional telephone companies were about to be broken away from American Telephone & Telegraph Co., many investment analysts predicted that Amerilech, the Chicago-based regional, would bring up the rear in the race among the

Wall Street's bandicappers cited two reasons for their dour predictions about Ameritech: it is in one of the slowest-growing regions of the United States in terms of population, and its service area includes the Middle West's Rust Belt and its array of declining industries.

But once the regionals went into business last Jan. I. Ameritech surprised everyone by sprinting out in Iront of its sister companies. In its first two quarters, Ameritech's return on equity was the highest of the regional companies. It was the first regional to market cellular mobile telephones, and, many industry analysts say, it has achieved the lowest cost per telephone line.

"In terms of return on investment, they've been the stellar performer," said Audrey L. Stevoli, an analyst with Duff & Phelps, a Chicago-based securities firm. They've done a better job in controlling costs than the others. They recognize this is a slower-growing area, so they bit the bullet early and cut costs." Nevertheless, some analysts contend that it is only a marter of time before it falls back into the pack. say. Its dazzling performance might cause the rate-setting commissious in Illinois, Wisconsin, Michigan, Indiana and Ohio, the states it serves, to reduce telephone rates - and company profits - on the ground that Ameritech is getting ton high a return on

Probably the biggest fear, however, is that companies using competing technologies, such as satellite, cable or fiber optics, will skim off Ameritech's premium revenues from business calls and data transmission from such important business centers as Chicago, Detroit and Cleveland.

Officials at Ameritech, which is short for American Information Technologies Corp., say they have reached the front of the pack the old-fashioned way. "We worked very hard to prepare for the post-divestiture world," said William H. Springer, Ameritech's vice chairman and chief financial officer. "We know the competition is growing every day and that the low-cost provider is the one that is going to be

The company has slashed its payroli by 16,000 employees, to 80,000. These buge cuts, analysts said, have enabled Ameritech to outperform the other regionals. Its second-quarter earnings were \$263.9 million, or \$2,71 a share, on revenues of \$2.07 billion. This gave it a 15.3-percent return on equity for the first six

Murdoch Plans Offer to St. Regis **Shareholders**

NEW YORK - Rupert Murdoch, whose bid for control of St. Regis Corp. was rejected by the forest products company last week, said Monday that he intends to take the offer directly to St. Regis shareholders.

Mr. Murdoch's News International PLC said it plans to make an offer to shareholders for 50.1 percent of St. Regis stock within five business days.
In a related development, St. Re-

gis asked the New York Stock Exchange not to open trading in its shares pending an announcement. In the meantime, Carol Olwert, a St. Regis spokeswoman, said her company would not respond to Mr.

Murdoch's latest plans.
The value of Mr. Murdoch's bid would be determined by whether St. Regis completed its previously announced plan to purchase Colo-nial Penn Group Inc., an insurance company, in a \$585-million stock

and cash transaction. News International said it would offer \$55 a share in cash for each St. Regis share sought if the Colonial Penn acquisition was not completed. Otherwise, the offer would be \$47 a share in cash.

The offer would be valued at about \$890 million under either offer, because of an increase in St. Regis stock outstanding under the Colonial Penn transaction. There now are about 36 million St. Regis shares outstanding, including diflerent series of preferred stock that is convertible into common stock. Mr. Murdoch currently controls I.8 million shares of St. Regis com-

mon stock. Mr. Murdoch said he currently had no plan to purchase more than 50.1 percent of St. Regis stock. But he said that if the St. Regis directors supported his bid, he would negotiate an agreement to buy the remaining stock and complete a

Mr. Murdoch, a publisher who owns newspapers and other properties in Britain, Australia and the United States, had earlier directly approached the company with an offer of \$52a share for \$0.1 percent of the stock. In turning down that bid last week, St. Regis directors said the offer was not in the best interests of the company or its News International noted that

of such a large bank as Continenprospects Mr. Volcker is known for has directed it not to acquire any

Nebraska court order has been is-

sued barring additional purchases of St. Regis stock without comply-ing with Nebraska insurance laws. In addition, it said it was advised that the staff of the Securines and Exchange Commission has raised questions as to whether News International had fully disclosed its intentions to seek control of St. Regis and that the SEC staff was considering recommending seeking an injunction against Murdoch's

News International said it reserved the right "not to commence the tender offer if St. Regis takes any action to frustrate the tender offer, if there is an adverse development in any of the pending regula-tory court proceedings or if News International does not obtain the necessary amendments to its bank loan commitments" for the lower share-price offer.

■ Group Buys St. Regis Shares A group controlled by a New York City investor, Ivan Boesky. told the SEC it acquired 3.2 million St. Regis Corp. common shares, or 9.73 percent of the total outstanding, Reuters reported from Wash-

ington.

The group said it acquired the shares for investment purposes and does not seek to take control.

Banco Filipino Set to Reopen

The Associated Press MANILA - The largest savings bank in the Philippines, Banco Filipino, is set to reopen Wednesday after a tense nine day struggle with the country's central bank for emergency funds to meet a growing demand for withdrawls.

Under orders from President Ferdinand E. Marcos, the central bank granted to Banco Fili-pino cash loans worth up to \$167 million late last week. Many commercial bankers

here remain nervous of low public confidence in the banking system, and more than a dozen banks here took out advertisements in major newspapers to reassure their depositors. Most bankers blamed Banco's crisis on inflation, de valuations of the peso and the slow release of cash by the central bank, which is under pressure to reduce the money sup-

Bank AG said partial operating profit for the first half of 1984 dropped 12 percent from the record 1983 period, to 508.3 million Deutsche marks (\$176.5 million) from 579.1 million DM.

A company spokesman said that Dresdner — West Germany's second largest bank - had expected an even sharper drop.

Last year, Dresdner's partial operating profit, which excludes results from trading on securities, currency and precious metals, rose

Regent Hotels Buy London Dorchester

LONDON - The Hoos Kong-based Regent Interna-tional Hotels announced Monday the acquisition of the Dorchester in London from a group of Middle Eastern investors. The price for the 290-room hotel was not disclosed, but sources close to the transaction out it at around £40 million (\$52 million), or about 10 times annual profit. The 53-year-old hotel changed hands in 1976 for £9.5 million. Regent's chairman Robert H Rurne said the man, Robert H. Burns, said that the privately owned hotel company will own about half of the Dorchester,

national Herald Tribune

FRANKFURT — Dresdner able than we had expected," said Walter Vielmetter, a Dresdner spokesman. "We managed to increase overall volume by 4.4 percent compared with a year earlier, largely as a result of persistently strong demand for credit from private domestic clients."

The bank reported that partial operating income, which includes interest income plus fee income af-ter deductions of personnel and running costs, was down as a result of higher personnel costs and lower revenue from interest received. The bank said that income from

fees grew 4.1 percent from 394 million DM to 410 million DM. Personnel and administrative costs rose 2.5 percent to 1.21 billion reduction in bankruptcies in West DM, from 1.18 billion DM, while Germany and an improving ecometerest income fell 3.8 percent to pomic outlook.

U.S. Tool Orders Down 40% in June

WASHINGTON - U.S. machine tool orders fell to \$192.2 miltion in June, down 39.9 percent from a revised \$319.6 million in May, the National Machine Tool Builders Association said Monday.

But it said orders for June were 32.3 percent above orders of \$145.3 million in June last year.

Orders for metal-forming tools fell 54 percent last month to \$60.4 million from a revised \$131.1 mil-

to 1.16 billion DM, a 38-percent 1.16 billion DM from 1.21 billion DM, the bank reported in its semi-The results were far more favor- annual letter to shareholders.

The bank said that fee income grew 4.1 percent to 410 million DM from 394 million DM.

Mr. Vielmetter said the bank's average interest-rate margin, the difference between the interest rate paid and the interest rate received, fell as expected to 2.7 percentage points compared with an average 2.9 points for 1983.

The spokesman said that the bank is preparing to increase provi-sions against losses and risks for its overseas lending operations above last year's levels, which amounted to some 1 billion DM,

Risk provisions for loans to domestic clients are not apt to rise. Mr. Vielmetter said, in light of a

June 1983, the association said. It said orders for metal-cutting tools last month fell 30.1 percent to \$131.8 millioo from a revised \$188.5 million in May, bot were up 36.7 percent from \$96.5 million in

the same period last year.
It said the hune backlog of unfilled machine tool orders totaled-\$1.39 billion, up 1 percent from May and 45.8 percent above June

Industry shipments fell 2.2 perlion in May, but were up 23.7 per-cent from orders of \$48.8 million in a revised \$210.1 million in May.

Chartered Bank Pledges to Stay In Hong Kong

HONG KONG - Chartered Bank, a Standard Chartered Bank PLC unit, will stay in Hong Kong oo matter what changes come to the territory, the regional general manager of the bank, Bill Brown, was quoted Monday as saying by China News Service, an official oews agency.

In an interview, Mr. Brown said Hong Kong will remain an important financial and manufacturing center.

He said the present weakness in the local stock market and stagnant property prices will end when China and Britain sign their agreement on the fnture of Hong Kong Hong Kong reverts to Chinese rule in 1997, but talks are continuing be-tween Britain and China on how the territory will be governed after that date.

Chartered bank will install a 300-million Hong Kong dollar (\$38-million) computer system here and will rebuild the bank's main branch building in 1986. The bank also wants to set up

branch offices in the 14 coastal cities of China that are opening to foreign investments, be said. Mr. Brown noted that the bank, which has a branch office in Shanghai, recently set up other offices in China.

vately.

By Michael Parks Las Angeles Times Service

BELIING - The U.S. aviation industry is in line for perhaps bil-lions of dollars in sales to China before the decade's end but the European competition will be tough, leaders of a U.S. aerospace delegation said here last week after three days of talks.

Olin L. Wethington, U.S. deputy undersecretary of commerce for international trade, said Chinese officials told the group that they want to buy large oumbers of advanced jetliners, medium-distance aircraft and commuter planes from the United States. They also want to enter into production and assembly agreements.

"We feel that we have opened the door in this industry for American as well as to assure China of full companies," Mr. Wethington said. government support for the sales, as well as to assure China of full

Société Anonyme

Registered Office: 2, boulevard Rayal - Luxembourg

B.C. Lexembourg B. 20058

The quorum required by the law not having been reached at the first Extraordinary General Meeting of Shareholders beld on June 29th, 1984,

SECOND EXTRAORDINARY MEETING OF SHAREHOLDERS

to be held on August 31st, 1984, at 10.00 a.m. at the registered office of the Fund, with the following agenda:

1. Amendment of articles 3 and 30 to replace the reference therein to the Luxembourg law of July 31, 1929 governing holding companies by a reference to the Luxembourg law of Angust 25, 1983 on collective

placement organizations.

Amendment of article 21 second paragraph so as to add "payment will ordinarily be made within three business days after the relevant

Valuation Date".

Aroendment of article 23 second paragraph to read as follows: "The Net Asset Value per share of the corporation shall be determined, subject to the provisions of the dest following paragraph, once daily as of the time of the close of trading on the New York Stock Exchange, on each date ("Valuation Date") during which such stock exchange is opened for trading. If any such regular Valuation Date is a holiday in Luxembourg

trading, If any such regular Valuation Date is a holiday in Luxembourg or on a stock exchange on which a significant portion of the corporations portfolio securities is listed and such stock exchange constitutes the principal market or such securities, or is a holiday elsewhere, which impedes the calculation of the fair market value of the portfolio securities of the corporation, then the next business day in Luxembourg and/or such stock exchange or place will be a Valuation Date."

Amendment of article 23, third paragraph under E) so as to read: "In case of a decision to liquidate the corporation, starting the day of the publication of the first notice convening the general shareholders' meeting for this purpose."

meeting for this purpose."

Amendment of article 23 to add at the end as additional sub-paragraph as follows: "The Corporation shall suspend the issue and redemption of its Shares furthwith upon the occurrence of an event emising it to enter

toto liquidation or upon an order of the Luxenbourg supervisory authority." Amendment or article 23 by adding at its end an additional peragraph as

follows:

"The assets shall be valued in accordance with principles laid down in the Linembourg law of August 25th, 1983 and valuation regulations and guidelines approved by the Board of directors from time to time. Portfolio securities, including American Depositary Receipts or European Depositary Receipts, which are traded on a stock exchange or quoted on the National Association of Securities Dealers' Stock Quotations are

on the Namonai Association of Securities Legiers. Stock Quotinous are valued at the last sale price (regular way) on the exchange on which such securities are traded, as of the close of business on the day the securities are being valued or, lacking any sales, at the last available hid price. Securities traded in the over-the-counter market are valued at the last

available bid price in the over-the-counter-market prior to the time of valuation. Securities which are not listed or traded over the counter or

for which market quotations are not readily available (including restricted securities which are subject to limitations as to their sale) are valued at the lair value at which it is anticipated that they may be resold, as

determined in good faith by or under the direction of the Board of Directors of the Company."

Amendment of article 24 by adding theretor "Payment for Shares purchased and/or issued shall be made in dollars within four business

purchased and/or issued shall be made in courts within four pusiness days after the day of allotment."

The shareholders are hereby inferred that this second Extraordinary Meeting of Shareholders shall validly voir on the points of the agends whatever portion of the share capital of the Corporation will be present or represented. In accordance with Luxembourg law, resolutions will be subject to 5 majority of 2/3 of the shares present or represented at the

In order to attend the meeting of August 31, 1984 the owners of bearer abuses will have to deposit their abuses five clear days before the meeting at the registered office of the Company or with the following banks:

July Trade Surplus Narrows in Japan

Reuters

TOKYO — Japan's customscleared trade surplus narrowed to
\$1.28 billion in the first 20 days of
July from \$2.04 billion in the same
June period, and compared with a
\$1.42-billion surplus a year earlier,
the Finance Ministry said Monday,
Freight on board exports in the
interim July period rose 20 percent
from a year earlier to \$8.91 billion
after a 24.9 percent rise from last
year in the same June period.

Cost, insurance and freight imports were up 27.1 percent from a
year earlier to \$7.63 billion agains
a 7 percent rise from last year in the
same June period.

Ameritech Leads U.S. Regional Phone Firms Canada

(Continued from Page 9)

"We've done better in working with Bell. "The question is: Can we business because they know that its months, more than two points our public service commissions in price according to our costs or must regulated businesses can run into above the average for the other re-

With Ameritch's initial year's earnings forecast at \$9.47 a share for 1984, its first-half earnings per share were \$5.38, or 56.8 percent a higher percentage than those of

any of the other regionals. its stock has been trading recently around \$71 on the New York Stock Exchange, up from \$64.50 last Dec. 30. This percentage gain is in line with those for some other regional companies and helps explain why Ameritech management announced Thursday that it is buying back 500,000 of its shares because it believes its stock is under-

valued. Contrary to predictions, Ameri-tech's location in a mature region has helped it because it has not had to spend millions on laying new lines to distant new homes. Also defying predictions, being in a highly cyclical manufacturing region has been beneficial because the United States is in the healthy part of the cycle. In the next sould sion, however, this cyclicality could sometimen more than the othsion, however, this cyclicans, we slow Ameritech more than the other regionals.

Because fixed costs are such a cago, where lines are closer large part of total costs, Mr. Weiss together and installation and ser- is striving both to keep fixed costs vice less costly, than in rural south- down and to maximize the number of calls and thus revenues.

"There's a pervasive understandhad prevailed throughout the state, ing in the company that increased usage of the phone system at mar-ginal investment is a very attractive thing," said Robert B. Morris 3d. large cities higher than their cost, so that they could subsidize rural thing," said Robert B. Morris 3d, and residential telephones to facilitate universal service. Ameritech ties in San Francisco. "Everyone successfully argued, however, that there is thinking about ways to in-

· For example, Ameritech is encompete better with low-cost ef-forts to bypass the telephone sys-glar alarms to phone lines and urging utilities to adopt new technologies that would enable them to read electricity and gas meters over telephone lines, thus

trouble from competitors and public service commissions.

For example, it is seeking to expand its publishing business to more than telephone directories and is working with a real-estate developer to install modern communications systems in buildings, even beyond its five-state area.

Mr. Springer, the vice chairman, aid this "can take the pressure off the operating telephone companies to the extent the other activities do well. This can help keep basic telephone rates low."

However, he added, if regulators take the view that nonregulated business allows Ameritech too large a return on equity. "they'd take away the incentive to get into other businesses, and we'd just back away."

Ameritech is also selling 150 cellular mobile telephones a day in Chicago, 25 percent above expecta-tions, and is about to expand mobile telephone operations to Mil-waukee, Detroit and Cincinnati.

Although snalysts say cellular shones will not break even for nas done so well, said William I. sion. "It doesn't cost us any more Weiss, the 55-year-old engineer to serve our customers than it costs who is the company's chairman our competitors," said Mr. Weiss, and chief executive officer, is: who had been chairman of Illinois gionals to get into nonregulated phones will not break even for three years, Mr. Springer said: "Our revenues today are over \$8 In addition, Ameritech officials our competitors," said Mr. Weiss, are pushing harder than most regionals to get into nonregulated million. That's a big business."

THE SECOND SELF: Computers and the Human Spirit

By Sherry Turkle, 362 pp. \$17.95. Simon & Schuster, 1230 Ave. of the Americas, New York, N.Y., 10020.

Reviewed by

Christopher Lehmann-Haupt

T HERE are dozens of remarkable vignettes to consider in Sherry Turkle's "Second Self: Computers and the Human Spirit," and all they seem at first to share is their evidence of the surprisingly different ways that various people respond to computers. For instance, Jenny — a 6-year-old caught up in a debate among her playmates over whether an elec-tronic toy that seems to cheat can be considered "alive" — announces disdainfully. "To cheat you have to know you are cheating.

Knowing is part of cheating."

Tanya, a sixth-grader who is failing all her subjects despite her sophisticated sense of style and her passionate interest in language, learns to write almost immediately upon being intro-duced to a computer. It turns out that she simply found her childish handwriting too shameful. Frank, a computer-science major at the Massachusetts Institute of Technology and a devout Roman Catholic, believes that if God permits artificial intelligence to be achieved, a "soul" may well enter the machine and use it 'as its 'receptacle' in this universe."

But for all the fascinating results of these and other surveys undertaken by Professor Turkle, there are even better reasons why "The Second Self" is more than just another routine study of the cultural impact of the computer revolution and its prospects for eventually fab-ricating intelligence. These have to do with the author's approach to her subject, which com-bines rigorous academic discipline with a sym-

pathetic, even playful, imagination.
Sherry Turkle holds doctorates in sociology and psychology from Harvard, and is an associate professor in MIT's program in science, technology and society. To write "The Second Self," she spent six years studying and interviewing everyone from children undergoing their first encounters with computers, to lonely adolescents fixated on video games, to those members of MIT's community who are most obsessively involved with advancing the leading edge of computer technology.

Because she proceeds so methodically viewing her youngsters according to Jean Pia-get's model of childhood development, and judging her adults in the light of the current philosophical issues surrounding artificial intelligence - she is able to highlight the significant attributes of her disparate subjects. Not all that different are the self-styled misfits dreaming up variations of Pac-Man and Space Invaders, and the hackers and philosophers meditating on the patterns of Douglas Hofstadter's influential study. "Godel, Escher, Bach: An Eternal Golden Braid."

While the theorists squabble over the relative pertinence of Lovelace patterns and the phenomenon of emergence or whether com-puters can ever be designed to be as intelligent as human beings, the children scratch their heads and wonder if the tic-tac-toe machine knows that it is cheating. It is left to Jenny to point out that if the thinking process is intelligent, then whatever is undergoing the process must also be intelligent. That, after all, remains the gist of the famous Turing test of artificial intelligence, which proposed that if, in a fair test, a reasonable person could not distinguish between the thinking of a person and a ma-chine, then there is no difference between iu-

man intelligence and artificial intelligence. Turkel sees both Freudian theory and computers as popular metaphors for human behav-ior, with the former now giving way to the

latter in the public mind.

It is spt, she believes, that the computational metaphor should be supplanting the psychoanalytic one, with people increasingly talking about themselves as needing "reprogramming" instead of autibuting their behavior to "unconscious drives," as they once were inclined to do.

The computer has come along at a computer the computer was come along at a computer was computed at a computer was computed at a computer was a compu

The computer has come along at a time when our prevailing complaint is loneliness accompanied by fear of intimacy. It is precisely to this neurotic condition that computers, with their ambiguous companionship, are so ideally

Is this a good thing or a danger? As her many illustrations show, it is out necessarily either. Some people are liberated by their contact: others get stuck. "Computers are not good or bad; they are powerful," Turkle concludes, having earned by the strength of her examples

a right to such understatement.

And having presented with extraordinary clarity both sides of the debate on the possibility of achieving artificial intelligence, she ends up her brilliant and challenging discussion on a note of neutrality. What is simificant new challenging the process of note of neutrality. What is significant now, she believes, is that a fascination with our maehine-like attributes that has come in the wake of the computer revolution has taken the place our fixation on sexuality that followed the Freudian revolution.

Christopher Lehmann-Haupt is on the staff of The New York Times.

PATRICK WOLFF, 16 leating Wolff in a later round. That game went 7 N-N3, P-K3, 8 O-O, B-K2; 9 K-R1, O-O; 10 sachusetts, won the 1984 U.S. P-B4, R-Q1: 11 B-Q3, N-QN5 Junior Championship, which with a was held at Happy Valley School in Ojai, California. Wolff scored 81/2-21/2 in the annual invitational tournament sponsored by the U.S. Chess Federation, the American than to develop the white tigorsky Foundation.

John Litvinchuk of Brook-lyn, New York came in second with an 8-3 score. Dennis was there the 11th or 12th moves, 81ed the 12th moves, 20 with an 8-3 score. Dennis Younglove of St. Louis was third with 7-4. The international master Maxim Diugy of Kew Gardens, Qneens, shared fourth place with Stuart Rachels of Birmingham, Alabama, at 6½-4½. Rachels, 14, was the youngest entrant.

Wolff will now represent the United States in the World Junior Championship in Finland in August. Litvinchuk will receive an all-expense-paid trip to the U.S. Open Championship in Fort Worth, Texas in August.

Wolff defeated Diugy, the pretourney favorite, by sharp, efficient attacking play on the white side of a Sicilian Defense.

Against the attack with 6-19.

PARS: 20 ... BxPch; 21 QxB, QxQeh; 22 RxQ, PxN; 23 BxPch, K-Bl, but after 24 R-B3ch, K-K2; 25 R-B7ch, K-Ql; 26 RxRP, he had already lost a pawn and could not stop the loss of more.

Diugy played 28 ... R-B5 but saw that his situation was hopeless and gave up without waiting for Wolff to make his next move.

Oo the other hand.

groups? Surely they have reason to protest this administration."
"The Sierra Club is going to be in the Sierras, the Auduhon Society told me they'd rather be birdwatching, and the Friends of the Earth are holding their own convention in the Grand Tetons in Wyoming. I couldn't even get a handful of anti-

from New Hampshire."
"What about the peaceniks who want us to pull out of Central

nuke demonstrators to come in

They were afraid to come because of Texas's reputation for police brutality."

New York City Honors Boxer,

The Associated Press NEW YORK - The corner of 49th Street and Broadway in mid-town Manhattan has been named "Jack Dempsey Corner" to honor the heavyweight boxing champion who owned a restaurant nearby. Dempsey, who died in 1983, won the heavyweight crown in 1919 and won 65 of his 70 career fights.

ed. They all scream about the are they when we need them? I told keep the TV public's attention for the party honchos Dallas was a lousy place to hold our show." "Why do you need demonstra-

tors?" I asked him. "Because we have to show some contrast between what's going ou inside the hall and what's going on outside. How can our speakers attack the people demonstrating outside when there is nobody there? Couldn't you find any hardcore secular humanists willing to demonstrate against prayers in school?" the manager asked.

"Most secular humanists are on vacation in August." "What about The National Organization of Women? Can't we get them to come to Dallas?"

They said they were thinking about demonstrating at our con-vention, but concluded it would be a waste of time. They'd rather spend their energies making

tional Guard would be standing by. We haven't even come up with one Hispanic to protest the Simpson

"If you want my opinion," the assistant said, "I think there is a conspiracy amongst all the organizations who are against Reagan to boycott our convention. They figure if there is no turmoil everyone will watch an old movie on an independent channel, and no one will even see our candidates on the air.

"That very thought dawned on me," the stage manager said. "Well if they don't want to play that game we'll play it ourselves. Get me the Dallas chief of police."

The assistant dialed and handed the phone to the manager. "Chief, this is the convention planner. Listen, there is going to be a bearded gry outside the convention hall with a big Mondale button on his shirt holding a 'Get Out Of El Salvador' sign. When the TV cameras show up he's going to set fire to an American flag. You can arrest him, but tell hours are to be the set of th but tell your people not to heat up on him too much, because he's real ly my assistant and I'm going to need him to organize the show in-

Fumiko Enchi, Grande Dame of Japanese Novelists

By Christine Chapman

OKYO - "Pent-up emotions stay with women forever," said Fumiko Enchi. "Men can act and purge their feelings.

Fumiko Enchi is the grande dame of contemporary Japanese novelists. At 78, with more than 50 years of writing behind her, she has received all of the literary prizes and honors given to a writer in Japan. But she looks like a small, sweet

obasan, or grandmother, and talks like a liberated woman. She is both, and in her best work, like the novel "Onnazaka," translated into English as The Waiting Years," she is also an artist. A master of the technique of novel and short story, Enchi describes the bedeviled lives of women who contain their emotions until age, or their bodies, betray them.

Years before feminist novels became common in the United States. Enchi wrote about women's sexuality and their oppression by men in Japan's patriar-chal society. In 1957 she won the highest literary award, the Noma Prize, for "The Waiting Years," which John Bester translated for Kodansha in 1971. In 1983, "Masks," published by Alfred A. Knopf, was translated by Juliet Winters Caroenter, Both novels dig into the complexities of being a woman whose natural enemy is

By Enchi's account she has published 300 short stories, 30 novels and 20 plays.

She is also known in Japan for the "Enchi Genji," a modern Jap-anese translation of Lady Mura-saki's 1)th century "Tale of Genji" on which Enchi worked for six years. It was a labor of

"I started the translation when was over 60," she remarked during an interview at her home.
"People thought it would be a mental and physical chore for me,

fate of women," praising her brilliant characterizations and her

Fumiko Enchi: Releasing pent-up emotions.

INTERNATIONAL CLASSIFIED

women's fate," she said simply during the interview. "Japanese women have been oppressed for over 600 years. They've suffered in silence and never fought against social norms and rules. hey try to bear them."

Enchi survived near-fatal bouts with cancer during the postwar years, and a fallow period as a writer because of her sickness. "The fact remains, I didn't die," she said tartly.

Enchi, who usually appears in public in a kimono, sits in her living room wearing pink socks and a sweater over her western dress. It's a damp afternoon during the rainy season, but she is in good spirits, eager to talk about her writing and her subjects: women and men.

"I don't discriminate between Critics have described Enchi's men or women for my material," persistent fictional theme as "the she insisted, "And human fate is something each individual inherits from his past history and his family. I do think that women are dissection of repressed passion.

family. I do think that women are allowed more freedom today to

express themselves, but the style of expression is shallow.

Enchi's prototype of a long-suf-fering wife is Tomo Shirakawa from "The Waiting Years," a nov-el she worked on for eight years. Enchi probed the mind of a traditional woman married for 49 years during the Meiji and Taisho periods. The novel gives a remarkable insight into the wom-an's thwarted passions as she loves a husband who humiliates

Yukitomo Sbirakawa, a wealthy and important government official, achieves a certain notoriety in Japanese literature as a man whose lust for women is equalled only by his arrogance. He sends his wife to Tokyo to select a concubine for him. As his career and his ego flourish, the marriage becomes sterile.

He adds a second concubine to the family compound, Eventually he begins a sexual relationship with his son's wife. His own wife,

does not express her pain until she is dying. Then she asks her husband to throw her body into the sea, finally insulting his self-esfor Enchi, who was married for

40 years, the novel was not based on personal experience or observation, she said, but on stories from her grandmother who "lived more than 100 years ago." Acknowledging "The Waiting Years" as her representative work, she modestly disclaims its

"To me the book is like listening to gossip or women's secret talk. I was very sympathetic to the concubines, and to Shirakawa's

"If you love your husband, it's a chore to live through life with him," she says recalling a Japanese proverb. "I was married for 40 years and I was not in love with him at all. Marriage was an es-

The somewbat-rebellions daughter of a Japanese linguistics scholar, Fumi Enchi was born in the center of Tokyo in 1905. (She adapted Fumiko as ber pen

Dropping out of the girls' high school attached to Japan Womschool attached to Japan won-en's University, she began to study drama. Having been stimu-lated by her family's love of Ka-buki, she wrote her first play before she was 23, making her debut as a playwright at the Tsukiji Lit-tle Theater.

Drama was the favorite form of literature in those days," she recalled. "But after my marriage, I realized life was more compl cated and drama was not the proper form to show it. Drama is limited to action and dialogue. The novel gave me more freedom for expression. I began writing novels and short stories when I was 27 or 28."

Before her marriage at 25 in 1930, when she was "eligible," as she puts it, she was caught up in the proletarian literary move-

"I belonged to the Communist organization, but since I loved my father very much, I didn't want to cause problems for him. I thought of breaking away from the family, leg and but I didn't, I didn't seek a to trave wealthy man to marry either, I novel.

wanted a scientist or a journalist." She married a journalist, Yo-shimatsu Enchi, a newspaper reporter who died 10 years ago. They had a daughter, now the 51year-old mother of four children and wife of a scientist. Enchi lives with them in her large house near the campus of Tokyo University.

For several years during the war and later Enchi could not write. In the war she lost her property to the bombing and then endured a slow recovery from cancer because of a shortage of medicine. However, in 1952 her novella "Himoji Tsukihi," or "Starving Days," won the Women Writers Prize, and Enchi began writing a long list of successful novels and short stories, including

1983's "Kiku Jido." In his essay "A Survey of Liter-ature in 1983," the critic Masaaki Kawanishi calls it a work of "ma-

ture mastery." "Even in old age," he writes,
"Enchi's inner and outer worlds
are liberated and free."
Enchi admits having made a

good living by writing novels and stories for magazines and news-papers. This kind of serial writing s the usual method of publication in Japan for authors to reach a wide public. After appearing in the journals, the work is usually published in book form. Although she is adept in using

the story-within-a-story device and, in many of her novels, juxtaposing the bizarre with the real, she dismisses the idea of such conscious craftsmanship.

"I can't plan a literary device at she said. "Akutagawa planned meticulously, but Juni-chiro Tanizaki gave up in the mid-dle of writing. He said he wasn't smart enough

"Yukio Mishima pointed out two aspects of my novels," she continued, mentioning a third contemporary whom she has out-lived. "He said 'Onnazaka' was a story of human ethics while 'Masks' was amoral. 'Masks' was my imagination, my illusions and passion," she asserted.

The outspoken Enchi has the spunky charm of her young heroines and the strong endurance of the older ones. In spite of a "bad leg and a bad eye," she would like to travel, she says, and plan a new

To Recall Book on Pope

A book about Pope John Paul II is frandulent, contains quotes that are "not authentic" and will be pulled off the market, according to one of its publishers. "I have no other choice, the book is a disaster," said Julian M. Snyder, president of Richardson & Snyder, which published "God's Broker" by Antoni Gronowicz last April Snyder plans to sue for the \$60,000 advance paid the author and will dissolve his joint publishing venture with Stewart Richardson, who had acquired the book. But Rich ardson said Snyder "doesn't have any right to recall the book" and said he plans to sue Snyder. The book purports to be the life of the pope as told in his own words and in the reminiscences of friends. It quotes the pope directly on a vanety of subjects. "Many of the onetations are not authentic," said Benjamin Shedier, a lawyer for Sayder. The New York Times said a Vatican official told the newspa-per last May (IHT May 31) that the author never spoke to the pope. . 1. (i) 🚨

Houdini" was hospitalized with burns in London after failing to burns in London after failing to free himself of handcuffs and chains while surrounded by bales of blazing straw. Dave Danzie, a member of a circus troupe called the "Grand Theater of Lemmings," trussed himself up Sunday during a performance in Battersea Park, lit the hay and then tried to extricate himself. A hospital spokesman said his nijuries were not serious.

A London woman with a lifelong ambition to make a paracture ambition to make a parachute jump chickened out Sunday, then broke her arm in a two-foot (0.6-a day's training, Jacqui Miranda, 38, took to the skies from an airstrip at Badminton in southwest... England. At 2,000 feet, she became too nervous to make the jump and climbed back into the aircraft. The mishap, Miranda said, happened several hours later when she was demonstrating parachute tech-niques to friends by jumping off a children's climbing frame.

An escape artist billed the "new

Solidarity Assails Amnesty In Letter

WARSAW - A leader of the Solidarity underground, who dis-appeared after his release from prison under a government armes-ty, has met with a leader of the union's underground movement, a communique signed by both men said Tuesday.

The communique, dated July 29 and given to Western media organizations Tuesday, said Wladislaw Frasynink, who was released from Leczyca prison Friday, had met with Zbigniew Bujak. Mr. Frasyniuk, a former Solidar-

iry chairman in southwestern Poland, failed to return to his bome in Wrocław after his release.

The communique said Mr. Fra-syniuk had tricked security police and made his way to Warsaw to meet Mr. Bujak, one of the most wanted underground Solidarity leaders, who has been in hiding for two and a half years.

It said, "Polish society, Solidari-ty militants, the Roman Catholic Church and the West" had pressured the country's Communist government into declaring an amnesty for 652 political prisoners July 21. This measure, which could have marked an important step in Polish life, is aimed at serving the current interests of power, the communiqué said.

The communique called for the release of Bogdan Lis, a jailed un-derground Solidarity leader, and colleague, Piotr Mieszewski. who were arrested in June and charged with treason, which is not covered under the amnesty. Solidarity said in an illegal radio

oroadcast Monday that the govern-ment amnesty was a sham aimed at improving the country's international image

Argentina Loses Ground In Fight on Rights Cases

By Jackson Diehl

BUENOS AIRES - Seven months after President Raul Alfonsin of Argentina ordered courts martial for military commanders involved in illegal arrests, torture and killing of prisoners, his efforts to resolve a painful legacy of politi-cal violence appear to be in danger of breaking down.

The military's supreme council failed in July to complete on dead-line the courts martial of nine former military junta leaders accused by the civilian government of bomicide, torture and other crimes. Regulations require the council to act within 180 days, but a 30-day extension has been granted.

More than 400 other cases of human rights violations, brought in criticizing the delays and have pressed for the transfer of the trials to civilian judges. At the same time, there is evidence of unrest among military officers who fear that Mr. Alfonsin's policy of shielding most of their ranks from suits and punishment is ineffective.

Some officials are urging Mr. Alfonsin to propose an amnesty law automatically exempting most junior officers from punishment, a government source said. A general amnesty decreed by the military last year was annulled days after Mr. Alfonsin took office. Although amnesty laws have

been a traditional measure of conciliation after military governments were replaced in Argentina and other Latin American countries, Mr. Alfonsin has been committed to applying a system of justice to the abuses of both the military and

tributed to a crisis in the army last month that forced Mr. Alfonsin to replace the chief of staff and four other generals, government officials said.

selves sharing the same overall criticism of Mr. Alfonsin.

Despite the president's energetic early effort, they say, his plan to resolve the human rights issue during his first six months in office has

"Nothing has been resolved," said Emilio Mignone, head of the Center for Legal and Social Studies, a rights group representing doz-ens of victims and their families in court cases. Mr. Mignone and military sources predicted that Argentina's democracy could be shaken within the next several months by the eruption of a crisis over the handling of rights cases.

Although overshadowed recently hy Argentina's economic crisis and foreign debt, the legacy of military repression has been described by many Argentine leaders as the greatest obstacle to the consolidation of democracy.

In recent weeks, both the depth of the country's wounds and the potential for conflict have been illustrated by the National Commission on the Disappeared, the group named by Mr. Alfonsin to investigate the years of guerrilla activities by lefust groups and subsequent brutal repression by the military.

Charged principally with preparing a report on the fate of thousands of missing persons abducted by security forces between 1975 ed a 90-minute television documentary in July that included accounts by family members of disappearances and testimony by witnesses to torture and murder in clandes-

tine prison camps.

In the following days, at least 30 bomb threats against Congress, newspapers, hospitals and rights leaders were reported in Buenos Aires.
Rights leaders and government

officials concluded that the campaign represented a warning by paramilitary groups determined to curtail both the commission's final report, expected in September, and

Mr. Alfonsin has responded to dite the trials and investigations.

Key Legislator Set to Approve Salvador Aid

By Philip Taubman

WASHINGTON -- The chairman of a House subcommittee that exerts major influence over foreign aid spending says he is now pre-pared to approve almost all of the military and economic assistance sought hy the Reagan administration for El Salvador next year.

There were indications that the decision on Monday by the chair-man. Representative Clarence D. Long, a Maryland Democrat, signaled a significant shift in congressional semiment since the election of José Napoleón Duarte as president of El Salvador in May.

In the past, Mr. Long and the panel he heads, the House Appro-priations subcommittee on foreign operations, have made deep cuts in foreign aid levels for El Salvador. Their actions have generally been accepted by Congress and have been central to the long-standing dispute between the White House and Congress over policy in El Sal-

vador.

Mr. Long said be decided to sup-port most of the administration's aid request after meeting with Mr. Duarte last week in Washington. "He persuaded me he's caught

between the radical left and the radical right and he needs some support." Mr. Long said in an in-terview. He added, "I think Duarte's a very straightforward guy and I want to give him a

The administration has requested \$132 million in military aid and \$210 million in economic assistance for El Salvador in fiscal 1985. which begins in October, Mr. Long said that when the foreign opera-tions subcommittee begins consideration of the 1985 budget on Wednesday, he intends to ask for \$126 million in military aid and \$180 million in economic support.

Although Mr. Long, who is considered something of a mayerick by his colleagues, does not always re-flect the thinking of House Democratic leaders. his position on El Salvador appears to have considerable support. Last week, the majority leader. James C. Wright Jr., Democrat of Texas, said Congress should approve additional aid to El Salvador to help Mr. Duarte establish democratic rule.

Mr. Long said \$126 million would sustain military aid at the same level approved by Congress in 1984. Congress has approved \$125.7 million in military aid this year, almost half of it in the form of a supplemental appropriation.

The congressman said he conunued to oppose a second supplemen-tal increase for 1984 of \$116 million. This White House request, which was rejected by the House Appropriations Committee last week, is expected to be revived by Republicans when the House begins debate on an omnibus supplemental appropriation bill this week. Lawmakers said it would likely be defeated.

[L. Craig Johnstone, deputy assistant secretary of state for inter-American affairs, said Tuesday be was "pleased that there is a growing bipartisan consensus" over the 1985 spending. But he added that "the administration will make a full effort to obtain all the money that it requested for 1984." The Associated Press reported.]

Congress has approved \$120 million in economic assistance for El Salvador this year. The Appropriations Committee approved an addi-tional \$20 million last week as part of the supplemental appropriation

Mr. Long said he thought a modest increase in economic aid and the maintenance of military support were justified by Mr. Duarte's efforts to reform the Salvadoran armed forces and end human rights abuses. "Duarte has gotten rid of a lot of bad officers, he's set up commissions to investigate corruption and he's trying to crack down on the death squads," he said.

Mr. Long's position seemed to go far to fulfill administration hopes that the election of Mr. (Continued on Page 2, Col. 3)

Economic Index in U.S. Now, rights activists and their enemies in the military find themselves sharing the same overall critering the same overall crite

WASHINGTON - The government's index of leading indicators.
a sensitive gauge for forecasting economic health, fell 0.9 percent in June, the first monthly decline in nearly two years, the Commerce Department reported Tuesday.

However, the government has twice recently reported declines in the index only to revise those estimates upward after more complete data became available.

A 1.1-percent drop reported in March was revised to show a 0.3. percent in the second quarter, the percent increase. In June, the government reported that the May index was down 0.1 percent, but on Tuesday it revised that to a 0.4-

percent gain.

Even if the June decline holds. economists bave said it would not signal the beginning of another re-cession. Instead, they say the decline would confirm that the economy is slowing from the torrid pace set earlier in the year.

The last decline in the index was

a 0.1-percent drop in August 1982. just before the economy hit the bottom of the 1981-82 recession. Since then, the index has registered 21 straight months of increases.

The index is based on a variety of economic indicators, such as orders and contracts for goods, business plant and equipment, stock prices. deliveries and the factory workweek, that are usually the first to register a shift in economic trends. The serbacks in June were nearly

across the board, with seven of 10 indicators contributing to the month's decline and the rest on the edge of deterioration.

In a separate report, the government said sales of new single-family bouses rose 0.6 percent in June, ending a three-month decline. New houses were sold in June at landing.

an annual rate of 620,000, compared to a rate of 616,000 in May, according to the report from the Commerce Department and the Department of Housing and Urban Development.

The average price of a home, which has topped \$103,600 in May, fell back to \$100,000. The May figure represented the first time in history that the average price surpassed \$100,000. U.S. business productivity ad-

vanced at an annual rate of 3.3 growth, according to another government report Tuesday. The Labor Department also said

that its index of work-place efficiency, which measures the volume of goods and services and the time taken to produce them against the cost of producing them, increased at an annual rate of 2.9 percent in the first three months of this year.

Air France Jet Is Hijacked

GENEVA - An Air France Boeing 737 with 64 persons aboard was hijacked Tuesday while on a flight from Frankfurt to Paris, an airport official said. The plane refuelled in Geneva before heading for Beirut, the official said.

Arabic-speaking hijackers who seized the plane demanded to be flown to Tehran, but Iranian officials said they would refuse to allow the plane to land. The hijackers then ordered the plane to Beirut. where the authorities closed the airport to prevent the plane from

For First Time, White Male Worker Is in Minority of U.S. Labor Force

New York Times Service

NEW YORK - For the first time, the white male prototype of the American worker since the beginning of the nation no longer makes up the majority of the U.S. work force. In 1983, white male workers fell to 49.8 percent of the work force, from 50 percent in 1982. This trend has continued, and hy June 1984

white male workers had fallen to 49.3 percent of the work force. In 1954, white males made up 62.5 percent of the work force. The trend demonstrates a "different world" in American work home and family, according to Samuel M. Ehrenhalt, the Federal Bureau of Labor Statistics commissioner for the New York region,

who assembled the figures.

Although the overall number of jobs has increased, so that there are more white men at work now than before, both male and female members of minority groups and white women have simply taken a larger share of the new jobs.

TALKS IN ISRAEL - Shimon Peres, the leader of Israel's Labor Party, after meeting Tuesday in Jerusalem with President Chaim Herzog. Mr. Peres and Prime Minister Yitzhak Shamir agreed to hold talks Wednesday on a coalition.

-Japanese Cabinet Places 7% Limit On Increases in Defense Spending

By Clyde Haberman New York Times Service

TOKYO — Japan's cabinet, caught between military and fiscal pressures, approved a budget Tuesday limiting increases in defense spending next year to 7 percent The action means that Japan will continue its pattern in recent years of steadily increasing its military hudget, but falling short, in the

view or many experts, of meeting long-range defense goals. Japanese officials said that a 7 percent increase is probably the best that the Defense Agency could have hoped for, given an austerity program that will produce an overall hudget of virtually no growth for a fourth straight year. Some

government agencies anticipate deep cuts. The actual budget will not be adopted until December, and changes are certain. If the past is a guide. Japanese defense spending will ultimately rise by somewhat less than the 7 percent ceiling imposed Tuesday.

For the last few years the Fi-nance Ministry has preached aus-terity in hopes of arresting a rising national debt, which amounted last year to 39 percent of the gross national product. However, members of the ruling Liberal Democranc Party have begun to chafe over the stringency, and are looking for more public works spending in behalf of their constituents. Their dissatisfaction, some pulit-

vember. Mr. Nakasone is considered likely to remain in office, but he is not so strong that he could withstand a large shift of disaffected Liberal Democrats.

Augmenting the military is part

Newborn Gets Rude Greeting

CHRISTCHURCH, New Zealand - A newborn child was found alive and unhurt after being thrown out with dirty linen at a Christchurch hospital, a health official said Tues-

day.
It was a terribly unfortunate accident, a freak happening." said the hospital board's chief executive, Ron Parker. He said investigations showed the child was wrapped

in a blanket after delivery and placed on a table. Another nurse put dirty linen on the ta-ble, obscuring the infant. The linen and the baby were then dumped into a oag. A few minutes later the nurses realized what had hap-

pened and found the baby.

spending to be inadequate. Reagan administration com-

spending have fallen off dramatically in an election year. For example, Defense Secretary Caspar W. Weinberger visited Tokyo soon after the government conceded last spring that it was well behind in a projected five-year buildup of its armed forces, yet he avoided any statement that could be interpreted 15 CHICISM.

Iraq Adds Man-Made Lake to Arsenal of Defensive Weapons

By David B. Ottaway

GHOZAYAL, Iraq-Iran Border — Here on the decision for the time being, he said. dusty, sun-baked Mesopotamia plains southeast of the come through the Iraqi marshlands to cut the roads between Baghdad and Basra.

The man-made lake, now about 15 miles (24 kilometers) long and a half-mile to three miles wide, is growing steadily. It is the most ingenious of the fortifications the Iraqis have along their southeastern border in preparation for the long-expected Iranian waterway, which is within artillery range of the ters) long and a half-mile to three miles wide, is border in preparation for the long-expected Iranian

Taking advantage of the long full in the war, the Iraqi Army has built up defenses with the help of new Soviet arms and an expert corps of engineers. They an Iranian breakthrough hope to deal such a blow to the Iranians that they will

finally sue for peace.
"We are determined to smash this offensive in order to put an end to the war," said lrag's information minister. Latif Jassem, at a recent news conference. He dotted with bunkers along the southern rim of the said it would be "a catastrophe" for the Iranians if they attacked

Mr. Jassem said that a number of economic targets "deep inside Iran" had been pinpointed for attack and that Iraq would go on the offensive after containing an

Destruction of the main Iranian oil terminal on

Western and Arab analysts here tend to agree that Majnoon Islands, the Iraqi Army is creating a huge Iraq is better positioned than ever to crush an offenwater barrier to block any new attempt by Iran to whether, an attack will come. Some believe Iran may settle for small land grabs to gain bargaining chips for

'The Iraqis have no strategic depth in the south," be said. "There is always a five- to 10-percent chance of

Around the marshy Majnoon Islands area of the war from 25 miles northeast of Basra, Iraq's fortifications consist partly of long trenches reminiscent of World War I and partly of earthen embankments artifical lake.

The water barrier, which runs west to east and straddles the border just to the south of the Majnoon Islands, was made by pumping billions of gallons of water from the Tigris River and the Hawizeh Marshes

through a canal 20 yards (18 meters) wide. Water continues to flow steadily into the lake,

At Ghozayal, three miles inside Iranian territory, the lake presents an impressive sight. The turrets of 16 Iranian T-54 and T-55 tanks are still visible above the water line, a reminder of heavy fighting around the islands in February. Tens of thousands of poorly armed Iranians died.

In the distance, perhaps a mile and a half away on the other side of the lake, an Iranian observation post can be seen clearly through binoculars. Despite the occasional rumble of distant artillery fire, there has been no shooting here for days or any attempt by Iran to re-infiltrate the marshes, according to the local Kurdish commander who led the Iraqi counteroffensive in early March to retake this area.

Iraqi officials, from President Saddam Hussein on down, continue to echo U.S. military intelligence warnings that an Iranian offensive is imminent. But there is no sense of urgency among frontlinc Iraqi soldiers. Their officers seem to believe the Iranian Army and leadership are too paralyzed by internal squabbles to mount a major military operation.

In the February offensive, the Iranians came through the Hawizeh Marshes because it was in a gap between Iraq's Third and Fourth armies and largely without defenses. Several hundred lightly armed Iranian soldiers reached al-Qurnah on the Baghdad-to-

have set up two new commands, the East Basra and the East Tigris ones, which overlap those of the front-

line armies. Local commanders say they believe the Iranian armed forces are beset by military and political difficulties of growing magnitude.

"They are trying to reorganize the Revolutionary Gnard in to a new army, but they are not succeeding," said General Maher Abdel Rashid, commander of the Third Army defending Basra to the northeast. He said officers of the new army were squabbling

among themselves and were of such mixed quality and different backgrounds to make an effective co

He said this mixture "does not give any hope it will be any better," especially since it is clear that the guard commanders "are at odds with the regular army, which is falling under the influence of the opposition. An aide to General Rashid said followers of Massoud Rajavi, the Paris-based leader of the Iramian

opposition Mujahedin Khalq, had succeeded in broadcasting a message on internal army channels to soldiers in the field, calling on them to stop fighting. He also said "a big number" of defectors swam across the Shatt al-Arab to Iraqi lines on July 20, "fleeing from the Revolutionary Guard."

ANTI-U.S. ANGER — Demonstrators in New Delhi protested Tuesday outside the American Embassy, alleging U.S. interference in India's affairs following a Sikh convention held in New York on Saturday. The Sikhs are demanding a separate state.

China Urges U.S. to Speed **Nuclear Pact**

·By Jim Mann

Las Angeles Times Service
WASHINGTON -- Zbang
Wenjin, China's ambassador to the
United States, has strongly cridnuclear cooperation agreement that was initiated during Presiden Ronald Reagan's visit to Beijing

last spring.
Terming the delays an insult to
China, Mr. Zhang said in an interview Monday that U.S. conduct in the last few months had displayed "a mistrust about China which

challenges our honesty."

Although China wants a nuclear he said, it could continue without one if necessary. "People have lived without nuclear energy for thou-sands of years," he noted.

The proposed agreement would let China obtain U.S. nuclear technology. It also would enable U.S. corporations to bid on construction projects, worth as much as \$20 bil-lion, for nuclear reactors that China is planning.
Although the two countries

reached tentative agreement on the nuclear pact last April, the Reagan administration never submitted the plan to Congress for its approval. Instead, it has been seeking to ob-tain new assurances from China or other nations.

In June, Senator Alan Cranston. Democrat of California, charged that China had been helping Pakistan to develop nuclear weapons. Senator Cranston and other critics

On Monday, Mr. Zhang made it clear that China does not want to answer specific questions about whether it is providing technologi-cal help to Pakistan. "We are not interested in giving answers on spe-cific questions, just as your practice is not to give answers on specific sensitive questions on military or intelligence matters, because if you start to give answers, or to answer some questions and not others, then it will give rise to lots of specu-

lation and new questions."

He said China already bad pledged that it would not use U.S. nuclear technology to help other countries. He said this promise was contained not only in Mr. Zhao's banquet toast but also in his official government report to the Na-tional People's Congress in Beijing last May. The approval of Mr. Zhao's report by the People's Congress, the ambassador said, "is something equivalent to a law passed by your government on Capitol Hill."

Asked whether he was saying that the U.S. efforts to obtain new assurances from China amounted to an insult, Mr. Zhang replied: "Yes, exactly, yes."

Argentina Rights Issue

ment with the fund.

Economy Ministry officials said the proposal would involve major concessions by Argentina Philips and agree (Continued from Page 1) appears likely that it will take over the cases if there is no progress soon.

The transfer of human rights cases to the civilian judicial system would undermine Mr. Alfonsin's intention to have the armed forces sit in judgment on the actions of their own members.

In addition, as the hundreds of outstanding private suits fall under the same provisions, dozens and even hundreds of military officers could be faced with the possibility Meanwhile, Adolfo Canitrot, un-dersecretary of planning for the ceedings in civilian courts for trials

- de Opportunit Chancellor Helmut Kohl's dominant Christian Democrats on an environmental issue Tuesday, ending a threat to the uneasy center-right coalition

The liberal Free Democratic members of parliament ended their revolt against the coalition at a four-hour meeting at which only four MPs in the member delegation opposed a government compromise announced

Monday on a disputed power plant.

The Free Democrats dropped their insistence on equipping the coalfired Buschhaus power plant with sulphur dioxide scrubbers before it goes into operation, accepting compensating air quality improvements elsewhere. This ended government fears of a defeat at a special session of parliament later in the day.

End of London Council Is Approved

LONDON (Reuters) — Parliament approved Tuesday plans by the Conservative government to abolish the Greater London Council, which administers major local local services in the capital, and give its powers to borough councils. The government had an easy final majority in the 312-

The bill, a compromise after the government was defeated in the House of Lords on constitutional grounds, extends elected councilors' terms of office by a year until April 1986, when appointed groups will replace.

Passing its final test in the House of Commons just before dawn, the bill will become law when it receives formal approval by Queen Elizabeth-II. The Conservatives supported the measure to halt what they called big spending by mainly socialist-controlled authorities.

Dublin Extradites Alleged Gunman

DUBLIN (AP) — The Irish Republic's Supreme Court on Tuesday, ordered the immediate extradition to British-ruled Northern Ireland of Seamus Shannon, 26, a suspected Irish Republican Army gunman wanted for the 1981 slaying of Sir Norman Stronge, former speaker of the Ulster parliament, and his son.

Mr. Shannon was only the econol sensential fusitive wanted in North.

Mr. Shannon was only the second separatist fugitive wanted in Northern Ireland to be sent back to face trial. The first was Dominic McGlinchey, 30, chief of staff of the Irish National Liberation Army, a Marxist IRA offshoot. He was extradited March 18, also to stand trial for murder. Wenjin, China's ambassador to the United States, has strongly criderated U.S. delays in approving the cized U.S. delays in approving the police have an estimated 25 extradition warrants still active, some dating back several years.

France Lifts Credit Card Restrictions

PARIS (Reuters) — As of Wednesday, France is lifting restrictions on the use of credit cards abroad, Finance Minister Pierre Bérégovoy said

The restrictions, introduced last year as part of the government's-austerity program, never applied to business travelers. Restrictions on the amount of currency travelers could take abroad

were relaxed at the end of last year. Restrictions remain on French agreement with the United States. citizens bolding foreign bank accounts and on transferring money in and out of the country.

Brawls Erupt in Kashmir Legislature

NEW DELHI (NYT) — Brawls erupted Tuesday in the Kashmir state legislature where the month-old administration of Chief Minister G.M. Shah won a confidence vote 43 to 0 after the opposition walked out.

Mr. Shah's followers voted to dismiss the speaker of the house, Wali Mohammad Itoo, and removed him bodily from his chair. Members loyalto the former chief minister, Farooq Abdullah, scuffled with their foes until security guards intervened, then walked out. No injuries were ::

DE PEYSTER, New York -Along the back roads of this rolling farm country, where the asphalt roads are scarred white by iron-rimmed buggy wheels, the old world of the Amish collided with the new world of governments and laws and led to the jailing of several Amish men who refused in pay

The dispute began on a late aunumn evening last year, when a horse-drawn black buggy was hit from behind by a fast-moving car. Three Amish were injured.

Like every buggy owned by Amish families here, it bore no reflector on the back, even though state regulations that took effect last September require orange tri-angles on all slow-moving vehicles. "Decorations" of any sort are shunned by the Amish here. The Amish, adhering to the religious precepts and practices of their

18th-century forebears, wear sim-ple dark clothing, farm the land with horse-drawn plows and eschew modern inventions such as electricity and internal-combustion

When the new regulations went into effect, Keith K. Knowlton, the sheriff of St. Lawrence County, went to discuss the matter with the

Amish.
"I said this was something we could not put up with," said Dan J.
Miller, an Amish minister and one of the religious leaders of the 60 Amish families in De Peyster.

The sheriff, convinced that no one would be well served by a church-state confrontation, decided to let matters be. But after the collision on the winding two-lane road, in which Mr. Miller's granddaughter suffered a broken neck, petitions from local residents seemed to force the hands of local

The next day sheriff's deputies with what the state gave us." ."
began ticketing huggies without an orange triangle. The ticket carried a law." he said. "But when the law go to court to plead their case.

Six of them appeared before gether, we take the Bible."

Town Justice Clifford Aven, and the justice gave them a choice be-tween a \$10 fine or 15 days in jail. "We couldn't pay the fine." Mt.

Miller said. And so, the sheriff took Mr. Miller and five other Amish to the county jail in Canton. While many people favored having the Amish put signs on their buggies, everyone was shocked that a 15-day sentence

was imposed. Lawvers huddled, and an agreement was struck

Its terms provided that the Amish would use the "best available" gray — not orange — reflective tape on the back of buggies and that they would mount a kerosene lantern with a red lens on the rear of each buggy. The agreement also called for buggy drivers to hug the right side of the road and to stay off the roads at night, starting half an hour after sundown, "except when

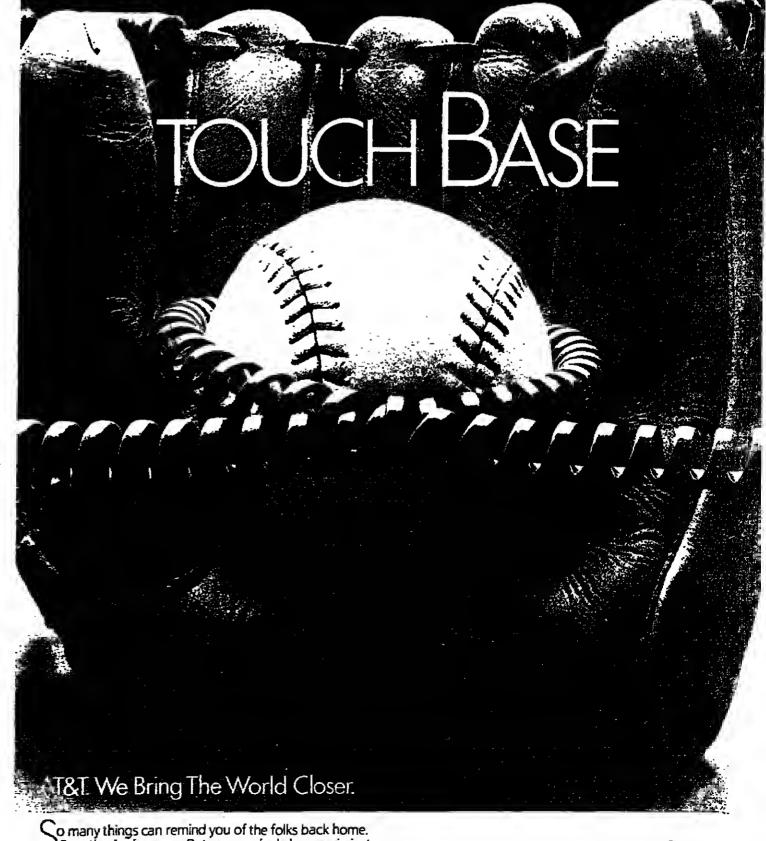

After the agreement was After the agreement was reached, everyone went back to court to try to deal with the ques-tion of the fines. As expected, Mr. Miller and the other Amish again refused to pay. The judge reduced the jail sentence to five days. Then Sheriff Knowlton and the district attorney, William H. Power Jr. came up with a plan designed, as the sheriff put it. "to best series

The sheriff brought the Amishito jail shortly before midnight on: Thursday, All prisoners are automatically given two days off their sentence for good behavior. And leased on weekends must be freed on the Friday before a weekend the sheriff released the Amish in the early hours of Friday morning A five-day jail sentence was thus collapsed into a few hours.

We would not accept the orange triangles." Mr. Miller said: "We fell back on the plain tape, as plain as we could have it. I'm happy

\$10 fine, but the Amisb decided to and the Bible hit like this," he said,

Sure they're far away. But you can feel close again just by picking up the phone.

So go for a homer. Call the U.S. It's a warm, wonderful

way to say you really care.

Anything but Sovereignty

Think about anything, said the mother to the child, but don't think about white elephants. In much this spirit. Britain has agreed to informal talks with Argentina about the Falkland Islands. Britain wants "to start a dialogue," but only if the one subject Argentines care most about — sovereignty — is not discussed. When delegates met in Switzerland. the topic arose and the British stalked out.

Why? Because, according to Britain's foreign secretary. Sir Geoffrey Howe. Argentina wanted practical issues "linked to discussion of a mechanism to address the question of sovereignty." If that means what it implies, Britain will not even talk about how and when that vexatious matter might be discussed.

Britain thus disregards the plea for negotiations from its closest allies, including the United States. True, it paid with lives and treasure ω reverse Argentina's lawless grab of the Falklands. Yet even during the 1982 war, Prime Minister Margaret Thatcher had offered to discuss sovereignty. She went on to humble an arrogant junta and helped bring about a democrauc transformation in Argentina. What can possibly justify intransigence now?

Mrs. Thatcher will talk about returning Argentina's dead and resuming commerce hetween the islands and Argentina. Her ostensible goal is to defend the rights and interests of 1,400 islanders who want to remain British. But their home has become a fortress, an anomalous remnant of a vanished empire. No Latin American nation accepts Britain's claim to the islands. It is hard to believe there cannot be an honorable settlement to bring British troops home, restore normal trade and secure the British citizenship of Falklanders whatever

flag, or flags, eventually fly over the island.
When the islands were first seized by Britain in 1770, the stalwart Tory voice of Dr. Johnson rose in protest: "We have maintained the honor of the crown and the superiority of our influence. Beyond this, what have we acquired? What, but a bleak and gloomy solitude, an island thrown aside from human use. stormy in winter and barren in summer ... where a garrison must be kept in a state that contemplates with envy the exiles of Siberia: of which the expense will be perpetual and the use only occasional." In sum, a white elephant. - THE NEW YORK TIMES.

On Nicaragua's Elections

In Central America, elections have become crucial not only to establish the legiumacy of governments at home but also to qualify them for support in the international arena. So it is icaragua is now in the spotlight. On Nov. 4, it will be holding its first elections since

the Sandinist revolution. Will they be fair?

So far, it looks as if they will not. The Marxists in Managua insist the purpose of elections is not to choose leaders but to "confirm revolutionary power." The Sandinists have relaxed only some of the restrictions on opposition campaigning, and they keep the

sword of emergency legislation in hand. Recently, Arturo Cruz, leader of the democratic opposition, was permitted to return to Managua from exile. He found campaigning restrictions unacceptably tight, and he feared the Sandinists would still control the state's instruments of power even if he won. But be was ready to enter the race, and thereby give the Sandinists the credibility they seek, if they would open peace talks with the Nicaraguan insurgents, who offer to lay down their arms if the Sandinists allow genuine elections. The regime rejected the Cruz bid, but he is bargain-ing still, boping that his alliance's boycott will

stir the Sandinists to make new concessions to win favor in the bemisphere and in Europe. Unfortunately, the Sandinists are not the only burden Nicaraguan democrats must car-

ry. There is also the U.S.-sponsored "secret war." The war hands the regime the flag of nationalism and lets it tar Mr. Cruz as "a politician at the service of the Reagan administration," Without the war, the regime's totali-tarian tendencies would be on full view; with the war, it passes them off as measures required by a U.S.-provoked emergency.

The Nicaraguan elections are not shaping up well. But last May's Salvadoran elections, which the Reagan administration hailed as a triumph of democracy, were also flawed. The armed opposition and its political allies did not participate, and it took beavy U.S, support to help the center prevail.

There ought to be a reasonable consistency in U.S. policy, It should lie in seeing that El Salvador as well as Nicaragua runs a fair process. In both countries, however, electoral fairness is inextricably bound to the pursuit of internal peace. That must remain the Central American priority,

- THE WASHINGTON POST.

Other Opinion

The Good, the Bad, the Volcker?

If there is any single person who can be said to hold the fate of the world recovery in his grasp - not to mention President Reagan's reelection prospects — it is that towering giant of a man, Paul Volcker, the chairman of the U.S. Federal Reserve Board. He moves financial markets like no one else - because he helps to make them.

Deficit cuts are now thoroughly desirable in an American economy heading at an impressive rate for full employment. The prospect of deficit cuts, though, seems fairly feeble even after the elections. Mr. Reagan has just ruled out tax increases in response to Democratic jibes. Equally, Congress is unlikely to want to provide cuts by slashing welfare. So the ball will be back in Mr. Volcker's court for a while. With an unchanged monetary policy, rates will rise; the dollar would rise: Latin America's debtors get hit both ways; Mr. Volcker has to bail out more banks. Clearly, one of his greatest assets is that the financial markets regard him as a Clint Eastwood figure holding the good and the ugly of the White House and Capitol Hill at bay.... For a few dollars more,

--- The Guardian (London).

Strains in the ANZUS Alliance

President Ronald Reagan does not appear to be unduly worried about the threat by the new Labor government in New Zealand to deny American nuclear-armed ships access to its ports. The immediate reaction by New Zealand's new prime minister, David Lange, is, in effect, that Mr. Reagan is talking through his hat. There is no basis for optimism in the White House, he stresses,

It can be readily seen how important New Zealand is in the context of global defense strategy. Without New Zealand, ANZUS [the defense alliance that also includes Australia and the United States] would be crippled. Mr. Reagan's confidence appears to be based on Mr. Lange's intention to renegotiate the ANZUS pact with the United States. Election pledges are not absolutely binding; there is a strong possibility of Mr. Lange striking a compromise in his forthcoming negotiations with Mr. Reagan to allow American nuclear ships continued access to New Zealand ports on a limited basis - as the Australian govern-

ment earlier achieved. - South China Morning Post (Hong Kong).

On Ferraro's Qualifications

Ideally, a candidate for vice president should be fully prepared to assume the duties of the presidency. Such a person would possess a wealth of experience in national government, politics and foreign affairs. In the real world, it Reagan and Jimmy Carter had no foreignpolicy experience or experience in national office. Yet, if the barrier to women on a major party ticket was to be broken, it was almost inevitable that the woman chosen would have less experience than some male contenders. Such is the ugly legacy of past discrimination.

- The Milwaukee Journal

Barriers to Japanese Steel

The recent recommendation by the U.S. fnternational Trade Commission designed to protect the American steel industry from import competition poses a serious dilemma to President Ronald Reagan. The president has until Sept. 24 to decide whether to accept the recommendation, which calls for quotas and tariffs over a period of five years. But even if this were not an election year, Mr. Reagan would have to give the depressed industry some relief. It is hard to believe be would allow market forces to work themselves out.

Import curbs will be unfair to Japanese steelmakers who have exercised restraint over the years in their exports to the United States.

- The Japan Times Weekly (Tokyo).

FROM OUR AUG. 1 PAGES, 75 AND 50 YEARS AGO

1909: An American Invasion of Paris PARIS - On the boulevards at present it is possible, if one has luck, to hear French being spoken. But the chances are that the language that will strike the car will be English, generalis with an American accent, a great deal of German and then the other languages of furope in various proportions. But the predominant element just now is that from the United States. On the "terrasses" of boulevard cases the citizen of the United States is everywhere in evidence. At the theatres they fill the seats. The drivers of cabs and taxi-autos are trying to understand orders given in French tinged with every accent from the Atlantic to the Pacific slope. The Seine steamers are crowded with them, they invade the churches and picture galleries, they are to be found on every platform of the Eiffel Tower.

1934: Austria Executes Nazi Assassins VIENNA — Austrian justice at 1:35 P.M. fon July 31] passed the death sentence for the first time upon members of the National Socialist Party, and three hours later two of the leaders in the putsch of July 25, one of them the man who shot Chancellor Dollfuss, died on the gallows. Franz Holzweber. 30-year-old electrician, who led the Nazis into the Chancellery, was hanged at 4:35 o'clock. Thirteen minutes later his body was cut down and Otto Planetta. 37-year-old porter, went to his death for the death of the Chancellor. Thus the government answered the cry of "revenge" which sounded as the Chancellor's funeral passed through the streets [on July 28]. After two years of Nazi terror during which authorities have compromised before the fear of retaliation, the Austrian government has executed Nazis.

Ferraro's Uncertain **Impact**

By David S. Broder

BOSTON — The Ferraro Phenomenon was on display in full force here the other day, when the Democratic vice presidential candidate swept in to address the delegates to the National Conference of

State Legislatures.

She established that she is a terrific drawing-card, but what else one can say about her at this time is uncertain. The legislators who were here for their annual meeting jammed three floors of the botel, elbowing for spots on the escalators that would carry them to the ballroom where she would be speaking.

If anything, the Republicans were pushier than Geraldine Ferra-ro's fellow Democrats, and were panting to go back home with first-band reports on Walter Mondale's secret weapon.

"I drove down this morning just to see her," said Donna Sytek, a New Hampshire state representative who is the Republican state chairman. "f expected to see some-thing dazzling, and she came across

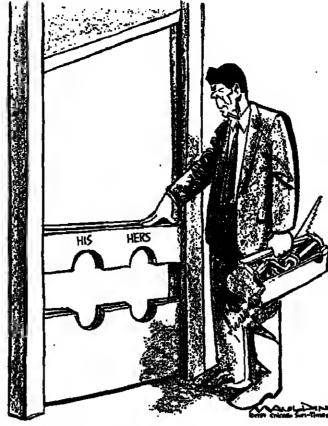

las mediocre."
In truth, Ms. Ferraro's critique of
President Ronald Reagan's budget priorities and policies was little more than standard Democratic boiler plate, indifferently delivered. But there was a palpable excitement about the occasion that jumped gender and party lines — some kind of aura surrounding this pioneer woman politician that tells you not to underestimate the force

to his opponent, in an awkward and unintended fashion, as "the vice presidential thing" on the Democratic ticket.

On Tuesday night television, there was Mr. Smooth himself, Ronald Reagan, assailing Ms. Fer-raro's "demagoguery" in one sen-tence, and, almost in the next, prais-ing her selection as "overdue.

The next day f watched all those

Republicans rushing up the escala-tors to get a look at Ms. Ferraro and

then rushing out afterward to proclaim, with suspicious self-assurance, that she posed no threat to the Republican Party whatsoever.

The responses of Republican women legislators were particularly intriguing. In San Diego last December, several of them denounced the patronizing tone of a White House briefer and protested Mr. Reagan's dumping of two Republi-cans, Mary Louise Smith and Jill Ruckelshaus, from the U.S. Civil Rights Commission.

It was evident then that any dissent from the White House ortho-doxy that surfaced in 1984 would likely come from the distaff side of waves emanating from her person.

The responses to Ms. Ferraro I have heard are so strong, and so unpredictable, that I suspect we are downward it will largely be a silent pears that it will largely be a wallent protest. Most of the prominent women Republican officeholders and activists who paraded in Detroit four years ago against the removal of support for the Fourth and activists woo paraded in De-troit four years ago against the re-moval of support for the Equal Rights Amendment from the par-ty's 1980 platform will not even bother to go to Dallas for this year's

> As one of them said, "Td rather keep my Republican credentials in-tact for 1988 than have them torn up in a futile light this summer. But silence, to this case, will not indicate agreement. And the presence of Ms. Ferraro on the Demo-

cratic ricket feeds unease among Republican officials in independent

areas prone to tieket-splitting.
Rosalind Berman, a state representative from Connecticot, for example, found Ms. Ferraro "very charismatic," despite what she called "the lack of adequate home-

work or substance in her speech."
Miss Berman added: "She's going to be a tough candidate."
Tough enough to pull votes away from Mr. Reagan? "I don't know."
Miss Berman said, "but she might pull out some votes from people who are apathetic" about the presidential candidates.

State Representatives Iris K. Holland of Massachusetts and Mary McCauley Burrows of Oregon offered Ms. Ferraro similar advice: Tone down the partisanship, beef up the substance, take advantage of

your unique personal appeal.

Almost as if they were counseling a colleague, Ms. Holland said, "I hope she wears well," and Miss Bur-rows said, "She can get more Re-publicans if she talks more about herself and less about Reagan."

f do not know what these reactions mean — or bow suggestive they may be of a broader voter response. The glimpses we have seen of Ms. Ferraro show this thoroughly competent House politician is a long way from being a polished national candidate. But she is genuinely a new force in U.S. politics.

Washington Post Writers Group.

A Note to UN-Bashers: Vote Tallies Mislead By Jonathan Power Intel Nations, New York drawal of Seminary campaign.

ed Nations. He said he concurred with those who argued for an Ameri-can withdrawal from UNESCO, and that was that.

U.S. public opinion is, to say the least, indifferent to the United Nations. It is not particularly interested to the preparations under way for a debate on the future of Antarctica to the forthcoming General Assembly, nor in the prevailing optimism that the General Assembly will agree to a convention ontlawing torture. It is not concerned about the demise of the Sea Treaty. Nor is it On some of these votes America's Consean allies also opposed its following the discussions that slowly perambulate on whether UN forces in southern Lebanon could be strengthened or given a larger role.

The small part of public opinion interested in international financial affairs may be following what the International Monetary Fund is up to, but only a fraction of that part is

probably particularly conscious that it is a UN agency.

In Western Europe there is not much more enthusiasm, and less than had been the case. English news organizations such as The Guardian and the British Broadcasting Corp. used to employ full-time UN correspondents. They no longer do.

dents. They no longer do.

Perhaps the greatest single reason for disenchantment is the widespread belief that the United Nations has been hijacked by the Third World nations that form a majority. This view has been consistently put forth

by the Reagan administration.

Earlier this year the U.S. mission to the United Nations published a study that stated that not a single Third World country voted with the United States as much as half the time. The other nations of the Americas voted with the United States a mere 26.8 percent of the time, the African states 18.6 percent, and even the pro-American five-member Association of Southeast Asian Nations only 24.7 percent of the time. In contrast, Israel voted with the United

States 93.3 percent of the time and Britain 84.2 percent.

The mission also argued that on 10 key issues it was outvoted six times on two votes criticizing U.S. policies in South Africa, on two votes criticizing the U.S. invasion of Grenada, on one calling for a negotiated settle-ment in El Salvador and on one attacking U.S. policies to Israel.

UNITED NATIONS, New York
— During the Democratic primary campaign Walter Mondale
made one brief reference to the Unit-

challenge to Israeu credentials and in calling for an iovestigation into viola-tions of the UN chemical arms treaty. But this way of composing a bal-ance sheet is misleading. Many reso-lutions never come to a vote; they are adopted by consensus. While the consensus procedure is used for many politically insignificant actions, it can also underline the breadth of support European allies also opposed its stands: Resolutions condemning human rights abuses in El Salvador come to mind.

A study by the UN Secretarian came up with figures radically different from the American study. In 1983, 10 of 20 Security Council resolutions and 183 of 331 General Assembly actions were adopted without a negative note. In recent years, the percentage of times the United States voted with the majority, if the con-sensus votes are included, was 72.7 percent. If one sets aside votes on Israel and South Africa, the percent-

age jumps to 80 percent.

Most of the U.S. financial contribution to the United Nations is spent on humanitarian, social, cultural, economic and financial matters. On decisions that came to a vote in these ... areas, the United States voted with the majority more than 80 percent of

the time.

UN-bashing, or worse, UN-ignoring, may fit the popular mood, but it does not fit the facts and it is not a wise course. The UN peacekeeping role in Cyprus and the Middle East has at times been irreplaceable. The International Monetary Fund will play a more pivotal role in years ahead. The International Civil Avianon Organization recently passed unanimously a resolution expressly forbidding the shooting down of civilian aircraft, and the tens of other UN agencies will continue to set guidelines that will put brakes on member nations by raistog the threshold of what is considered ac-

ceptable behavior.

Taking the United Nations seriously is not easy. It is often its own worst enemy. But most of the time most of the work goes on to most of the members' satisfaction. Is this not The United States was supported an achievement worthy of note?

International Herald Tribute.

Polish Amnesty: A Blunt Call for Western Help

By Leopold Unger

This is the second of two articles,

B RUSSELS — "2001, a Polish Odyssey," is about the best way to describe the outlook for the reimbursement of Poland's foreign debt, which soon will reach \$30 billion.

Servicing so buge a debt costs the nation about \$3 billion per year and will consume between a third and a balf of the hard currency earned each year from foreign trade. The Poles most likely will enter the 21st century to debt,

impoverished, with a mortgage on the nation.
This explains wby, to addition to its domestic purposes, the recent amnesty of political prissage directed to the West.

Any solution to Poland's economic problems must pass through Western banks. So it was not surprising that General Wojciech Jaruzelski, in the aggressive Ione the Polish leader traditionally uses when addressing Westerners, would demand an end to the "infamous boycott of Poland" to the same breath that he announced the amnesty. The men in the Kremlin were the first really to understand this appeal.

Nikolai Tikhonov, the Soviet prime minister, bad the misfortune of being in Warsaw on July 22. the day after the amnesty was announced The Soviet press gave a long account of his visit without mentioning the amnesty. Mr. Tikhonov himself managed to address the Seim without once alluding to the measure. Soviet newspaper

readers had to wait 72 hours to hear of it. While it is true that no decision as important as an amnesty could have been made without Moscow's approval, the Soviet discretion on the matter is understandable.

Officially, there is no such thing as a political

prisoner in the Soviet Union. Persons incarcer-

ated for what are, to fact, political crimes, are unlikely ever to be amnessied. But any press mention of the Polish move could have sparked hope among Soviet dissidents.

The Kremlin was also distressed by the

names of the Poles who received the amnesty. These included members of KOR, the intellectual mentors of Solidarity, and the members of Soviet propaganda has always depicted as the principal elements of "imperialisi subversion within the socialist family."

Outside of those Poles labeled as Zionists, no political group has been assailed as violently by Moscow as KOR and Solidarity. Recently, a special television program on the "plot" fo-mented by KOR was telecast throughout the Soviet Union. (In Poland, where it was also shown, it elicited little more than amusement.)

The Novosti press agency bas just published a book by Vadim Trubnikov, "a researcher in philosopby and specialist in Polish affairs." Under the title of "The Failure of Operation Polonia," Mr. Trubnikov reveals the plot that the United States and KOR allegedly planned to destabilize Poland and the rest of the bloc.

If, despite all this political fiction, the Kremlin gave the green light to General Jaruzelski to free such detainees, its purpose can only have been to allow the Polish leader to get back into the West's good graces. Eastern Europe can do no more for Poland's economy. So Moscow mounted its own "Operation Polonia" to remove the country from its list of mendicants.

How did the West react?

The response the Polish leader boped for is not imminent. The sanctions imposed on Poland after martial law was imposed to Dec. 13, 1981, involved a refusal to reschedule Polish external debt and a rejection of further credit. The lifting of these sanctions was tied to three conditions: an end to martial law, release of political prisoners and the start of a dialogue with independent institutions.

Two of these conditions have been met, though in principle only, since some political prisoners remain in Polish jails. The third condition, for open dialogue with society, does not appear to be on General Jaruzelski's agenda. And there's the rub, for the real Western response to the amnesty will become visible only when Warsaw's totentions are clear.

The European Community's Council of Min-isters was unambiguous about this: In 14 lines, it expressed the bope that the amnesty "reflects the wish of the government to meet the aspira-tions of the Polish people for a dialogue and for reform" and "that it will be followed by nev measures destined to encourage a national

Such a European response makes sense. Washington was the first to take the sanctions seriously, but also the first to repeat that beyond the stick lay the carrot. Thus, just after the state of siege was lifted in July 1983, President Ronald Reagan renewed the right of Polish ships to fish in U.S. zones and gave Polish charter planes the right to land on U.S. soil.

Nevertheless, the major sanctions are still in force: a refusal to allow Poland to return to the

A tough day for Tikhonov.

ers. But Mr. Reagan is to no burry. Washington is waiting for a liberalization that is less ephemeral than what the amnesty represents.

International Herald Tribune.

Time for a Moratorium on Latin Debt Repayment

WASHINGTON — By now the Latin American debt story has become a predictable cliff-hanger. In the nick of time Argentina met its June 30 deadline for payment of \$350 million in back interest, but

the crisis is due to recur in the fall. Latin American countries owe about \$370 billion to banks in the United States, Western Europe and Japan. And their inability to keep current on interest payments, let alone installments of principal, is universally recognized.

For this appalling state of affairs the major money-center banks and economic advisers are largely responsible. In the 1970s, repeating the pattern of the 1920s, the bankers threw fiscal conservatism to the winds and engaged in an orgy of competitive lending. Loans were pressed on nations tectering on the brink of insolvency and at the mercy of world commodity prices. Academic quacks in the garb of "development economists" propounded the fatuous doctrine that debt can be pyramided iodefinitely.

As a result, the debtor nations are so buried under a mountain of debt that now they borrow just to pay interest. Developing countries that should be capital importers have been turned into net capital exporters to the tune of \$20 billion a year, As is usual in such cases, the victims of this multibillion-dollar scam are being treated as culprits.

The complacent bureaucrats of the

International Monetary Fund and

the financial institutions are

preaching "financial responsibility"

By Charles Maechling Jr.

grams were unnecessary luxuries. If debtors were actually to implement these prescriptions, the im-poverished Latin American masses would lose the wage indexation, welfare safety nets and food subsidies that they rely on to survive. Brazil, for example, has diverted

and "austerity measures" to Third to Mexico City, with 31 million. World governments as if social pro-In all debtor countries the crisis has passed the financial stage and is now political. President Raul Alfonsin of Argentina is not the first Latin American leader to tell the IMF that his people care not a rap about the international banking system and are concerned only with survival. He can hardly do other-

A debtor revolt is brewing and long overdue. Victims of a scam, debtors are treated as culprits.

acreage traditionally used for domestic food crops into tocreased cultivation of export crops - coffee, soy beans, sugar and cocoa. Half its export earnings are spent to service its debt while food prices soar and malnutrition spreads. In the last year riots over rises in food prices have broken out in Brazil, Argentina, the Dominican Republic and Chile. Brazil's ambassador to Washington recently charged that developing economies are suffering "a kind of re-emergence of the tithe system we knew so well when Brazil

was a Portuguese colony." Throughout Latin America the squalor and poverty of urban areas continue to increase al an unbelievable rate. The World Bank's annual development report, released two weeks ago, forecasts that São Paulo will have 26 million inhabitants by the end of the century - second

wise. The budget cutbacks so blithely urged by the IMF and the banks would end Argentina's price-indexation, which allows the worker to keep abreast of inflation. The first reductions would bring the Peronist unions into the streets, and that would be the end of Argentina's democratic revival. A debtor revolt is brewing and long overdue. It is time for the polit-

ical leaderships of major debtor na-tions to put their creditors on notice that they will no longer allow recessionary measures to be forced down their throats. At the next payment crisis, the debtor nation under pressure should demand that its debts be rescheduled, with repayment tostallments keyed to a fixed percentage of export earnings, payable only in years when the debtor nation has a favorable balance of payments. If creditors refuse to reschedule, the

debtor should proclaim a moratorium on repayment.

Such action would shake the banking community, but predic-tions of collapse are unnecessarily dire. The major banks would suffer a serious diminution in earnings — but it would be temporary. They should be preparing to meet that eventuality, rather than demanding that the victims of their errors pay for them with political suicide.

There is much to recommend in a moratorium. A debtor nation's economy would not necessarily be impaired; only government credit would be adversely affected. During and after World War II, private investment to Latin America soared even though Peruvian, Mexican and other government bonds remained in default for up to 30 years. Even these obligations eventually were settled, though not nt par or with back interest, and obviously with no adverse effect on the later credit standing of the borrower.

Lightened of the intolerable weight of their repayment burdens, the finances of debtor nations would at one stroke spring back toto balance. Currencies would stabilize and outside private invest-ment would flow in. Governments would be forced to put their budgets on a self-financing revenue basis. The banks would be taught a salutary lesson.

The writer, a senior fellow at the Carnegie Endowment for Interna-tional Peace, contributed this comment to the Las Angeles Times.

International Monetary Fund, a withholding of most-favored-nation trading status, and the rejection of all U.S. guaranteed credits.

This is what General Jaruzelski sought to change when be ordered the release of prison-

LETTER Civil Rights in Israel

Regarding "... And the Non-Debate on Civil Liberty" (July 19). Philippa Strum takes for granted that the institutions developed in the United States are the perfect model for all other countries. It follows that

adoption of a constitution.

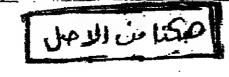

For historical reasons the Israeli legal system is largely patterned on that of the British, who never both-ered with a formal constitution yet have maintained a fairly good record on civil rights. Some of the Latin. American countries, on the other hand, have constitutions that read even better than the U.S. Constitu-tion — but this does not seem to

ber proposed solution to the alleged civil rights problems in Israel is the

guarantee individual rights. Similarly, Ms. Strum chastises the Israelis for not accepting her defini-tion of democracy. She ascribes the "unusual degree of freedom of speech and assembly" there not to Israeli culture and tradition but to the West European education of many of the old judges. (This took place mostly in prewar Germany, hardly a guarantee of sensitivity to civil rights.)

Moreover, ber selectivity as to whose rights should be protected reveals that her motives are political, rather than a concern for civil rights as such. She rejects the right of individuals to object to autopsies of their relatives. But she finds the unsuccessful attempt to prevent an openly pro-PLO group from running in the dec-tions "frightening."

Builder Plans World's Tallest Building in N.Y.

New York Times Service NEW YORK - A builder, Donald Trump, has said he hopes to construct the world's tallest building on a 26-acre underwater site that New York City plans to fill in along the East River in lower Manhattan.

The building, Mr. Trump said, would be 150 stories, or 1,940 feet (591 meters) high, and would bave offices, apartments and a hotel in its 5 million to 6 million square feet (465,000 to 557,000 square me-

ters) of space.
At 1,454 feet, the 110-story
Sears Tower in Chicago is now the world's tallest building. "New York City deserves to have the tallest and greatest building in the world, and I would be very interested in doing it," Mr. Trump said.

French must also be prepared for operations elsewhere, as in Chad,

with which France has close ties. As a prime example of the flexibility brought by the reorganiza-tion, French and other allied experts cite the army's creation of a rapid reaction force numbering 47,000 men.

A new unit in this force, the 4th Airmobile Division, appears designed to meet a tank attack along the German front. Helicopters are in be armed with the HOT antitank missiles, which are tube-launched and wire-guided. Infantry units will have the smaller Milan antitank

Western observers believe the 4th Division is designed for combat in Europe because helicopter divisions, while mobile in a limited area, are not easily transportable overseas. The 6th Light Armored Division, the second new division in the rapid reaction force, appears designed for transport by air or sea

10 distant points.

The force's three other divisions merican and West German divi- are the 11th Parachute, the Alpine

Besides the rapid reaction force, nose of the United States and Brit-in, are trained and equipped to regular divisions, six of them arlay dual roles, analysts point out.

In ord. The 2d Corps in West Germany has three armored divisions while the 1st Corps in eastern restern Europe by an army and an processing advanced weapons. The France has one airmobile and two armored divisions. Finally, the 3d Corps in northern France has one armored and one infantry division.

Although NATO commanders see the six French armored divisions as a plus on the Western side, there are some doubts about the effectiveness of the main French tank, the AMX-30, which in the view of some critics is becoming obsolete. The French and West Germans have agreed to work together on a new tank, but it is unlikely to be deployed until 1991 at the earliest.

The French Army is a conscript army, with most soldiers serving for a year, but the opinion among West German, British and U.S. experts is that the conscripts are enthusiastic and, in the limited time available, well trained.

Civilian students of military developments in the United States and Britain, bolh of which have nonconscript forces, continue to doubt the ability of a largely conscript service to absorb new and complex weapons. The French and West Germans answer that today's conscripts are far ahead of those of the past in technical education and hence much easier to train in the use of advanced weapons.

Workers cleared wreckage Tuesday where 13 died in the derailment of an Edinburgh-Glasgow express train.

13 Die, Scores Are Hurt as Train Hits Bull on Tracks in Scotland

EDINBURGH — Thirteen persons were killed and scores injured Monday when a crowded high-speed commuter train bound from Edinburgh to Glasgow struck a young bull and plowed into an embankment. It was Britain's worst rail disaster since 1967. Of about 100 injured in the accident near the village of Polmont, 44

were detained in the hospital overnight. Many had serious head injuries and broken bones. Railroad officials said a major catastrophe was averted when a second train, heading in the other direction from Glasgow to Edin-

burgh, was halted just in time. Officials said the leading coach of the Glasgow-bound express comersaulted and landed upside down on the embankment. In November 1967, a derailment in London killed 49 persons.

Soviet Union's Frustrations in Europe Cause U.S. Chill, Rand Report Claims

SANTA MONICA, California The Soviet Union is frustrated over its failure to achieve objectives in Europe and this frustration is a nartial cause of the chill in relations with the United States, according

to a report released Monday by the Rand Corp. The study alleged that the Soviet Umon was facing failure in its goal establishing a tightly knit East European bloc under their control and a weak Western Europe that would look to Moscow instead of

Washington for leadership. Prepared by John Van Oudenaren, an analyst for the U.S. Air Force, the report is part of a contiming Rand study of Soviet vul-nerability and opportunities in Eastern Europe and their implica-

Corp. is a research institute in San-ta Monica, California, that prepares studies for the Defense Department and other government

organizations.

Two recent but unrelated events underscore how far the Soviet Union is from realizing its longterm goals, the report said. One was the rise of the independent trade union Sobdarity in Poland that pointed up the weakness of Com-munist control. The other was the deployment of cruise and Pershing-2 missiles in Western Europe despite strident Soviet opposition.

Plan for Ruins of Spanish Civil War **Provokes Anger From Rightists**

BELCHITE, Spain - Jagged walls of bombarded bouses and bare shells of churches jut out of the stark Aragon countryside as a

macabre reminder of the Spanish They were left as they stood in 1939 at the end of the three-year war as a monument to the men who 13-day siege in 1937. A new town

was built nearby. But now the townspeople of Belchite find themselves living next door to decaying, depressing and

dangerous ruins. Their problem is compounded by a tangle of hureaucracy, the claims of conservationists and the conflict between those who want to obliterate the memory of the Civil War and those who cannot forget

"If we don't do something soon, someone is going to get killed in there. The place is dangerous," Belchite's mayor, Domingo Serrano, said in an interview.

The mayor and the eight councillors have come up with a plan to preserve the most interesting sec-tions of the old town and buildoze

Mayor Serrano said the only parts of the town, which once had 4,000 inhabitants, worth keeping were the facades of the main street and several large buildings, including three churches. He said he wanted to turn the remaining area into a park: "It seemed the sensible

and obvious solution." But he acknowledges that he failed to reckon with the fury of Spanish rightists and the pressure of conservationists.

Belchite has special significance for the rightists, and it was declared national monument by Franco after the Civil War.

It was Franco's men who held the town, set on a bluff at a crossroads gnarding entry from the southeast into the Ehro Valley and the city of Zaragoza, against a superior force of about 24,000 soldiers of the Republican side.

They held out virtually to the last man, and Belchite entered the history books as a name synonymous with heroism.

Thousands were killed -historians have never agreed on the exact number - in fighting that raged from bouse to bouse before the Republicans finally overwhelmed the town.

A guide shows visitors around today, pointing to features that bring the battle vividly to life, A plaque stands over a common

his intentions.

"Belehite has crumbled away

town," he said. Meanwhile, he is being frustrated on Thother front.

Two local architects have applied to the government in have Belchite declared a historic artistie monument, and while the application is under consideration not a stone can be moved. The architects said they wanted to preserve Belchite because, although damaged, it provides an unique example of prewar town layout with notable Araonese and Mudejar, or Spanish

Moslem, architectural features. "The problem is that no one could ever pay for such a scheme, it would be far 100 costly." Mayor Serrano said. "Meanwhile. Belehite "Belehite has crumbled away is just rotting away and we are not over the years and is now in a lar able to do anything about it."

Spanish Town's Goose Is Cooked

The Associated Press

MADRID — The governor of Toledo province has provi-sionally fined a town 500,000 pesetas (\$3,000) for defying an ediet that forbids the ceremonial beheading of geese during the town's annual fiesta.

Governor Pedro Valdecantos Garcia told José Luis Mora, mayor of El Carpio de Tajo, on Monday that he had 10 days to explain why officials in the town had ignered the prohibition. Otherwise the town must pay the fine.

A gubernatorial assistant said that "international and national protests" had moved the governor to ban the goose beheading, which took place on July 25.

In the ceremony, men on horseback race across an open square where geese are tied. The riders attempt to swoop down and tear off the geese's heads.

Algerian Plan Seems to Confirm Shift To Less Doctrinaire Economic Policy

By Nicholas Kristof

Washington Post Sersice ALGIERS - Algeria's latest conomic hlueprints and a new cahinet led by a U.S.-educated prime minister appear to be con-solidating this country's movement from socialism toward more private enterprise and a warmer relationship with Western Europe and the United States.

The draft five-year plan for 1985-1989, which the Council of Ministers approved July 2 aims to boost private farming, water supplies, housing and light industry instead of the state-run heavy industry that dominated the economy under President Houari Bouedienne, who died at the end of

Boumédienne's successor, President Chadli Bendjedid, who was reelected to another five-year term in January in a national plebiscite with no opposition, selected a cabinet that confirms the transforma-

The new prime minister is Abdelhamid Brahimi, 48, who earned a doctorate in planning and financial management in the United States and for several years beaded the Algerian petroleum company's office in Washington.

It arrived in a purting on their uniforms than making themselves especially ele-

at the last minute.

case of the jitters in the Valhalla of opera. For despite the passionate, culush loyalty of the Bayreuth reg-ulars, the festival is having trouble getting its main act together.

Last season, a new and unabashedly old-fashioned "Ring" opened under Sir Peter's direction, conducted by Sir Georg Solti, It was savaged by the critics, who, in West Germany at least, had reconciled themselves over the previous seven years to a controversial "French" version by Patrice Chereau. In his staging, the "Ring" was a metaphor for the corruption of capitalism. Schneider "Ring" doesn't stir a With the Rhinemaidens cast as controversy this year, a newly prosututes, the action was set in the opened exhibit on "Wagner and the 19th and 20th centuries and social class delineated the characters. It also relates that a discal flaws. Indeed, revisions of the staging went on right up to the final night's "Götterdämmerung." After a protracted search, Sir Georg was replaced by Peter Schneider, a Vienna-born conduc-

tor who is musical director of the city of Bremen. "One cannot compare the last year of Chéreau with the first year of Hall," argued the soft-spoken Schneider, 45, who said he had concentrated his efforts on "intensifying" the musical per-

Sir Peter praised his new conductor for spreading "serenity" among the cast and contended too that his "Ring" — widely seen as "ro-mantic" as well as traditional was entitled to a bit more indulgence. "This was a rough sketch."
he said of last year's production,
"which is what everybody has been
doing since 1876."

The British director found solace in the stormy receptions of previ-ous Bayreuth "Rings" in their naiden seasons. By tradition, a "Ring" production has a long run in Bayreuth. "It's like a new inter-pretation of religion, the first time," he said. "It's heretical at the beginning and gradually it becomes orthodoxy. That is really the paral-lel: it is religious."

The undisputed high priest of the Wagner cult is Wolfgang Wagner, the composer's 65-year-old grandson, who runs the festival in the manner of an enlightened despot, An energetic and informal man, who is known around Bayreuth as "Wolfgang" and can speak the lo-cal Frankish dialect. Wagner ob-served that even his grandfather was "completely unsatisfied" with

the one "Ring" he put on here.

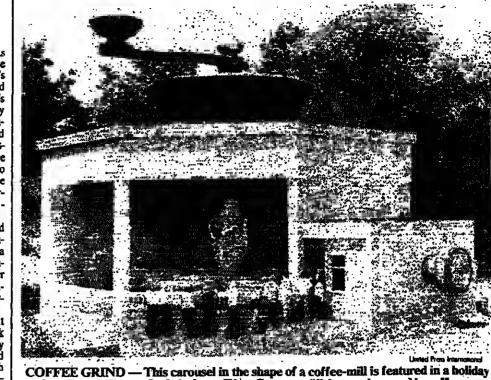

The grandson took an open and democratic view of the Hall "Ring." "We will see this year and the next if it works," said Wagner.
"This will have to be decided by the press and the public. We don't beieve in a perfect, finished article like Persil or Coca-Cola. We say we are open to discussion, and the public must confront it. Nowhere else does this happen." If the refurbished Hall-

Jews" at Wahnfried, the composer's stately residence, will make up

'Wild Honey,'a Sweet Bit of Reconstructed Chekhov

By Sheridan Morley ional Rerald Tribuni

I ONDON — The only thing better than an old Chekhov play is a new Chekhov play, and that is essentially what we have on the National's Lyttelton stage. Michael Frayn has taken the untitled manuscript found in a bank vault to years after Chekhov's death in 1904, called it "Wild Honey" and whittled it into a new shape.

The play is not unknown; Rex Harrison did it at the Royal Court 20 years ago as "Platonov" and it

THE LONDON STAGE

has turned up elsewhere as "Don Juan in the Russian Manner." But the advantage of whittling a sevenhour play down to two-and-a-half hours is that you can find in it most of whatever you happen to be looking for, and Frayn was clearly looking for two things: a manic farce in the best traditions of his own Noises Off' and since this was a first play, some kind of guidelines

to the later Chekhov.

Happily, the seedlings for the "Cherry Orchard" are all here: the lovelorn country doctor, the loss of the estate to the new bourgeoisie, the manie student, the merchant bully and the drunken schoolmas- nel who could have been a general ter all point the way through the trees to the long hot summer party that somebody will one day start in call Chekhovian.

But that day is not yet, and what we get in the meantime are all the suicide by way of divorce, desertion signs of a young playwright trying and firework displays, "Wild Honout various comic sexual entangle-ments to see which ones are likely to stay the course. True, there are times when Frayn seems in his adaptation to be parodying Chekhov Barrymore, rather than simply translating him: ines like "Silence — somewhere a

fool is being born" and "Sometimes I miss her after lunch — so it's love" suggest an Oxbridge arts revue circa 1960 rather than the show and put into the Old Vic for a To the King's Head has come as summer season en route to Man-chester, the West End and then presumably New York. Curiously enough, Wilson himself, who deeply objected to the Ken Russell movie of "The Boy Friend," has left his name as production supervisor on a treatment that seems to make a similar mistakes in expanding velously comic turn in that chaotic small show to a point dangerously role of the schoolmaster forever falling over his broken promises, it revival, Christopher Hewett, seems to have at least one eye on the current Broadway success of "My One and Only" in particular and tap-dance nostalgia in general: ac-cordingly there is a sextet of extras draped across the back of Robin Don's cavernous sets, massed-bane orchestrations and an awful lot of

> Somebody seems to have forgotten that this was once a little tiny show whose entire score fitted neatly onto two sides of a 10-inch 'LP: done huge, it has lost much of its subtlety, so that it looks like a minor musical from the 1920s instead of a pointed satire from the 1950s, I'd never realized before that the plot is actually Terence Rattigan's "French Without Tears" in drag rather than anything closer to "The Girl Friend" or the Astaire/Gershwin stage shows of the time, nor had I ever realized quite how little happens in the last 40 minutes.

A staging of this extravagance makes that more obvious, and there's a lot of unnecessary camp going on, though Anna Quayle's Madarne Dubonnet, stationed halfway from Sarah Bernhardt to Bea
Lillie, is a constant delight, as is the
discovery of Linda-Mae Brewer,

To the King's Head has come a musical version of "The Towering Inferno" — not, as you might expect, forming the climax to a Mel Brooks sequel to "Springtime for Hitler," but rather as the climax to "Six for Gold." Written by Warner. Brown (who did "The Biograph Girl" a couple of seasons ago) and composed by Michael Reed, this is an ambitious sequence of six inter-linked 40-minute musicals performed in sets of three at alternate performances and concerned with vandeville nostalgia and the power

The first three shows are set n England and built around music halls, waxwork displays and the modern theater; the second set is American-based and deals with a potential pope from Milwauker who once lived with an aquacad queen (that's all in one show), the opening of the Chrysler building in 1930 and a skyscraper fire in Manhattan 1984. As thet might as adventurous, and it is blessed and Rosemary Leach in a sextet of considerable traces. siderable versatility. But the score is not strong,

choreography is halting and I let-the second set wishing they'd set-tled for just one of the plots and include property. built that into a full-scale musical With every second mainstream London theater now given over to apply lap-dance festival, the time is included ripe for a cool look at the nostalgia business: but in all the feverish activity of "Six for Gold at A10 (directed with agility by Tony Crall A10

INSIGHTS

The Two Germanys' 20-Year 'Traffic in Human Beings'

By James M. Markham

New York Times Service

ONN — Two decades ago, Erich Mende is literally the selling of East Germans to West Germany. He wanted it kept secret. At the time, he went around to the offices of est Germany's main magazines, newspapers and television stations to explain the delicate ature of the transactions and to ask them to

"We had the hope then to get a few thousand" sisoners, said Mr. Mende, who was then depuchancellor and minister for German relations. but only if it remained secret. A clause in our nt with East Berlin said that any publicwould mean the end of it."

Mr. Mende's entreaties were effective. Even hen one of the liberated political prisoners oke an oath of silence and tried to sell his ory to West German publications, he was huffed by the editors.

The methods of winning the liberation of obtical prisoners in East Germany have been more sophisticated since 1963, when Ludig Rehlinger, a Bonn official, nervously deliv-ed an envelope containing 180,000 Deutsche arks in a Berlin subway as the down payment the first consignment of eight inmates. The coess is now a hig, institutionalized business r East Germany, and West German payments raw materials, like oil and copper, are said to taken inm account in the Communists five-

press shrink from debating the ethical and even strategic implications of what is going on. What

Now retired and working on his memoirs, Mr. Mende, 67, is a lonely voice in Bonn denouncing what he calls "a traffie in human beings that is very close to a slave trade."

He notes that when the business started, at the instigation of a cash-bungry East Germany. Bonn and East Berlin had no diplomatic relations, making extraordinary procedures under-

UT, he says, since the 1972 treaty normalizing ties between the two Germanys, the under-the-table commerce has become repugnant and politically questionable.
"We are removing so-called oppositional elements and normalizing the coercive Communist state," he said. "We are sterilizing resistance to

"Honecker will come in September," he said of the planned autumn visit by Erich Honecker, the East German Communist Party chief, "and be bonored as a head of state, and behind him will come the man with the suitcases to pick up the cash."

The solid West German consensus behind the transactions has been cemented by the involvement of the major parties. The policy was started by the Christian Democrats, resumed by the ar plans.

But there is still little publicity. With occamulate exceptions that do little more than con-

firm the rule. West German politicians and the crats. There are, as well, powerful humanitarian arguments in its lavor.

> "We know that this is trafficking in human beings, but we support any reasonable way to get people free," said Uta Giersch, who spent n years in an East German prison and now heads the West German organization of former prisoners. "We are blackmailed on humanitarian grounds. It's macabre."

> In the 1960s the political prisoners released from East German jails were mainly venerable Christian Democrats and Social Democrats who bad resisted the imposition of communism in the Soviet Zone of Germany at the end of the war. Today, according to a knowledgeable official, about 70 percent are East Germans who have been convicted of trying to flee the country. Most are in their 20s or 30s.

Since the 1960s, about 22,000 political prisoners have been liberated, according to various sources, but their exact cost is a matter of some mystery. In a book on the subject, Micbel Meyer, a French journalist, reckoned that by 1976 Bonn had paid 761 million Deutsche marks for about 11,000 prisoners; at stable prices, this would mean 1.5 hillion marks, or \$54 million at the current rate of exchange, for the 22,000.

The buman trade, though, extends well be-yond political prisoners. For years the West German government has also paid considerable sums to the East Germans to expedite so-called family remifications, a generously interpreted rubric that has brought 293,000 people to West Germany since the construction of the Berlin

This year alone more than 25,000 East Germans have been allowed out. By all accounts, this commerce has been subject to enormous

The Springer newspaper chain, which has benefited from systematic leaks on the drama of East German asylum-seekers, reported that Bonn paid \$1.8 million in July to win the freedom of 55 East Germans who had taken refuge in the West German Mission in East Berlin. It cited the figure of \$180,000 for the liberation of the niece of East Germany's prime minister Willi Stoph, after she and her family had holed up in the West German Embassy in Prague last

7 OLFGANG Vogel, a cosmopolitan East Berlin lawyer who has negotiated virtually all the exchanges, has justified the trade on the ground that West Germany must compensate East Germany for the "dampolitical prisoners have inflicted on its "socialist order." In the case of legally approved emigrants, the East German government con-tends it must be compensated for the cost of the departing citizens' educations.

ments of unease. Klaus Boelling, a former West German envoy to East Berlin, recounted that hard-liners in the East German government managed in 1973 to halt the traffic in political prisoners, maintaining it was giving commu-nism a bad name. A meeting in May 1973 between Mr. Honecker and Herbert Wehner, a

These elegant arguments cannot mask mo-

hush dealings with secret slush funds were highlighted this year when Egon Franke, a former Social Democratic minister for German relations, and his top aide. Edgar Hirt, were indicted for being unable to account for \$2 million in ministry funds.

There is no suggestion in the indictment for "breach of trust" that Mr. Franke pocketed the money. But the case disclosed sloppy bookkeeping and highly dubious expenditures, such as a \$3,000 festivity for Mr. Vogel, the East Berlin lawyer, and \$20,000 for renovating the offices of his West Berlin counterpart, who was also indicted. In the ministry budget, the renovations were listed as "humanitarian efforts."

Even so, like the larger traffie in human beings, the Franke scandal has become a nonsubject for the West German press. So, too, has Romania's entry into the human trade. Since a 1978 visit to Bucharest by Chancellor Helmut Schmidt, the financially weak Romanian gov-ernment has been doing a hrisk business selling thnic Germans to Bonn - for cash.

Many of the East German beneficiaries of Bonn's largesse are alive to the moral ambiguities of their situation, particularly since in re-cent months the East German churches have launched appeals to their flocks to remain and make a better country.

"We know it's not right," said Gisela Helling, senior Social Democratic figure, succeeded in reopening the tap, according to Mr. Boelling. who spent 19 months in an East German jail in a cell not far from her husband's before both their should have stayed."

Erich Mende

freedom was bought. "But we think that the good that was done for us should be done for others. Our view was always that we were not

Government Tries to Help Lonely Hearts of China

By Christopher S. Wren

New York Times Service

EIJING — "Twenty-eight-year-old min-er, good-looking, bealthy, interested in literature and calligraphy, earning \$44 a month, no family hurdens, seeks kindhearted, healthy unmarried woman of similar looks and age. Please send recent photograph."

The notice, placed by Chen Xin, a miner in Henan province, was just one of 10 advertisenewspaper China Youth, Such advertisements cost more than a week's wages for the average Chinese worker, but it is not too much for a lonely man with few other prospects of finding a

Before Mao died in 1976, young Chinese were urged to devote their energies to the nation and the Communist Party. They were supposed to marry late and to demand a good ideological attitude in choosing a spouse. But with such Maoist attitudes behind them, more young people are worrying about getting married. A quiet desperation has seized some older ones who lost their prime years toiling on farms during the Cultural Revolution of 1966 to 1976.

Their plight has been recognized by the Chinese leadership, including the party's general secretary, Hn Yaobang, and the senior economic planner, Chen Yun, who called the number of single people over 30 "not an insignificant social problem" for China. They urged the party, the National Women's Federation and the state-run trade unions to become involved - that is, to start matchmaking.

The task is formidable, Beijing bas 100,000 single people 30 to 40 years old. Shanghai has 127,000. The situation is worse in rural areas, as a letter to the newspaper China Daily suggested

Zhou Mingnan wrote from Nanchang in Jangxi province about the despair of a school-mate, now 32, who was sent from Shanghai to rural Jiangxi in the Cultural Revolution and who is still teaching school there 14 years later. "In such a small place," Miss Zhou wrote, "it

is not easy for her to look for a suitable partner. So it is a serious problem, not only in big cities. but also in small towns and the countryside. I want to make an appeal on behalf of those over 30 to the social organizations concerned: Show great concern for them and help them."

In old China, marriages were usually arranged by parents, until the Communist government prohibited such interference. The custom bas not entirely changed. A survey of 462 couples in the industrial city of Tianjin last year found that more than 80 percent were introduced through friends or colleagues and 10 percent were handled by parents. Fewer than 9 percent found their own spouses.

Despite some liberalization in recent years. China is still a straitlaced society in which young people find it bard to meet and socialize easily with the opposite sex. There are no bars or other hangouts where single people can go in the evening. Privacy is rare. Because of the housing shortage, most young Chinese live with their parents or in communal dormitories at their jobs. Yet being married remains the socially acceptable status.

In June, several thousand young people were myited to a mixer at the Palace of Culture in Beijing. Some tried dancing with each other at arm's length. More sat on the sidelines and watched the staid fox trot, which was considered immoral when they were growing up. Retired workers designated as chaperons hustled about trying to break the ice with movies, games and a

calligraphy contest. from the Beijing Computer Co. Afterward, 140 couples agreed to see each other again.

Marriage introduction bureaus run by the Communist Youth League and the women's federation are also husy, although many Chinese are too shy to use them except as a last resort. Even then they tend to arrive accompanied by relatives or friends.

Beijing's first and largest marriage bureau opened four years ago in the Chaoyang district.

About 900 of the 11,000 applicants have reported getting married. The bureau director. Xu Jiashe, said: "Some people don't like others to know how they got married, so they don't tell

Mr. Xu said the majority of applicants were about 30 years old, although "quite a few people" were in their 40s and one man was 72. The applicants pay two yuan (about 87 cents)

and fill out a four-page questionnaire with de-tails such as age, class background, education, occupation and family. A smaller card, with photograph attached, lists the qualines they want in a mate. If they have not found someone after three introductions, they must enroll again. The bureau arranges tea parties, excursions and other get-togethers to make the blind dates less painful.

"People come here to find partners because they feel it is difficult to find someone in soci-Mr. Xu said. "But frankly, some of them set their sights too high. If it is difficult out in society with their high standards, it will be

who were talented and educated and that men sought women who were younger and attractive. A 31-year-old woman who came to the hureau, a metallurgical worker, asked for a husband who was "morally decent, above average

in looks, with an education and unpretentious

manner, to be a good friend and teacher to me." An earlier survey of unmarried workers of preferably a nonsmoker. Miss Han offered to both sexes at a lathe factory in Nanjing found that 90 percent wanted spouses without sexual experience, suggesting the importance that Chiments for a spouse in a recent issue of the na still attaches to premarital chastity. But a good ideological attitude, the supreme gift under Mao, seldom is requested anymore.

schoolteacher in Inner Mongolia, who said her 25-year-old cousin, a factory worker, was seeking a "well-huilt, good-mannered, independentminded, bard-working" man no older than 30, pass on letters and photographs from prospective suitors.

An overemphasis on late marriage has contributed to the problem. The marriage law published in 1980 has now set the minimum marer Mao, seldom is requested anymore.

riage age at 22 for men and 20 for women,

Some single people, reluctant to expose them-

betweens. The advertisements in China Youth late childbirth should be encouraged" as a way included one taken out by Han Chunxia, a to restrain China's population growth.

Men in menial occupations, such as street cleaners, have the hardest time finding a spouse, according to periodic articles in the Chinese press. But better educated older women, who were among those trapped by the Cultural Revolution, also encounter difficulty.

Zhao Jianmin, a 30-year-old computer company worker, told a China Daily reporter that "I have everything prepared for marriage except a girl friend." But Mr. Zhao said he turned down two suggested partners, both 28, because they

Donovan Case: A Maze of Investigations

By Robert E. Kessler

UNTINGTON, New York - Federal law enforcement agents are looking into a private "counterinvestigation" of federal officials and news reporters who investigated the U.S. secretary of labor, Raymond J.Don-

The counterinvestigation was initiated two years ago by Mr. Donovan's former company. the Schiavone Construction Co. of Secaucus, New Jersey, and used at least 10 private detectives, most of them former FBI agents. The current investigation by the Fed

reau of Investigation and the federal Organized Crime Strike Force in Brooklyn, New York, was triggered by a political science graduate student at the University of Oklahoma who was working on his doctoral dissertation.

As part of his research, the student, Frank Smist Jr., was given material that had been compiled in the counterinvestigation by a private detective hired by the Schiavone company. The material, including handwritten memo-randums, reports and correspondence, was

passed along with the company's approval in So much material was compiled in the private detective's counterinvestigation of officials and reporters who

had investigated the labor secretary that it took 26 hours for the graduate student to photocopy all of it.

the hope that Mr. Smist would write about what company officials considered to be harassment of Mr. Donovan by federal investigators and

There was so much material that it took him 26 hours to photocopy, Mr. Smist, a Republican and supporter of President Ronald Reagan, said during an interview at his apartment in Nor-man Oklahoma, where he is now living. But Mr. Smist said he became more con-

cerned by the tactics being used by some of the Last month. 1.200 single people over 30 were counterinvestigators than by those used by the invited to gather at the Temple of Heaven Park in Beijing and dance to an amateur orchestra the records and interviewing some of the counterinvestigators of Mr. Donovan. After reviewing in Beijing and dance to an amateur orchestra terinvestigators, he turned the material over to the strike force, the FBI and several news organizations, including Newsday.
Ronald Schiavone, head of the construction

company, said he paid for the inquiry into Mr. Donovan's investigators. He denied that there had been any wrongdoing or that Mr. Donovan had played a role in the counterinvestigation.

WO years after a special federal prosecutor completed his investigation of Mr. Donovan, some of the issues in the case remain unresolved.

The special prosecutor, Leon Silverman, and a grand jury in Brooklyn investigated allegations that Mr. Donovan had links to organized crime. But Mr. Silverman concluded in two separate reports, in June and in September of 1982, that there was "insufficient credible evidence to prosecute" Mr. Donovan.

Two witnesses in the nriginal Donovan investigation were killed, but federal authorities have never conclusively established whether their murders were related to the Donovan case. One of the issues in the current inquiry is whether a leaked confidential FBI report naming one of the witnesses played any part in his subsequent

Laura Brevetti, a prosecutor with the federal strike force, confirmed that she had "received the material from Mr. Smist and am looking into it." She declined further comment. A spokesman for the FBI in Washington, Lane Bonner, said that the bureau would have

He said that women tended to ask for men no comment. Several of those familiar with the

situation said that they had been questioned by the FBI.

of the material turned over by Mr. Smist, according to sources familiar with the case, are the following: • Whether there were illegal leaks of informa-

tion from the staff of the special prosecutor, who was bringing witnesses before the Brooklyn

• Whether the staff of the Senate Labor Committee, which was also investigating allegations that Mr. Donovan had underworld ties, was

• Whether an illegally recorded tape or material transcribed from the tape was used at a White House meeting, at which Mr. Reagan was present, to discredit a Senate Part 1999. present, to discredit a Senate Republican staff ember heading the committee's investigation

of Mr. Donovan. Mr. Schiavone, the head of Mr. Donovan's old company, said that he paid for the counter-Mr. Donovan and the Schiavone company to

I'm concerned about myself, my family . . . in addition to Mr. Donovan. I'm tired of being a whipping boy." Mr. Schiavone said in explaining his motivation in initiating the counterinvestigation. "A citizen has a right in investigate...

within the bounds of legality."

Mr. Schiavone denied that anything illegal was done during the investigation he sponsored. Mr. Smist "saw ghosis where there were none, Mr. Schiavone said.

HEODORE Geiser of Newark, the Schiavone lawyer who oversaw the coun-Schiavone lawyer who oversaw the counterinvestigation, said "there must be a shortage of crime in Brooklyn" for the strike force to be bothering with the Smist material. Mr. Geiser said that it was unusual but not improper to investigate the investigators.

He acknowledged that, several weeks before the murder of the grand jury witness, he had received from a Schiavone investigator the confidential portion of an FBI report identifying

The witness was Frederick Furino, a former New Jersey Teamster Union official who had been identified by an FBI informant as a "bagman" carrying payoffs between Mr. Donovan and another Teamster official in the 1960s. Mr. Furino denied the allegation, according to the

confidential material.

But be then flunked an FBI lie detector test when he repeated his denial. A month later, in

June 1982, his body was found in the trunk of his car on a Manhattan street. There was a single bullet wound in his head. Investigators have never solved the crime or determined why Mr. Furino was killed.

Raymond Donovan

In the death of the second witness, two persons have been convicted and the Bronx district Among the subjects being studied as a result attorney's office has maintained that the shooting was linked to the investigation of Mr. Dono-van. But federal sources say that they do not think a link has been proved.

The witness, Nathan Masselli, was shot in the head Aug. 25, 1982, while seated in his car in the Bronx. Mr. Masselli had agreed to cooperate with the special prosecutor in tape-recording several phone calls with a Schiavone official.

Mr. Geiser said that Mr. Furino's alleged relationship with Mr. Donovan had been reported previously in the press and that any

tained by a former General Accounting Office auditor hired as an investigator for Schiavone. It was given to him hy Tony Capaccio, a reporter. for Jack Anderson, the syndicated columnist. Mr. Capaccio said that be gave the uncensored investigation in 1982 to uncover and stop the source of what be said were smear stories linking in the bope that Mr. Sharer would belp him get information for future stories. Mr. Capaccio

> A bugging device was reportedly left in the office of the Senate Labor Committee several times to tape-record conversations illegally. In some of the conversations a Senate staff member was said to have leaked information damaging to Donovan.

declined comment on how he had obtained the

Mr. Smist said that Mr. Sharer had also told him on several occasions that he used a hugging device left in the Senate Labor Committee office to illegally tape-record conversations. In several of the conversations, a member of the staff of Senator Orrin Hatch, a Utah Republican who is on the Labor Committee, leaked information damaging to Mr. Donovan to newspaper report-ers, Mr. Smist said.

Robert Flynn, an attorney for Mr. Schiavone. said that he had instructed Mr. Sharer that it was legal in the District of Columbia to conceal a tape recorder on his body and tape conversations. Mr. Flynn said that, as far as be knew, that was the only taping Mr. Sharer did, Mr. Sharer could not be reached for comment. His attorney. John Hooker, said that Mr. Sharer had done nothing illegal.

Some of the taped material Mr. Sharer re-corded was used by Mr. Donovan at a White House confrontation with Mr. Hatch at which Mr. Reagan was present, Mr. Smist said that Mr. Sharer had told him. Spokesmen for Mr. Hatch and Mr. Donovan said the two denied ever attending meetings at which such taped material was used. Mr. Donovan also declined to comment on the material Mr. Smist obtained. Bill Hart, a spokesman for the White House, said that it also would have no comment.

The Schiavone records that Mr. Smist obtained also contain notations of attempts by Schiavone's private detectives to contact the special prosecutor's main investigator; statements that sources at the FBI in Washington and New York were talking with Mr. Schia-vone's private detectives about the Donovan investigation; and a warning from one Schiavone investigator that some of his colleagues were in danger of breaking the law.

Robert Shortley, the main private detective hired by Mr. Schiavone, denied that be or any-one he had hired commutted illegal acts. Mr. Shortley said that many of the notes Mr. Smist received were open to misinterpretation since they were in his handwriting and undated. Mr. Sbortley said that he himself had had difficulty in deciphering their contents two years later.

Labor Party.

business and religious leaders have been en-couraging the leaders of the three parties, all of whom are pro-Western centrists, to join in a coalition against Sir Eric's Grenada United

But the three parties are at loggerheads over how many candidates from each party would be put forward on a joint slate for the 15 seats that make up the Parliament. No date has been set for the elections, but officials have said they will be held this year.

Many Grenadians say they wish the elections would be delayed. They are still dazed, they say, from the violence last fall that brought the People's Revolutionary Government of Prime Minister Maurice Bishop to an end and from the invasion by the United States that followed.

"Many of us feel we don't want elections da in December. now," said Marva Gweneth Evans, a senior civil servant in the Ministry of Trade. "It's too soon. It's as if we just had a molar tooth removed. The pain is still there.

Ouo George, who served as the highestranking civil servant in the Ministry of Health for a decade, said: "We've had such

bad experiences with politicians."

Mrs. Evans added: "Most of us would rather see the interim government in place for another five years."

Loren E. Lawrence, the senior U.S. diplomat in Grenada, is among those who think elections should be held as soon as possible. "My guess," he said, "is that very little of the private American investment money that we hope to see come bere will actually come here until there's an elected government."

WO former members of the lefust follow his instructions. government say they are considering "I am the senior political statesman in the fielding candidates for the election." Sir Eric said. "Nobody else has my But they are regarded as having little chance experience.

States was not supporting any candidate. But he said: "We would like to see a fairly elected, honest, democratic form of government. Otherwise, democratic form of government. erwise, I suspect Congress would pull us out

ship to almost civil war" because the leftists "will try to remove him again." Mr. Pierre spent more than two years in jail during Mr.

Sir Erie said the interim government was

Bishop. Many Grenadians say Sir Eric be-came wealthy during his years in power and maintained control with a group of strongarm men known as the Mongoose Gang. He lived in exile in the United States until early

Sir Eric Gairy reads papers at his headquarters in St. George's.

Party Fights in Grenada

Sir Erie said in a recent interview that be would pursue a policy of Western-style democracy. But many Grenadians see both him and the recent leftist government as extrem-

Sir Eric said he hoped that the United States and Britain would establish military bases on Grenada and that the new airport being completed here would be named Ronald Reagan International Airport.

Grenadians say that the moderate parties are not as well organized as Sir Eric's party and none have as unshakable a following. They estimate that Sir Eric, who was knighted in 1977, might get as much as 25 percent of the vote and that none of the others running

alooe could equal that. S INCE early this year, Herbert Blaize, a lawyer who has run against Sir Eric since the 1950s and has also been prime

minister, has been trying to form a coalition of the main moderate parties.

He has won the allegiance of Francis Alexis, leader of the Grenada Democratic Movement. Mr. Alexis lived abroad for more than 10 years and served as a deputy law school dean in Barbados before returning to Grena-

But Mr. Blaize and Mr. Alexis have been unable to reach a compromise with the other leading moderate party, the National Democratic Party led by George I. Brizan, a teacher in Grenadian public schools.

The three moderate leaders agree that Mr.

Blaize would be their choice as prime minister. "The basic stumbling block is the sharing of the sears among the three parties," said Mr. Brizan. While the moderates have been trying to reach a compromise. Sir Erie has been selecting candidates to present to the voters. Un-

like the other party leaders. Sir Erie says he does not intend to try for election himself. But he says that if his party wins, as he expects, he, as president of the party, will determine who is named prime minister. Furthermore, he expects the prime minister to

Sir Eric does not make clear why be is oot At a meeting of a women's group here personally trying for office. But he said that recently, Mr. Lawrence said the United after winning, it was likely that one of his Grenadians say that Sir Eric would be assured of winning the seat and then could

Gross Sets Second Swimming Mark

DS ANGELES - With his secon world-record performance of thiSummer Olympics, West Germn swimmer Michael Gross beare the first double gold medal winer of the Games late Monday bi he lost a chance for a third gold wen the United States won the 4x 00-meter freestyle relay by a tiction of a second.

U.S. anchorman Bruce Hayes hld off Gross by four-hundredths s a second to win the relay in a orld-record time of 7 minutes. 5.69 seconds. Even so, Gross's slit was 1:46.89; his world record or the distance, set Sunday, is

In the second day of competion, the United States continued s overall medals lead with three olds on Monday and nine overall. 1 addition to swimming, Amerians won medals in shooting and oked strong in women's basketall, cycling, boxing and gymnas-cs — although U.S. coaches comlained that the women's nastics team should have reeived higher scores.

But swimming remained in the potlight, and Gross clearly reusined the star. On Sunday night, ne 6-foot-7-inch (2.00-meter) West terman won the 200-meter freevie in world-record time. On fonday night had won the 100neter butterfly, a race he dislikes, 1:53.08, catching American Pablo forales in the final meters to lower forales's world record of 53.38. forales, with a silver-medal clockig of 53.23, also was under his revious mark. Glenn Buchanan of

ustralia took the bronze in 53.85. Two hours after the hutterfly fial, the 19-year-old Gross anit and led by a foot and a half

GETTING UP FOR IT — Weightlifters have various ways (including grunts, scowls and stares) of preparing themselves for competition, but Takashi Ichiba prefers the back flip. The Japanese lifter, 23, did one before all but one of his six lifts in the snatch and the clean and jerk in Monday's Olympic final in the 123-pound/56-kilogram class. Ichiba finished fourth, with a total of 551 pounds, but his flips earned him gold-medal applause.

N.Y. Shares Post Modest Gain

NEW YORK - Prices oo the New York Stock Exchange registered modest gains Tues-

along with other oil companies as crude prices continued to fall in the international arena.

The Dow Jones industrial average, which shed 4.64 Monday, rebounded 5.30 to 1,115.28. The Dow, which has risen 28.71 points since hitting a 17-month low last week, lost 17.12 for July overall.

Advances led declines 842-659. Volume rose to 86.9 million shares from the 72.3 million traded Monday. Stocks and boods jumped at the outset on

news the government's index of leading eco-nomic indicators fell 0.9 percent in June following a revised 0.4 percent increase the month before.

slowing from its torrid first-half pace, which eventually could take pressure off of interest

But prices pulled back and bonds retreated when federal funds rates climbed to 11% percent from the 11% percent Monday and Bankers Trust raised its broker loan rate. However, David Jones of Aubrey G. Lanston

said the higher rate level was a "technical matter and not a change in Federal Reserve policy. The ago, fell 1% to 33%.

ment situation that is coming to an end."

Chairman Paul A. Volcker of the Federal Reserve said Monday that upward pressures on the prime rate are "diminishing at the moment." Also, Preston Martin, Fed vice chairman, said in a television interview Monday he thought day on indications that the U.S. economy slowing down to a more sustainable pace.

Some investors were disturbed that federal funds rates had risen, but analysts said the activity was seasonal and did not reflect a tighter credit policy by the Federal Reserve.

St. Regis, up 4½ Monday, was the most active NYSE-listed issue, off ¾ to 49% on a block of 2002 400 shares at 50. Champion International

fell 1% to 17%. The companies agreed to merge, with Champion buying 60 percent of St. Regis stock for \$55.50 a share.

Rupert Murdoch said Monday he would make an offer for St. Regis that would be more based of the state of th

make an offer for St. Regs that would be more valuable if the company drops plans to acquire Colonial Penn Group. Colonial Penn, which lost 1 Monday, fell 1% to 25%. U.S. Executives May Find Going Home Is Difficult

By KEITH HAMMONDS

New York Times Service

ONDON — With the dollar spurting to records. Americans overseas are enjoying a salary windfall: In many Western countries, housing, food and travel are, at the moment, substantially cheaper than at home. But the dollar can trade both ways "It's great living at \$1.32" to the bound, said Craig Colberg, an institutional stockbroker from Goldman Sachs International who has lived in London for five years. "But I was here at \$2.46 and it was no fun then," be added.

Companies normally try to account for foreign-exchange fluctuations when compensating expatriate executives; most will also adjust for additional tax, housing and educational

expenses. "Our objective is that the amount a person is paid after dealing with hous-ing, dual taxation and any exs. "Our objective is tra costs will keep pace with what he would be making in the States," said Robert J. Haughten, manager of international employee relations for General Electric Co.

The cost of sending an employee overseas is high even when the dollar is strong.

: In addition, overseas employees are generally paid premiums ranging from 10 percent to 50 percent of their base salary. At some companies, like General Electric, the premium depends on the perceived inconvenience of a location: London-based executives receive a lower bonus than those assigned to Lagos or Kuala Lumpur. Other organizations pay a standard premium for any

In many cases, the largest single cost for the company is an employee's tax expense, primarily for taxes due his host government. In some nations, like Norway and Malaysia, the expatriate's tax liability may exceed his actual salary by the time "perks"

There may be U.S. taxes for the U.S. company to pick up as well. The Internal Revenue Service allows most citizens working abroad to exclude \$80,000 of earned income from income tax. But taxable income often includes housing and other companysaid expenses, so many executives end up making more than \$80,000. If total taxes paid to both the United States and host government are more than the employee would have paid staying some, most companies will pick up the difference.

In the end, the cost of sending an executive overseas is substantial. Even in times of a strong dollar, experts say, a company will spend two or three times an employee's original alary to maintain him abroad.

HE most difficult part of an overseas assignment may well be coming home to the United States. In two studies of U.S. and Canadian executives sent abroad, Nancy J. Adler, issociate professor of management at McGill University, found hat many suffered serious professional and personal setbacks ipon returning home. More than half said the jobs they returned o were less satisfying than their overseas posts

And an executive's foreign job often involves far more creativty and responsibility than the one he or she returns to. "The eality is that over 50 percent of the expatriates feel the experimee abroad has hindered their careers, and the rest are neutral,"

Moreover, she said, the supervisors of those returning from iverseas jobs have a "very strong xenophobic response," tending o dismiss the employees' overseas experience.

There may be financial problems as well. If the executive sold a louise before leaving, he or she may not be able to afford a new xecutive may have become accustomed to having the rent, hildren's schooling and transportation costs paid by the compa-

__ So far, little has been done to address the problems of coming loyees to keep their U.S. homes while overseas, and may arrange o pay for property management. Alcan helps find new jobs for eturning employees who cannot be fitted at the home office.

Surplus In Japan Is Record

Renewed Conflict On Trading Likely

TOKYO — Japan announced Tuesday a record \$4.85-billion surplus in trade of merchandise for June that diplomats said could set off another round of bickering with

major trading partners. Prime Minister Yasuhiro Nakaryme Minister y asomiro wakasone, echoing a speech last month
in which he urged the Japanese to
buy more foreign goods, said the
country must increase its imports
to try to stave off overseas complaints about the deluge of Japanese video recorders, cars, microchines and steel chips and steel.

He said at a cabinet meeting that he was also worned about slow imports from Asia, following re-cent complaints from the region.

Western Europe and the United States have criticized Japan's level of exports. After Tuesday's figures were released, one Western diplo-mat said: "The seeds of further conflict are being sown."

The Finance Ministry said exports in June were worth \$14.65 billion and imports \$9.80 billion.

The previous record monthly surplus on merchandise items was \$4.23 billion in March.

Taking into account earnings from nonmerchandise items such as shipping and insurance, Japan's current account surplus rose to a record \$4.38 billion in June from \$1.86 billion May. The May figure had narrowed considerably from \$3.52 billion in April.

Japan also registered a record amount of overseas investment last month at \$6.23 billion, up 40 percent from the previous high of \$4.42 billion in April.

Economists said this was a major cause of the yen's recent weakness against the dollar and had helped to create an overall balance of payments deficit for June of \$2.25 bdlion, sharply up from \$1.22 billion in May and \$1.38 billion in June

"Both goods and money are gong out of Japan and probably most to the United States," a Bank of Tokyo official said. Japan attributes much of its

trading success to the low prices paid by its companies for oil and other industrial raw materials, valic lae strong Japanese goods unusually attractive to Americans.

However, Western Europe and the United States complain that Japan's success costs them jobs and damages their industry.

Japan is due to have trade talks with the United States in Tokyo in the courts. "We will protest the published." September and with the European effective date and the substance Community in Brussels in October. and decide what further action to have a major impact on trade rela-

Zigong Plant Is Industrial Model

Steel Unit's Tax Depends on Its Output Level

By Christopher S. Wren New York Times Service ZIGONG, China - When Zigong's steel-casting plant re-opened in 1975, it was so short of

funds that the management could not afford to buy some

bamboo sleeping mats.

The factory had been moved from Shanghai to Sichnan province in 1965 to help spur the economy of southwestern China. Then the Cultural Revolution began and production of steel valves was suspended while the plant's Maoist factions quarreled. For the next mne years. reled. For the next mine years, nothing was manufactured there There were no roads and peo-

ple had to make their own way. said Wang Zizhen, now the fac-tory director, recalling his arrival with a team to reopen the plant.
"Water was flowing into ditches

"Water was flowing into ditches and the place was covered with scrap metal."

From a paralyzed bastion of leftist ideology, the factory in Zigong, a city of 500,000 best known for producing salt, has declared into a model of the developed into a model of the industrial reforms promoted by China's leader, Deng Xiaoping. The factory presents a case study of the kind of production incenrives being attempted in heavy industry, which enjoyed an un-challenged priority in the alloca-tion of capital and raw materials

Many of the incentives were tested first at enterprises in Sichuan like the Zigong factory when Prime Minister Zbao Ziyang worked as the provincial party secretary in the 1970s.

FDIC May Raise Banks' Premiums a subject of speculation in banking ance. In 1950, Congress reduced circles since the agency lent \$1.5 the effective rate by providing for billion of its \$16 hillion of re-

By Kenneth B. Noble New York Times Service

WASHINGTON - William M. Isaac, the chairman of the Federal Deposit Insurance Corp., has indi-cated that the agency might have to raise the insurance premiums paid by U.S. banks next year to replenish the agency's reserves after its help to Continental Illinois National Bank & Trust Co.

A spokesman for Mr. Isaac said 14,000 insured commercial and

savings banks. But as early as possible in 1985. agency's reserves.

The spokesman refused to discuss how the use of \$2.5 billion of

the agency's funds to help keep the recent years.

Chicago bank afloat might influence the agency's decision on insurance assessments, as the payment by the banks is called.

In testimony Monday before the ron forecast. Joint Economic Committee of Congress, Paul A. Volcker, chair-

sources to the Chicago bank in May. Last week, it committed itself to spend \$1 billion to buy stock in the bank's parent company and it also assumed \$3.5 billion of bank debt owed to the Federal Reserve. In addition to its reserves, the

agency has a right in law to borrow \$3 billion directly from the Trea-Monday that there would be no rise sury. Deposits insured by the this year in the premiums paid by FDIC exceed \$1,200 hillion. Andrew Carron, an economist at

Shearson Lehman/American Ex-press, noted that the FDIC customthe spokesman said, the agency will arily rebates to banks a substantial assess "any potential losses" to the part of the statutory insurance prearily rebates to banks a substantial mium, which is 1/2 of 1 percent of a bank's total deposits. The rebate has run as high as 60 percent in

But because of the dent that aid to Continental is making in the agency's resources, "the rebate will be practically nothing," Mr. Car-

The FDIC receives no appropriations from Congress. Its income man of the Federal Reserve Board, consists entirely of insurance presaid the agency had adequate re- miums and the interest it earns or sources for helping Continental. government securities. LONDON — Beecham Group PLC shares surged 20 pence to close at 308 pence Tuesday amid speculation that the drug and consumer product company would attract a takeover bid. Beecham said that it knew of no reason for the sudden rise in its share price, which brought the company's stock market value to about £2.2 billion (\$2.9 billion).

The company's shares have performed weakly in relation to the rest of the market in the past year. Even so, analysts could identify few po-

THE HAUNTING OF SUZANNA BLACKWELL

By Richard Setlowe, 355 pp. \$14.95. Holt, Rinehart and Winston, 521 Fifth Ave. New York, N.Y., 10175.

Reviewed by Carolyn Banks

THE title of this novel suggests a ghost I story, and the book is, to be sure, that But it's a love story and a war story, too. The wonderful thing is that we can't separate the three into distinct threads; the plot consists of their coincidence.

The tale begins in 1958, when Suzanna Blackwell, shortly after her mother's funeral, is visited — oot at all frighteningly — by her mother's ghost In a way, Suzanna grows to become her mother, wearing the same perfume, adopting the same mannerisms. When she goes to Mare Island for the naval change-of-command ceremony that will see her father installed in his last post before retirement, still another ghost comes to call: that of her mother's lover.

Like her mother before her, Suzanna yields to his clove-scented allure. "He wore a white formal officer's uniform, exactly as he had been dressed in the photographs over which her mother had wept, and he smiled at her as sweetly and shyly as a bridegroom. . . As if she were a magnet drawn irresistibly to its opposite pole, she moved into his arms, at first slowly, and then in B rush. They embraced, then slowly danced. He was not B hallucination, not a dream." Not since "The Ghost and Mrs. Muir" has there been a shade as appeal-

But meanwhile, there's Suzanna's earthly lover, Michael, a televisioo producer who had been a journalist in Vietnam. While filming a spot about the World War II vessels moth-balled in the Mare Island harbor, the ghosts of the men who died aboard those ships reveal to Michael the secret that provokes, for Suzanna's

father, a haunting of another sort; guilt.
Those ships! Richard Setlowe has made them — in part by juxtaposing them to the elegant "pillared mansions of the senior officers along Walnut Avenue" - seem as sinister as the House of Usher. They are "a great desolste armada - aircraft carriers, battle cruisers, assault transports, destroyers, and submarines - all packed stem to stern in tight rows along the length of a narrow, bleak pier." The author also gets us asking questions, and the right ones, He drops just the sort of hint that will keep us reading. In the receiving line at the oaval base, for instance, Michael makes his first appearance. He shakes Suzanna's fa-ther's hand and "Suzanna had oever before seen a look of instant and mutual contempt flash between two men who had apparently never met before. It was as if they had immediately recognized one another." We wait for the inevitable confrontation between the two but are unprepared for its consequences. Setlowe expertly balances the need for fulfilment of our expectations with our yearning for surprise.

Suzanna's father, because he is the official representative of war, is the closest thing the book has to a villain, and yet we feel for the man throughout. We are moved when he confesses to Suzanna that after he and his wife made love for the first time, "she cried. She crical as if her heart might break, I was tremendously touched by what I thought were her tears for her lost innocence. I admit I was a little slow. It didn't dawn on me for a long time that the reason she was crying her heart out was that it hadn't been him."

Setlowe is an able and effective writer. He is oot afraid to use the time-tested devices of suspense and occult fiction — cliffhanging chapter endings, for example - but never lets them become gimmicks. His story tests rather than strains our credulity. Be advised that "The Haunting of Suzanne Blackwell" is a thoughtfully done novel, out one of excess.

Carolyn Banks' most recent novel is "The Girls on the Row." She wrote this review for The Washington Post.

Fadeout on Conventions

By Russell Baker

NEW YORK — Network tele-vision exposure has been mother's milk to politicians for 30 years now, and mother is finally tired of it.

Last spring the networks rotioned camera time for candidates so tightly that to get more than 10 seconds on the tube they would have had to come out against dogs Katherine Davalos Ortega as 007 is and children. Two hours in prime time was all they allowed the Democratic Convention. It sounds generous notil you recall that conventions used to play from dawn to speech. Another swellest guy in the dawn even when the oratorical posturing was enough to make a cow bawl for mercy.

What's happening is plain to see. Nobody runs forever on television, itician is finally going the way of Perry Mason and Milton Berle.
Naturally, Republicans, whose not even Walter Cronkite. The polconvention occurs this month, are asking what it means for them.

If the networks did not suffer from sentimentality and the equaltime doctrine, it would probably mean curtains, for while story values were minimal at the Democratic Convention, the only question of the slightest interest about the Republican Convention is why the Republicans are bothering to hold

have been: to wallow in that ever-

loving, sweet-smelling, free TV exposure. Nowadays, however, as a Reagan man complained to a re-porter the other day, though Republicans "make plans for speakers and films, the networks still may decide that the American people shouldn't see it.' Evelids grow heavy when politi-cians talk about "speakers and

films." We know those speakers— the same old speakers all America refuses to watch on the Sunday interview shows. Ye1 the oetworks are not merci-

less. Provide entertainment, and they will beam it into the parlor for you. The Republicans have the resources to provide entertainment. What they lack is show-business

How else can anyone explain their omitting former President Nixoo from the convention program? In his several TV interviews Nixon has shown astonishing pow-

ANNOUNCEMENTS

et to attract and entertain his audi-

He is so good at it that CBS has paid vast sums for the privilege of presenting him. The Republicans could probably get him for nothing, yet pass him by. And for what? For a keynote speech by Katherine Davalos Ortega, the United States treasurer. In the entertainment department Richard Nixon is to to Rebecca of Sunnybrook Farm.

The Republicans do have former

President Ford booked for a world Ford may be, but he is a very dull speaker. For entertainment value the Republicans should have him interview Nixon. For ooe thing, Nixoo is at his best in the interview format: for another, it fore Nixon resigned the presidency.

Another possibility: How about a floor fight? It could be waged between William Casey, the CIA director, and James Baker of the White House staff. The subject: Jimmy Carter's 1980 campaign briefiog papers and bow they turned up that year in Republican

Baker has said he believes they came from Casey; Casey says Bak-er is full of mush. Let the convention settle it by democratic process: Is James Baker full of mush, or is be not? There's an evening's entertain-ment I'd pass up "Three's Company" to see.

And what about using visual ef-fects to dramatize the president's position on issues of low television appeal like acid rain? Reagan's policy on acid rain is that it needs

It should be no great technical challenge to prepare vats of acid water to be sprayed continuously from ceiling hoses for the four days Even if a few delegates came

down with ailments stranger than pneumonia, a mere four days' exposure to acid rain would oot be a reliable scientific study, but it would be entertaining to watch TV people interview Republicans on how they get the acid out of their hair after a hard day in the hall. That, folks, is winning television.

The Happiness of Bluebirds

By Angus Phillips Vashington Pout Service

BELTSVILLE, Maryland — Both the executive director. of the North American Bluebird Society and the man responsible for establishing Prioce George's County, Maryland, as the self-proclaimed bluebird capital of the world agree that one of the sweetest things about bluebirds is the way they warble, but neither

can duplicate the song.
"Well, 1 can try," said Mary
Janetaios, the executive director, pursing her lips to emit a pair of tweets. "No, no, that's not it." "I don't know anyone who can

duplicate the bluebird's song." said Larry Zeleny, who has devoted 18 years since he retired from the U.S. Department of Agriculture to saving the bluebird.

enjoy bluebirds at the Beltsville Agricultural Research Center in Maryland is chiefly thanks to Zeleny, 80, a former biochemist and a lifelong fan of the gentle, elec-tric-blue thrush that in his Minnesota childhood was as common

old and watched the sparrows move in. It infuriated him then as it infuriates him now when he lifts the top on one of the 60 bluebird boxes he keeps at the center and finds inside a house sparrow that has pecked to death four baby bluebirds and their mother and taken over the nest. The good news is that Zeleny,

outhor of a book on bluebirds and former bluebird columnist for a birder's publication called the Purple Martin News, has developed a system whereby man can wage war on starlings and When he retired in 1966, and

won permission to set up blue-bird nesting boxes at the 7,000acre (2,800-hectare) research center, a bluebird sighting there was "But if you listen, you can hear the real thing," said Janetatos.

That you can now see, hear and maranding sparrows and starmaranding sparrows and star-lings, and that first year he had a nesting pair of bluebirds. By 1969, and every year since, be produced from 100 to 200 baby bluebirds a season. Usually about half his nesting boxes are in use.

Zeleny guesses that 90 percent a harbinger of spring as the robin.

Zeleny built his first bluebird bave never seeo a bluebird. of Americans under 40 years old

and starlings, both imported from Europe in the 1800s, have evicted bluebirds from their traditional nesting sites.

The bluebird is a North Ameri-

can species and there are still many in Canada — equally de-pendent on human help. Some remain year-round in Bermuda, where the society is also active, but information on bow they are faring in Mexico and Central America is hard to come by. Zeleny is a gentle fellow, but he bird.

will pinch the heads off house sparrows and startings he catches around his bluebirds. These two nuisance species, along with the rock dove (pigeoo), are the only birds not protected by U.S. law, he said, so he's within his legal

In addition, he said, the house sparrow is a dirty bird, not a sparrow at all but a member of weaver finch family that builds its nest with band-nids and cigarette butts, and the starling is an unkempt misfit.

"The bluebird," he pointed American birds." He once count- extinct.

At the Beltsville research conter the casual visitor can drive along the narrow roadways and see bluebird after bluebird perched on the fences, in the wires, or feeding the young in the nesting boxes.

Unscrewing the top oo one of his homemade boxes the other day. Zeleny found a perfect nest of coiled grasses and four tiny, pale blue eggs. In the next box lay day-old chicks, their months spread wide in hopes of a meal. In a box down the lane lay some 10day-old chicks, on their wings the first faint signs of the brilliant blue that distinguish the mature

American Bluebird Society, which Janetatos runs from her home, generated enough enthusi-asm in Prince George's County in 1976 that the bluebird was designated the official county bird. More important, in Zeleny's

The 4,000-member North

view, is the fact that his boxes have belped save the bluebird. "The wonderful thing is that everywhere someone establishes a trail [of nesting boxes], they come back," he said

"If the trend of the last 50 or 60 years continued for another 50 or out, "is the most loved of all 60," he said, "they might become

PEOPLE

More Williams Fallout

same have sued the photographer and Penthouse magazine publisher Bob Gueclone for some of the profits generated by the pictures. The pair contended that the photographer, Thomas Chiapel, reneged in a six 1,500 photographer who emigrated to the photos through them and instead dealt directly with Fenthouse. After the photos were published, Williams stepped down. The original issue of 5,000,000 copies sold out, according to Penthouse, and 750,000 additional copies were printed. In the spit filed Managazine has pent six 1,000 photographer who remigrated to the photographer who emigrated to the photographer who emig ditional copies were printed. In the suit filed Monday in in Manhattan, Steven Breitman of Duncilen. New Jersey, and Howard Mann of Philadelphia assert that Chiapel had agreed to sell the pictures jointly with them. Meanwhile, the woman who posed with Williams was identified as Amy Geier Wessell of Boulder, Colorado. She did not authorize release of the photographs and "was shocked and dismayed" when they were published, her law er, Richard Irvin, said Monday. As in the case of Williams, Guccione says he has a signed model release from Wessell williams is scheduled to audi-tion Tuesday for the part of Mu-setta opposite Linda Roustadt in the Public Theater production of

arranged about three months ago," said Joseph Papp, the producer. Yuri Lyubimov, the Soviet direc-tor who has been stripped of his Soviet citizenship, said Monday he will work in Bologna and Paris but will not become a citizen of any country other than the Soviet Union. "I have been, I am and I will remain Russian," Lyubimov said. "I have kept my passport even though the Soviet consul in Geneva telephoned me to insist that I go to that city to return it." Lyubimov said he will sign a three-year contract with the Arena del Sole theater in Bologna, the showcase of the Theater Association of Emilia Romagna. He also plans to work next year at the Bobigny Cultural Center in Paris and said he plans eight or nine plays for Bologna, starting in December with his pro-
